

Fiscal Year 2026

ANNUAL BUDGET

FINAL

**PORT of
SAN DIEGO**
Waterfront of Opportunity

PAGE LEFT INTENTIONALLY BLANK

Overview

The San Diego Unified Port District's (District) budget document establishes a one-year financial plan to fulfill the District's statutory mission, support the District's role as trustee of State tidelands, and achieve the strategic goals of the District. The budget is also a disclosure document intended to provide transparency on District operations.

The District's budget is divided into sections as presented below:

Section 1 – Introduction

This section identifies the Board of Port Commissioners, Executive Team, Vision, Mission, Values, Promise, and Strategic Budgeting, Map of Tidelands, District Overview, and Branding.

This section also contains the Message from the Chief Financial Officer (CFO), the Budget in Brief, Forecast, and Projected Fund Balance. The CFO Message discusses the current state and future plans of the District, which will be included in the final Adopted Budget. The CFO Message also highlights the major provisions that have been included in the Fiscal Year 2026 (FY 2026) Budget and discusses major accomplishments from the prior fiscal year.

Section 2 – Reader's Guide

This section is designed to help familiarize the reader with the District and its budget by providing an overview of the District organization, and the budget timetable.

Section 3 – Highlights

This section provides an overview of revenue, staffing, expenses, Balanced Capital Program (BCP), Technology Management Program (TMP), Major Maintenance Program (MM), equipment outlay and other capital projects, Economic Recovery Program (ERP), debt management, and other fund highlights.

Section 4 – Departments/Cost Centers

This section organizes departments and cost centers alphabetically. Departments include a mission, vision, and key services provided / goals, followed by a summary of departmental expense, staffing, equipment outlay, and expense budget breakdown. The cost centers include a summary of departmental expenses and expense budget breakdown.

Section 5 – Appendix

This section contains District trends and metrics, a variety of other budget-related information including a glossary of terms used in the budget, and a list of Board of Port Commissioners (Board) policies affecting the budget.

Vision, Mission, Values, Promise, and Strategic Budget Planning

21st CENTURY PORT VISION

We are an innovative, global seaport courageously supporting commerce, community, and the environment.

MISSION

The Port of San Diego will protect the Tidelands Trust resources by providing economic vitality and community benefit through a balanced approach to maritime industry, tourism, water and land recreation, environmental stewardship, and public safety.

VALUES

Courage, Integrity, Accountability, Teamwork, Transparency, Innovation, Fairness, Inclusiveness, & Fun

PROMISE

Enrich the relationship people and business have with the dynamic waterfront of San Diego Bay, providing prosperity and a more remarkable way of life.

PURPOSE AND SCOPE OF STRATEGIC BUDGET PLANNING

Annual strategic budget planning enables the District to clearly define, refine, and prioritize projects and services that advance its strategies and achieve the goals outlined for each initiative. The strategic budget planning process for FY 2026 began soon after the adoption of the FY 2025 budget. District staff took a forward-thinking approach to planning this year, incorporating dynamic elements. As part of our commitment to continuous improvement, Port staff developed Operating Plans (Ops Plans) for each department, outlining each department's mission, vision, key services, strategic projects, and their impact on and support for capital projects. This approach ensures that needs and priorities, along with their impacts on other departments, and how the strategic plan will be accomplished are accounted for within the Ops Plans prepared by each department.

After drafting the operating plans, we held a budget strategy workshop where each Chief presented highlights from their department's plans, including top priority projects and initiatives—both ongoing and upcoming. We then discussed the alignment of resources across departments to ensure organizational priorities were well-understood and supported. The Senior Leadership Team categorized the priorities into focus areas based on the Port Act: development, operation, maintenance, control, regulation, and management.

A list of these priorities, categorized accordingly, along with a visual representation of how each item aligns with the Public Trust Doctrine, is shown in the following pages. By aligning the priorities with the Port Act and the Public Trust Doctrine, our goal is to use the Port's core authority as a framework for strategic budgeting and goal-setting. This approach provides consistency for future planning and serves as a key component in the budget book.

PORT ACT

A port district for the acquisition, construction, maintenance, operation, development and regulation of harbor works and improvements, including rail and water, for the development, operation, maintenance, control, regulation, and management of the harbor of San Diego upon the tidelands and lands lying under the inland navigable waters of San Diego Bay, and for the promotion of commerce, navigation, fisheries, and recreation thereon, may be established or organized and governed as provided in this act and it may exercise the powers expressly granted herein... to protect, preserve, and enhance: access to and natural resources of the bay, including plant and animal life, and the quality of water in the bay.

PUBLIC TRUST DOCTRINE

District Overview

THE SAN DIEGO UNIFIED PORT DISTRICT

The San Diego Unified Port District (District) is a regional public agency established in 1962 by an act of the California State Legislature to consolidate management responsibilities for the San Diego Bay (Port Act). This consolidation provides ongoing efficiencies and centralized planning for the tidelands along the San Diego Bay.

- The District is an economic engine, creating jobs and dollars for the regional economy through the promotion of maritime trade, tourism, and other commercial activities to enhance the tidelands.
- The District is an environmental steward, preserving and enhancing the natural resources of the San Diego Bay and surrounding tidelands.
- The District is a provider of community services, providing public access, public safety, recreation, and community activities along the waterfront for visitors and residents of the region.

A seven-member Board of Port Commissioners governs the District. Board members are appointed to four-year terms by the city councils of Chula Vista, Coronado, Imperial Beach, National City, and San Diego. The San Diego City Council appoints three commissioners and each of the other member city councils appoints one commissioner. Port Commissioners establish policies that the District staff, under the direction of the President/Chief Executive Officer (President/CEO), uses to conduct daily operations.

The District's maritime, real estate, and parking operations generate billions of dollars for the region's economy and allow the District to operate without the benefit of tax dollars. The District has the authority to levy a tax, but has not done so since 1970.

PUBLIC TRUST DOCTRINE

The District is also a trustee of state lands subject to the Public Trust Doctrine, which mandates how California's sovereign lands should be managed. Also known as public trust lands, they include areas that used to be or are still under the bay and other waters. These lands cannot be bought and sold because they are held in the public trust and belong to the people of the State of California. As the trustee of these lands, the District is responsible for carrying out the principles of the Public Trust Doctrine. This includes protecting the environment, promoting the public's enjoyment of these lands, and enhancing economic development for the public's benefit.

Branding

Brand Promise

Enrich the relationship people and businesses have with the dynamic waterfront of San Diego Bay, providing prosperity and a more remarkable way of life.

Brand Foundation

The District, commonly known as the Port of San Diego (Port), is where San Diego greets the world. On behalf of the State of California, the Port is an innovative champion for the 34 miles of San Diego Bay waterfront along Chula Vista, Coronado, Imperial Beach, National City, and San Diego.

The Port is a protector of the environment and our communities, an innovator for businesses and a host to visitors and residents. Self-funded, the Port reinvests the revenues from hundreds of businesses on our dynamic waterfront, creating prosperity and a remarkable way of life for all.

SUB-BRANDS	PURPOSE
	<p>Port Maritime moves goods and people around the world.</p> <p>Home to a successful working waterfront, we work with our maritime partners to provide well-paying jobs and billions of dollars for our community.</p>
	<p>Port Waterfront Development brings vision to reality.</p> <p>As the innovative champion for businesses in our region, we ensure our partners have the opportunity to stay competitive in the global marketplace.</p>
	<p>Port Public Safety protects and oversees the safety of the San Diego Bay waterfront.</p> <p>Our Harbor Police Department is at the front line of security and service, with specialized expertise on land and sea.</p>
	<p>Port Experiences provides unique opportunities to explore and enjoy our vibrant waterfront.</p> <p>As a treasured destination, the Port is the heart and soul of our collective pride, welcoming visitors from around the world to be inspired by San Diego Bay.</p>
	<p>Port Environment champions the safekeeping and environmental care of our dynamic waterfront.</p> <p>The Port is a leader in protecting our land, air and water, ensuring it remains a vital resource for generations to come.</p>

PAGE LEFT INTENTIONALLY BLANK

Message from the Chief Financial Officer

Cautious Optimism

The San Diego Unified Port District has enjoyed four consecutive years of robust revenue growth attributed to a diversified revenue portfolio, an enhanced strategy for securing grants and external funding, and optimized investment returns. As we look ahead over the next several years, we are well positioned for continued revenue growth supported by steady cargo business, cruise activity approaching pre-pandemic levels due to an anticipated increase in calls and homeports, and hundreds of millions of dollars being invested in upgrades and renovations by our District tenants. We are making considerable investments ourselves, with millions allocated for marine terminal modernization focused on electrification and sustainability, and over \$150 million dedicated to infrastructure projects currently in design or under construction. We are also upgrading our SAP system to revamp our core transactional systems, enhance procurement tools, and streamline business processes.

These commitments provide numerous reasons for optimism as we approach this year's budget cycle. Nevertheless, it is prudent to exercise caution in light of the heightened uncertainty within the economic, political, and regulatory environments.

As we move into the next fiscal year, we are keeping an eye on economic signals – at the time of publication, they are mixed with forecasts from financial institutions trending downward. While potential recession indicators have risen, opinions are varied, and some are speculating a recession would be shallow. We are also monitoring federal policy changes, including proposed tariffs on auto imports and building materials, which could impact revenues and construction costs. Fluctuations in the U.S. dollar and evolving international policy may influence tourism and discretionary spending at the District's restaurants and hotels and cruise demand could reduce. On the expense side, we anticipate increased pressure from materials pricing related to tariffs on aluminum, steel, and wood, and ongoing labor shortages, particularly those driven by shifts in immigration policy. These challenges reinforce the importance of prudent financial management and agile forecasting.

So, for the Fiscal Year 2026 Budget, we planned with *Cautious Optimism* and a commitment to continuous improvement to refine our methodology, enhance transparency, and better align resources with strategic priorities. We are moving forward with rigorous evaluation, carefully assessing cost containment strategies, and analyzing the long-term impacts.

Another positive worth noting is that for the 11th straight year, the District has earned a Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association for our Annual Comprehensive Financial Report (Fiscal Year 2024). It is the highest form of recognition in governmental accounting and reporting and signifies that we meet high standards in financial policy-setting, year-round accounting, and year-end reporting. Receiving the award, combined with our clean financial audits, strengthens our credit rating, providing the District access to more favorable financing options.

With the FY 2026 budget, we are advancing major project goals and initiatives, including the following:

- 1220 Pacific Highway Redevelopment: The District is pursuing redevelopment of an approximately 3.4-acre site located at 1220 Pacific Highway. The leasehold was acquired from the Navy in 2023 after it had been leased by the Navy since 1949 primarily for office uses. Staff anticipates presenting a redevelopment proposal to the Board of Port Commissioners (Board) in FY 2026.
- B Street Pier Terminal Upgrades: The District is working on upgrades for the B Street Pier cruise ship terminal, including demolishing approximately 9,000 square feet of outdated and unused office space inside the terminal, and then adding new security screening areas, new bathroom facilities, improved lighting, and new flooring. Construction is expected to begin in FY 2026 and is estimated to take approximately a year once all permits are issued and a construction contract is awarded.
- César Chávez Park Enhancements: As part of efforts to enhance its public parks, the District is planning to update and make more improvements to César Chávez Park in Barrio Logan to enhance the overall quality of the public space, introduce new sustainable approaches to the shoreline, and improve access to the waterfront for the community. Public outreach for this effort, to seek community and stakeholder feedback to help inform design development, began in FY 2025. The project is the latest in a series of improvements made in the park in recent years, including replacing the

Message from the Chief Financial Officer

grass turf on the multi-purpose recreational field with new turf, grading and drainage improvements, and modifications to the existing irrigation system; and adding picnic tables, benches, shading and telescopes on the park's pier.

- Cruise Business: The District is expecting cruise business to increase in FY 2026 with the addition of Norwegian Cruise Line, and again in FY 2027 when Royal Caribbean Cruise Lines will homeport in San Diego. Norwegian Cruise Line is planning to make 21 cruise calls and welcome 100,000 passengers during the 2025-26 season, and Royal Caribbean is expected to make 44 cruise calls and attract 211,000 passengers during the 2026-27 season. These new customers join long-time homeport partners, Holland America Line and Disney Cruise Line. The FY 2025 season also featured Princess Cruises, Viking Cruises, and Silversea Cruises, and welcomed first time visits to San Diego for Viking Neptune and the Viking Sea. Overall, the FY 2025 season saw 75 calls.
- East Harbor Island Entertainment District: As part of efforts to enhance and activate the San Diego Bayfront, the Board directed staff to prepare an Environmental Impact Report (EIR) for the redevelopment of an approximately 43-acre area of eastern Harbor Island. The goal of this redevelopment project is to bring new public access and recreation opportunities where none currently exist as well as to provide leisure activities and food and beverage options for visitors and locals. Approximately 11 acres will be developed into new public waterfront parks and promenades, a proposed Topgolf venue, space for one or more additional "eatertainment" venues, and supporting infrastructure. Next steps include public review and input, and additional planning is expected in FY 2026.
- Grand Caribe Shoreline Park Improvements: The District began seeking public input on potential coastal resilience strategies for Grand Caribe Shoreline Park in Coronado. Grand Caribe Shoreline Park is a 2.4-acre park on the southeastern half of an artificial peninsula in southwestern San Diego Bay. Since the construction of the peninsula, Grand Caribe has experienced severe erosion, threatening the shoreline, beach, trail, and native habitats in the area. Staff also completed a coastal site assessment to determine future shoreline stabilization efforts and is committed to identifying long term solutions for erosion at Grand Caribe. Additional outreach and planning are expected in FY 2026.
- Harbor Park: The District anticipates making improvements in FY 2026 to the newly expanded Harbor Park on the Chula Vista Bayfront. With the completion of the Gaylord Pacific Resort & Convention Center in FY 2025, the park formerly known as Bayside Park has grown from approximately 12 acres to 25 acres. The design process for improvements for the new park area is underway with construction anticipated to begin in late 2025. Initial improvements, referred to as the Harbor Park Upland Improvements project, include new playground areas, park furnishings including picnic tables, benches, shade structures, bicycle parking, etc., landscaping and circulation pathways. Additional improvements anticipated in future phases include a bigger and better beach surrounded by terraced steps, an expanded waterfront promenade, a kayak and paddleboard launch, north and south meadows with paths and picnic tables, additional restrooms and parking, and more.
- Kellogg Beach Sand Replenishment: Kellogg Beach is a popular recreation area in the La Playa area of northern San Diego Bay. To help protect Kellogg Beach from natural erosion, the District replenishes the sand at the beach every other year. The project is anticipated to begin early FY 2026 and take two to three weeks to complete. This project is budgeted as part of the Port's Major Maintenance Program.
- Maritime Clean Air Strategy: In FY 2025, the District made significant strides in meeting its zero emission goals and objectives identified in the Maritime Clean Air Strategy (MCAS) and this progress is anticipated to continue in FY 2026 along with an update to the document. Approved in 2021, the MCAS is the most ambitious clean air strategy of its kind in the state. The MCAS identifies projects and initiatives to improve environmental and community health through cleaner air, while also supporting modern and efficient maritime operations and jobs. Since the MCAS was approved, the District has implemented approximately 66 percent of the nearly 40 objectives outlined, and along with various partners, have committed over \$200 million into electrification and infrastructure projects. Major projects advancing in the next fiscal year include:

Message from the Chief Financial Officer

- ZE Truck Stop: the environmental review process began in fall 2024 for an approximately 4.8-acre zero-emissions truck stop, to be built by Skycharger, LLC and located at 19th Street and Tidelands Avenue in National City. The proposed ZE truck stop project supports the MCAS goal to achieve 40 percent zero emission (ZE) heavy-duty (HD) truck trips to and from the Port's marine cargo terminals by June 30, 2026, and 100 percent ZE HD truck trips by December 31, 2030. Infrastructure to supply power to the ZE trucks is critical to achieving these MCAS aspirations. Board certification of the Environmental Impact Report, lease approval, and a Coastal Development permit, among other entitlements and permits, will be required before construction can begin. In August 2024, the California Energy Commission awarded Skycharger with a \$10 million grant for this project, and community outreach efforts are underway.
- Shore Power: work is underway and will continue in FY 2026 on shore power enhancements at the B Street Cruise Ship Terminal and National City Marine Terminal. The additional shore power systems along with a new bonnet system under construction will dramatically reduce emissions by cargo and cruise vessels.
- Harbor Drive 2.0: Harbor Drive 2.0 is designed to improve Harbor Drive between the District's two cargo terminals by creating a better truck route for more efficient maritime cargo handling, enhance pedestrian, bicycle, and transit connections, and improve air quality by removing greenhouse gas emissions. In FY 2024, the Board approved a cooperative agreement between the District, Caltrans, and SANDAG, and authorized approximately \$2.2 million in funding, for the Harbor Drive 2.0 and Vesta Bridge projects. The District, Caltrans, and SANDAG are working together to advance Harbor Drive 2.0 to construction.
- Electrical infrastructure upgrades: In FY 2025, the District received a \$5 million grant from the San Diego County Air Pollution Control District's Clean Air for All grants program to help fund electrical upgrades at the Tenth Avenue Marine Terminal. The grant requires a \$6 million match from the District, which will be allocated from the approximately \$59 million Environmental Protection Agency's Clean Ports Program grant awarded to the District in October 2024. Electrical updates will include upgrading the existing 12kV system to support battery electric cargo handling equipment. Future electrical upgrades will also be made at Tuna Harbor Wharf.
- National City Bayfront: In FY 2025, the District and the City of National City celebrated the start of construction on the Pepper Park Phase 1 Improvements Project. The project includes the addition of a perched beach, a pirate-themed playground, a splash pad, an overlook/terrace, and hillside play area, as well as an additional picnic area, a new entry plaza, and new landscaping and hardscaping. These improvements, identified as a result of public outreach, will be paid for by a combination of Port, federal and state funds, including \$4.35 million received via the American Rescue Plan Act and the State of California's Coronavirus Fiscal Recovery Fund, along with a \$250,000 contribution from Port tenant Austal USA. Construction on the phase one improvements is expected to be completed in FY 2026. These improvements are part of the National City Balanced Plan, which is a water and land use plan that seeks to balance maritime, commercial recreation and public access on the National City Bayfront by expanding Pepper Park, realigning Marina Way, improving visual corridors and public access corridors for pedestrians and cyclists, and creating more contiguous commercial recreation and maritime uses. In November 2022, the Board voted to certify the Environmental Impact Report and approve the Port Master Plan Amendment for the Balanced Plan. This initiative is a collaborative effort among the City of National City, Pasha Automotive Services, and GB Capital Holdings, as well as community stakeholders.
- Native Oyster Living Shoreline Expansion: In 2021, the District and the California State Coastal Conservancy constructed an oyster reef adjacent to the Chula Vista Wildlife Reserve in south San Diego Bay. The project is the first nature-based solution of its kind in San Diego Bay. The District is looking to expand this program in other parts of the San Diego Bay in FY 2026.
- Port Master Plan Update: In late 2025, District staff anticipates certification of the Port Master Plan Update (PMPU) by the California Coastal Commission (CCC). The Board certified the Final Program Environmental Impact Report (EIR) and approved the PMPU in FY 2024. The District's planning for the "future of the Port," formally known as the PMPU, began in 2013 and is being done through a multi-faceted and comprehensive approach and process known as

Message from the Chief Financial Officer

Integrated Planning. The Port Master Plan is a water and land use plan that designates specific areas of San Diego Bay and the surrounding waterfront for a variety of uses including maritime, fishing, visitor-serving commercial, recreational, environmental conservation and protection, and navigation. The plan determines where port activities should take place, where recreational amenities should be located, and where commercial uses like hotels, restaurants, and visitor-serving retail may be built. A Port Master Plan is required by the San Diego Unified Port District Act and the California Coastal Act. The Port's existing plan was certified in 1981 by the CCC and has never had a comprehensive update, though it has been amended 40 times. The District is updating the Port Master Plan to reflect changes in the needs and priorities of Californians and the region's growth since the first plan was approved in 1981. Throughout the entire effort, public and stakeholder involvement has been instrumental in helping to shape and improve the plan.

- **San Diego Clean Cargo Project:** The District was awarded a nearly \$59 million grant from the United States Environmental Protection Agency (EPA) for its San Diego Clean Cargo Project (CCP). The San Diego CCP aims to significantly reduce emissions by making improvements to the Tenth Avenue Marine Terminal (TAMT), installing shore power systems to support harbor craft at TAMT and to support Ocean Going Vessels calling at TAMT, advancing a Zero Emissions Truck Stop, and purchasing and deploying battery-electric zero-emissions equipment and vehicles. The timeline for completion of these projects is anticipated for 2028.

In addition to looking at new and ongoing projects in the year ahead, it is appropriate to reflect on the past year. The following accomplishments during FY 2025 represent significant milestones, and work on many of them continues in FY 2026:

- **Blue Economy Incubator:** In FY 2025, the Board approved a two-year pilot project for \$300,000 with MarineLabs Data Systems Inc. through its Blue Economy Incubator (BEI). MarineLabs' technology will focus on providing persistent wave, wind, and wake data above the water's surface and complement another BEI company, HyperKelp, whose buoy platforms collect data on underwater noise and water chemistry. HyperKelp, Inc. deployed its smart buoy platforms (known as Kelp Smart Buoy) in 2025. The buoy platforms can collect and aggregate data in near real-time and display results on an online dashboard. This technology will monitor underwater noise levels, atmospheric carbon dioxide concentrations, and various water quality parameters, helping inform and support the development of several Port initiatives including shellfish and seaweed aquaculture planning efforts, environmental protection, conservation, restoration, enhancement, and nature-based solutions. As a catalyst for the region's Blue Economy, the District established its Blue Economy Incubator in 2016 as a launching pad for sustainable aquaculture and Port-related blue technology ventures. To date, the District has approved 11 agreements with early-stage companies, including one re-investment, to launch innovative pilot projects, four of which have been completed.
- **Chula Vista Bayfront Project:**
 - **Gaylord Pacific Resort & Convention Center:** In May 2025, with much public and partner fanfare, the 1,600-room Gaylord Pacific Resort & Convention Center opened for business. The \$1.35 billion catalyst project is supporting approximately 4,000 jobs and is expected to have an estimated \$475 million annual regional economic impact. Gaylord Pacific is the South Bay's first world-class hotel and convention center, and it's Gaylord's first West Coast location. It features 1,600 guest rooms and suites, more than ten restaurants, a spa, public promenades, multiple pools, waterslides, a lazy river, and more. The convention center boasts four ballrooms, three levels of meeting space and two outdoor meeting and event lawns. To ensure connectivity to the wider bayfront, the venue also has many public amenities including pedestrian promenades, bicycle access, a variety of food and beverage offerings, game activities, a nature playground and more. Decades in the making, the project was delivered via a public-private partnership jointly conceived by the Port and the City of Chula Vista and executed through the participation of RIDA Chula Vista's partners, RIDA Development Corp & Ares Management.
 - **Sweetwater Park:** Just north of the Gaylord Pacific, the District opened the new Sweetwater Park in April 2025, making it the District's 23rd and largest park. At 39 acres, Sweetwater Park is designed to highlight the natural wildlife of San Diego Bay along with the adjacent Sweetwater Marsh National Wildlife Refuge. The Chula Vista

Message from the Chief Financial Officer

Bayfront project, a partnership between the Port of San Diego and the City of Chula Vista, envisions a vibrant, innovative destination in the San Diego region – a unique and welcoming place for people to live, work, and play. When the project is complete, the public will enjoy more than 200 acres of parks, a shoreline promenade, walking trails, RV camping, shopping, dining, and more.

- Bayfront Park Parking Lot Maintenance: Also, in FY 2025, as part of the District's Major Maintenance Program, the parking lot at Chula Vista Bayfront Park was repaved and restriped through a \$1.45 million construction contract.
- Coronado Yacht Club: The Board authorized staff to begin the environmental review process for a proposed redevelopment project for the 80-year-old Coronado Yacht Club. The project includes demolishing the existing clubhouse, parking lot and landscaping and building a new 17,000-square-foot two-story main clubhouse, a new youth sailing school center, and other landside improvements. The Coronado Yacht Club also plans to install a new public promenade and a viewing platform along the bayfront shoreline. The club estimates that the substantial landside improvements will require a minimum investment by them of more than \$18.5 million. In FY 2026, staff and the Coronado Yacht Club will work together on commencing environmental review per the California Environmental Quality Act and the California Coastal Act. Public and stakeholder review opportunities will be available, including a presentation to the Port's Accessibility Advisory Committee.
- Economic Impact Report: The District released a new Economic Impact Report showing an overall economic impact of \$13.8 billion in the San Diego Region in fiscal year 2023, a 41 percent increase over 2019. The District's job growth was also strong with a 10 percent increase from 2019 to more than 71,000 total jobs supported. Through a multiplier effect, approximately one in 30 San Diego County jobs were generated by the District, and every direct District job supported six more jobs in other industries throughout the county, state, and the U.S.
- Freedom Park on Navy Pier: In FY 2025, the District and the USS Midway Museum achieved another milestone in the Freedom Park at Navy Pier project with the demolition of the headhouse building that sits at the entrance of the pier. In FY 2024, the District and the USS Midway Museum broke ground on the Freedom Park project, which will also include pile improvements and pier reinforcements, and building a park. Once complete, the park will be nearly 10 acres in size, making it the largest veterans park on the West Coast. The total estimated cost is approximately \$65 million. The District is contributing nearly \$12 million, Rep. Scott Peters has allotted \$2 million, and the Midway is covering the rest through various sources, including a fundraising campaign led by the USS Midway Foundation. Freedom Park will provide visitors with unique experiences on the waterfront and will include numerous public amenities including a promenade, nature garden and play structures. Freedom Park is anticipated to open on the North Embarcadero in 2028.
- Harbor Police: In FY 2025, the District's Harbor Police Department remained committed to strengthening its workforce, achieving 18 new hires – 12 officer trainees and six professional staff. To enhance recruitment and retention efforts, the department launched a pilot program featuring a dedicated recruitment officer, aimed at creatively and strategically addressing both current and future staffing needs. The department also advanced key initiatives in facilities and technology, including the initial implementation of a cutting-edge computer-aided dispatch (CAD) system. Under the direction of the Board, the department also began the early planning and design phases for a new Harbor Police Headquarters. Throughout these efforts, the department continued to uphold its mission: to protect and serve with excellence through proactive policing, community engagement, and serving with honor, professionalism, and dedication.
- How to do Business with the Port: The District hosted its annual three-part workshop series, How to do Business with the Port. The initiative is aimed at helping local businesses navigated through the process of becoming a vendor for government agencies like the Port, how to write proposals, and meeting District project managers.
- Imperial Beach Pier & Plaza Enhancements: The District continues to make improvements and enhancements to the Imperial Beach Pier and adjacent plaza, which have included new paint, destination-themed art, an artistic shade

Message from the Chief Financial Officer

structure, and more. The goal of these enhancements is to encourage people to explore and enjoy the Imperial Beach waterfront, experience its ocean and fresh air amenities, sights, and pleasures, and partake in the many services and offerings of the nearby oceanfront restaurants and businesses. In FY 2025, the District began a maintenance project to support the structural integrity of the iconic pier, replace 154 deck boards, and make needed utility and electrical repairs. In FY 2026, the District plans to add a new splash pad at Portwood Pier Plaza.

- Loews Coronado Bay Resort: In FY 2025, the Board authorized staff to begin environmental review for a renovation proposed by Loews Coronado Bay Resort. The 440-room resort and 80-slip marina is operated by Loews Hotels & Co, and the company is proposing to transform the property into a modernized luxury resort destination. The project includes updating guest rooms and amenities, enhancing the landscaping and outdoor recreation areas, and replacing the temporary event tent structure with an improved permanent event space. Public access improvements include a new pedestrian promenade along the bayfront shoreline with spectacular views toward downtown San Diego and the Chula Vista Bayfront. The proposal also includes energy efficient improvements to the resort's infrastructure and utilities. Loews Hotels anticipates a total investment of over \$220 million into the project. Next steps include an environmental review per the California Environmental Quality Act.
- Maritime Clean Air Strategy:
 - Electric cranes: The first all-electric dual mobile harbor cranes in North America are now in full operation at Tenth Avenue Marine Terminal. The two cranes support the District's goals of supporting clean, modern, and efficient maritime operations while also improving public and environmental health, particularly in the Portside Communities of Barrio Logan, Sherman Heights, Logan Heights, and West National City. In addition to the environmental and public health benefits, the new crane system has the heaviest lift capability of any crane system currently in place on the West Coast and enables the Port to attract new business opportunities due to the increased maximum lift capacity – up to 400 metric tons (MT) versus the 100 MT lifting capacity of the Port's diesel crane. The District purchased the cranes for approximately \$14 million, paid for through the Port's Economic Recovery Program. The District also invested approximately \$8.9 million to make electrical infrastructure upgrades to support the cranes, funded in part by a \$2.7 million grant from the San Diego County Air Pollution Control District and \$1.9 million from the District's Low Carbon Fuel Standards (LCFS) credit proceeds.
 - Electric ferries: Flagship Cruises & Events is developing two fully electric zero-emission ferries to serve San Diego Bay. Equipped with advanced battery technology, the new vessels will not emit any greenhouse gases during operation and removes the particulate matter associated with traditional combustion engines. Flagship received a \$15.7 million grant from the California Air Resources Board for the project. The total project cost is estimated at over \$21 million. The electric ferries support the District's MCAS and are expected to launch by fall 2026.
- People of the Port Career Fair: The District hosted its third annual People of the Port Career Fair to help people in the region find their next career opportunities. In partnership with the San Diego Working Waterfront, District tenants and the San Diego Community College District, 30 different businesses from various industries on the San Diego Bay waterfront participated and engaged with applicants looking for good paying and rewarding jobs. As a result of the District's media, marketing, and outreach efforts, more than 900 job seekers attended the event. The goal is to provide opportunities for people throughout the region to learn about and apply for jobs and careers along the San Diego Bay waterfront.
- Port of Ensenada Sister Port Relationship: In FY 2025, the District celebrated 20 years of a successful sister port relationship with the Port of Ensenada, signing a new Memorandum of Understanding (MOU) highlighting the commitment to further collaboration and encourage mutual growth. The MOU outlines cooperative initiatives including expanding cruise business opportunities, advancing sustainable aquaculture practices to support the regional economy, and exploring a proposed ferry service between Ensenada and San Diego.

Message from the Chief Financial Officer

- Portside Community Academy: The District continued its Portside Community Academy in FY 2025 with four cohorts including two all-Spanish-language cohorts. The Academy is a program aimed at building deeper connections with portside communities by exploring innovations in the maritime industry that are helping improve human health and quality of life. The five-week program covers various aspects of the District's clean air and electrification projects, focusing on impacts on human health, quality of life, and technological advancements in the maritime industry. Following its launch in 2023, the Academy has graduated nearly 150 participants. In FY 2025, the District was recognized by the San Diego Press Club and the Public Relations Society of America for excellence in community education through the Portside Community Academy.
- Seaport San Diego Redevelopment: The District continues environmental review of the Seaport San Diego project proposed by 1HWY1 for the potential redevelopment of the Central Embarcadero along San Diego Bay. 1HWY1 is proposing a mix of uses including extensive plazas, parks and promenades; piers and marinas; hospitality, retail and restaurants; commercial fishing uses; multiple visitor attractions; an urban beach; and educational uses. The proposed project covers approximately 39 acres of land and 63 acres of water and is currently estimated to cost \$3.8 billion. For next steps, the public and stakeholders will have an opportunity to review and provide feedback on the draft Environmental Impact Report (EIR). After the EIR is complete, the Board will consider certification of the EIR and approval of a Port Master Plan Amendment (PMPA). If the Board certifies the EIR and approves a PMPA, the PMPA would then go to the California Coastal Commission for processing and a request for certification. Once a PMPA is certified, 1HWY1 must then get approval from the Board for Coastal Development Permit(s), at which time the Board will also be asked to approve some form of real estate agreement(s) with 1HWY1.
- Seaport Village Revitalization: The District continues to revitalize and transform Seaport Village since assuming ownership and operation of the shopping, dining and entertainment center in 2018. With approximately \$11 million invested by the District to date, Seaport Village continues to welcome the opening of new tenants including Zytoun, a gourmet Mediterranean restaurant; Ocean Avenue clothing store; Raihan Café, a Turkish sweets shop; Christmas in San Diego; and more. New tenants, entertainment, and other exciting offerings at Seaport Village are a result of collaborative efforts amongst the District and its partners to enhance the experience at the 14-acre waterfront shopping, dining and entertainment complex that opened on the Embarcadero in 1980. Additional anticipated openings include:
 - Shorebird – anticipated to open in Seaport Village's overwater pier in summer 2025, this restaurant's carefully crafted menu features fresh, locally-sourced seafood and innovative California cuisine designed to complement its breathtaking waterfront setting.
 - Gladstone's – this historic Malibu-founded restaurant will offer classic seafood dishes including fish plates, king crab, Maine lobster, and more. The restaurant is anticipated to open in fall 2025.
 - Cork & Batter – signed on in FY 2023, Cork and Batter will offer a first-class dining experience in a warm bungalow-themed environment with American fare created with freshly sourced ingredients, craft beer, wine, and hand-crafted cocktails. During game time, Cork and Batter will serve up live sports on multiple flat screens for sports fans' viewing pleasure. The restaurant is anticipated to open in fall 2025.
- Shellfish and Seaweed Aquaculture Program: The District continues to advance aquaculture in San Diego Bay through its proposed Shellfish and Seaweed Aquaculture Program (SSAP). In FY 2025, the District introduced a discussion draft of the proposed SSAP. Staff will continue to review feedback and make updates to the draft in FY 2026.
- Shelter Island Boat Launch Repairs: The District completed a \$717,000 repair project at the Shelter Island Boat Launch Ramp facility. In June 2023, the west floating dock sustained significant damage due to sand accumulation underneath it, which caused the dock to bottom out at low tide. An investigation determined that gaps in the western wall of the facility, designed to allow for some wave attenuation, had widened more than anticipated, and filter fabric installed during construction to prevent some anticipated sand migration had deteriorated. These issues were likely exacerbated by frequent and often strong winter storms and were unforeseen in the design development process for the facility and

Message from the Chief Financial Officer

during construction. To prevent future excess sand migration into the launch basin, staff and consultants worked diligently to develop solutions to cover the wall gaps and to replace the damaged floating dock.

- Tidelands Activation Programs – “A Day at the Park: A Port Experiences Series”: The District continued the “A Day at the Park: A Port Experiences Series” events in FY 2025 with community events at Cesar Chavez Park in Barrio Logan and Bayfront Park in Chula Vista. The multicultural events are designed to improve public access to under-activated member city parks via a District-funded and District-branded community event. Each event featured performances from local artists, local food vendors, kids activities, and more. The Expanded Access category was added to District’s Tidelands Activations Program in FY 2023.
- Topgolf: In FY 2024, the Board authorized staff to sign a non-binding term sheet with Topgolf, which provides staff with a negotiating framework for any potential future real estate or lease agreement to be submitted for future consideration by the Board. The non-binding term sheet provides a proposed lease term of 20 years with four, five-year options to extend. Minimum annual rent following completion of construction is set at \$1,527,000; however, projected rent upon commencement of operations is approximately \$1.9 million in year one of operations based on percentage rental rate projections. Topgolf is proposing a three-story venue housing 102 hitting bays with an event/stage area, outdoor patios, and additional games and entertainment. Environmental review for the proposed Topgolf project is underway. Next steps include public review of the draft environmental impact report, Board approval for an Option to Lease Agreement, followed by a Coastal Development Permit is expected in November 2025 with commencement of construction soon after.
- Tidelands Trust Land Use Plan: The District is creating a Trust Lands Use Plan (TLUP) for the approximately 8,000 additional acres of tidelands and submerged lands within San Diego Bay granted to the District by the California State Lands Commission via Senate Bill (SB) 507. The plan will provide goals, policies, and information on allowed uses and activities within the planning area consistent with the District’s mission and the intent of SB 507. As part of the District’s commitment to transparency, the District has been seeking input from the public and stakeholders throughout the TLUP process. In FY 2025, the District sought public input on the updated TLUP and a proposed Mitigated Negative Declaration (MND). The MND identified potential environmental impacts of the TLUP and introduced the implementation of project mitigation measures. The District anticipates final approval of the TLUP in 2026.

While the annual budget provides a short-term perspective, the decisions made take into account the District’s operating and capital budget requirements for both the near and long term. The ultimate goal is to ensure transparency, accountability, and informed decision-making that safeguards the long-term financial health of the District and delivers public benefits to our local communities, stakeholders, partners, and the State of California.

Tracy Largent, CPA
Chief Financial Officer

Projected Fund Balance

The fund balance is a critical concept in government budgeting because it reflects the financial health and sustainability of the District. The District's fund balance is defined as the difference between assets and liabilities in the general fund and is important for the following reasons:

- Supports Budget Stability to smooth revenue fluctuations during economic downturns and cover unexpected expenses during natural disasters or emergencies.
- Credit rating agencies consider fund balances when evaluating a government's credit rating. A healthy fund balance can lead to better credit ratings, which lowers borrowing costs.
- A strong fund balance allows the District to invest in infrastructure or capital projects, launch new programs, and take advantage of matching grants or funding opportunities.
- Reporting fund balances in budget documents and financial statements helps ensure transparency. It allows stakeholders, elected officials, and the Board to assess how well resources are managed.

For FY 2025, the District's Fund Balance is projected to increase by \$15.4 million, primarily due to several key factors: a projected \$6.0 million participation sale related to Safe Harbor, projected personnel savings of \$5.1 million resulting from ongoing vacancies, and \$2.9 million in unanticipated legal settlement reimbursements.

Following this increase, allocations include:

- \$3.0M funding for lease termination and Buyout Boat Storage Lease
- \$815k funding for District Wayfinding and Regulatory Signage Improvements
- \$3.9M funding to meet the Operating Reserve Board Policy requirement
- \$3.0M funding for the upgrade of the District's ERP system

After these allocations, Unrestricted Cash is expected to rise from \$5.5 million in FY 2024 to \$10.2 million in FY 2025.

In FY 2026, the District's Fund Balance is projected to increase by \$1.6 million, primarily driven by anticipated growth in Real Estate concession revenues. This growth is attributed to a modest expansion in the local economy, which is expected to benefit key concession tenants such as hotels, marinas, tourism-related businesses, and Seaport Village tenants. Additionally, Maritime & Operations revenue is forecasted to rise, supported by an increase in cruise activity, most notably the addition of the Norwegian Jade as a new homeport vessel, and a projected increase in auto-related business and storage services. These revenue gains are expected to be partially offset by slightly higher operational expenditures funded by operations.

Organization

The Board establishes policy to realize the District's mission, vision, brand promise, and goals. Three positions reporting directly to the Board are responsible for execution of policy directives: the President/Chief Executive Officer (President/CEO), General Counsel, and Port Auditor.

OFFICE OF THE GENERAL COUNSEL

Led by the General Counsel, the Office of the General Counsel provides legal expertise, analysis, support and advice to the Board of Port Commissioners, the District's Executive Leadership Group, and staff pertaining to all legal matters involving the District. Legal services include a wide variety of activities such as representing the District in legal challenges, Board meetings, hearings and other meetings, review and approval of contracts as to form and legality, entitlements, agenda sheets, and other transactional and regulatory matters.

OFFICE OF THE PORT AUDITOR

Led by the Port Auditor, the Office of the Port Auditor (OPA) provides independent, objective assurance and consulting services designed to add value and improve District operations. The OPA supports the Board of Port Commissioners, the Executive Team, and staff by evaluating the effectiveness of risk management, internal controls, and governance processes. Audit services include a wide range of activities such as performance audits, tenant audits, compliance reviews, risk assessments, fraud prevention initiatives, and advisory engagements that promote transparency, accountability, and continuous improvement throughout the District.

HARBOR POLICE

Led by the Chief of Harbor Police, this branch is responsible for initiatives and programs that provide safety, protection, and law enforcement. This Branch also provides police and fire protection to San Diego Bay, as well as police services to San Diego International Airport (Airport). Under direction of the Chief of Harbor Police, homeland security, emergency management, and law enforcement combine to protect and serve those who work, play, and visit the Port of San Diego.

Harbor Police includes:

- Harbor Police Department
- Homeland Security and Emergency Management

GOVERNMENT AND PUBLIC RELATIONS

Led by the Chief Government & Public Relations Officer, this Branch raises awareness of the District, its business lines, activities, and regional value through accurate and transparent communications while building and maintaining partnerships with external stakeholders and other government agencies. This Branch issues over 600 permits annually, safeguarding and promoting public access to 23 District parks and facilities, establishing strategic event partnerships to provide additional revenue sources for the District, and programming a wide variety of community events to create a vibrant waterfront experience for residents and visitors to the region.

This Branch is also responsible for the District's communications and relationships with federal, state, and local elective and administrative bodies, and for managing the District's grant applications and funding agreements. The Branch is also responsible for developing the District's public policy initiatives and leading its strategic planning efforts.

Departments and Teams in the Government and Public Relations Branch include:

- Government & Civic Relations
- Communications & Community Engagement
- Parks & Recreation
- Energy & Policy

Organization

SUSTAINABILITY & INNOVATION

Led by the Chief Sustainability and Innovation Officer, this Branch is responsible for the District's coastal and master planning functions for tidelands and submerged lands, including updating and amending the Port Master Plan; environmental protection of air, land, water, and wildlife through environmental programs and enforcement; ecological conservation, restoration and natural resources management; climate action planning, climate adaptation, and coastal resilience; sustainability policy and practice, including support of sustainable freight and mobility; advancing blue economy innovation, partnerships, and emerging business startups through the Blue Economy Incubator and development of focused aquaculture and blue technology initiatives; and compliance oversight of the California Environmental Quality Act (CEQA) and California Coastal Act practices within the District's jurisdiction.

Departments in the Sustainability & Innovation Branch include:

- Aquaculture & Blue Technology
- Climate & Sustainability
- Development Services
- Environmental Conservation
- Environmental Protection
- Planning

ADMINISTRATION

Led by the Chief Administrative Officer, this Branch oversees, directs and integrates the functions, programs, services and activities of District-wide Human Resources, Human Resources - Culture & Belonging, Information Security, and Information Technology. The Chief Administrative Officer is the District's chief negotiator for labor relations and provides strategic leadership in the delivery of the agency's centralized administrative, organizational development, technology implementation and infrastructure, risk management, and support services.

Departments and teams in the Administration Branch include:

- Commissioner Services
- Executive Offices
- Information Security
- Information Technology
- Human Resources
- Human Resources - Culture & Belonging
- Office of the District Clerk

MARITIME & OPERATIONS

Led by the Chief Operations Officer, this Branch is responsible for the import and export business of automobiles, containerized produce, breakbulk, bulk, and project maritime cargo at two cargo terminals; an international cruise business at two cruise terminals; shipbuilding and ship repair facilities; commercial fishing facilities, and public piers and docks. The District is the primary port of entry for 14 different auto OEM including Hyundai, Volkswagen, Audi, GM, and Isuzu, among others at the National City Marine Terminal, operated by Pasha Automotive Services. The terminal also receives finished vehicles by rail and trucking including Toyota trucks from Mexico. The Tenth Avenue Marine Terminal hosts Dole Fresh Fruit, which is their primary port of entry for products destined to the Western United States and Canada, as well as sugar, bauxite, and fertilizer as bulk products. The District's cruise terminals host Holland America Line, Norwegian, and Disney Cruise Line as its primary homeport customers, with itineraries to Hawaii, Mexico, and beyond. The Field Operations Department is focused on overseeing and maintaining facilities and assets. This includes the facilities maintenance and services for roadways, park infrastructures, and District owned buildings and waterfront structures.

Organization

This Branch also includes Real Estate, which is responsible for negotiations and agreements across a wide portfolio of traditional and new lines of business at the Port. Primary responsibilities include the management and development of the Port's commercial leasing portfolio; pricing, regulation, and management of public parking; discretionary review of Port and tenant projects for compliance with CEQA, the Coastal Act, and other applicable laws and regulations; and baywide landscaping of public spaces including parks and streets. The Business Operations Branch manages an annual revenue budget exceeding \$159M with over \$3.5 billion in development projects near completion.

This Branch also includes Engineering-Construction, which is charged with maintaining and developing the District's infrastructure assets. This team primarily administers public works projects within the Major Maintenance Program, Balanced Capital Program, Economic Recovery Program, and Other Capital Projects appropriations to fulfill the infrastructure needs of the District.

Departments in the Maritime & Operations Branch include:

- Engineering - Construction
- Field Operations
- Guest Experiences - Parking
- Maritime & Operations
- Real Estate

FINANCIAL SERVICES

Led by the Chief Financial Officer (CFO), this Branch oversees the Financial Services, Procurement Services, and the Safety & Risk Management departments. The CFO plays a key role in providing professional assistance and support to the President/CEO on financial planning, accounting, investing, and procurement. Financial Services encompasses economic and financial planning and reporting, budgeting, treasury services, accounting, and payroll services.

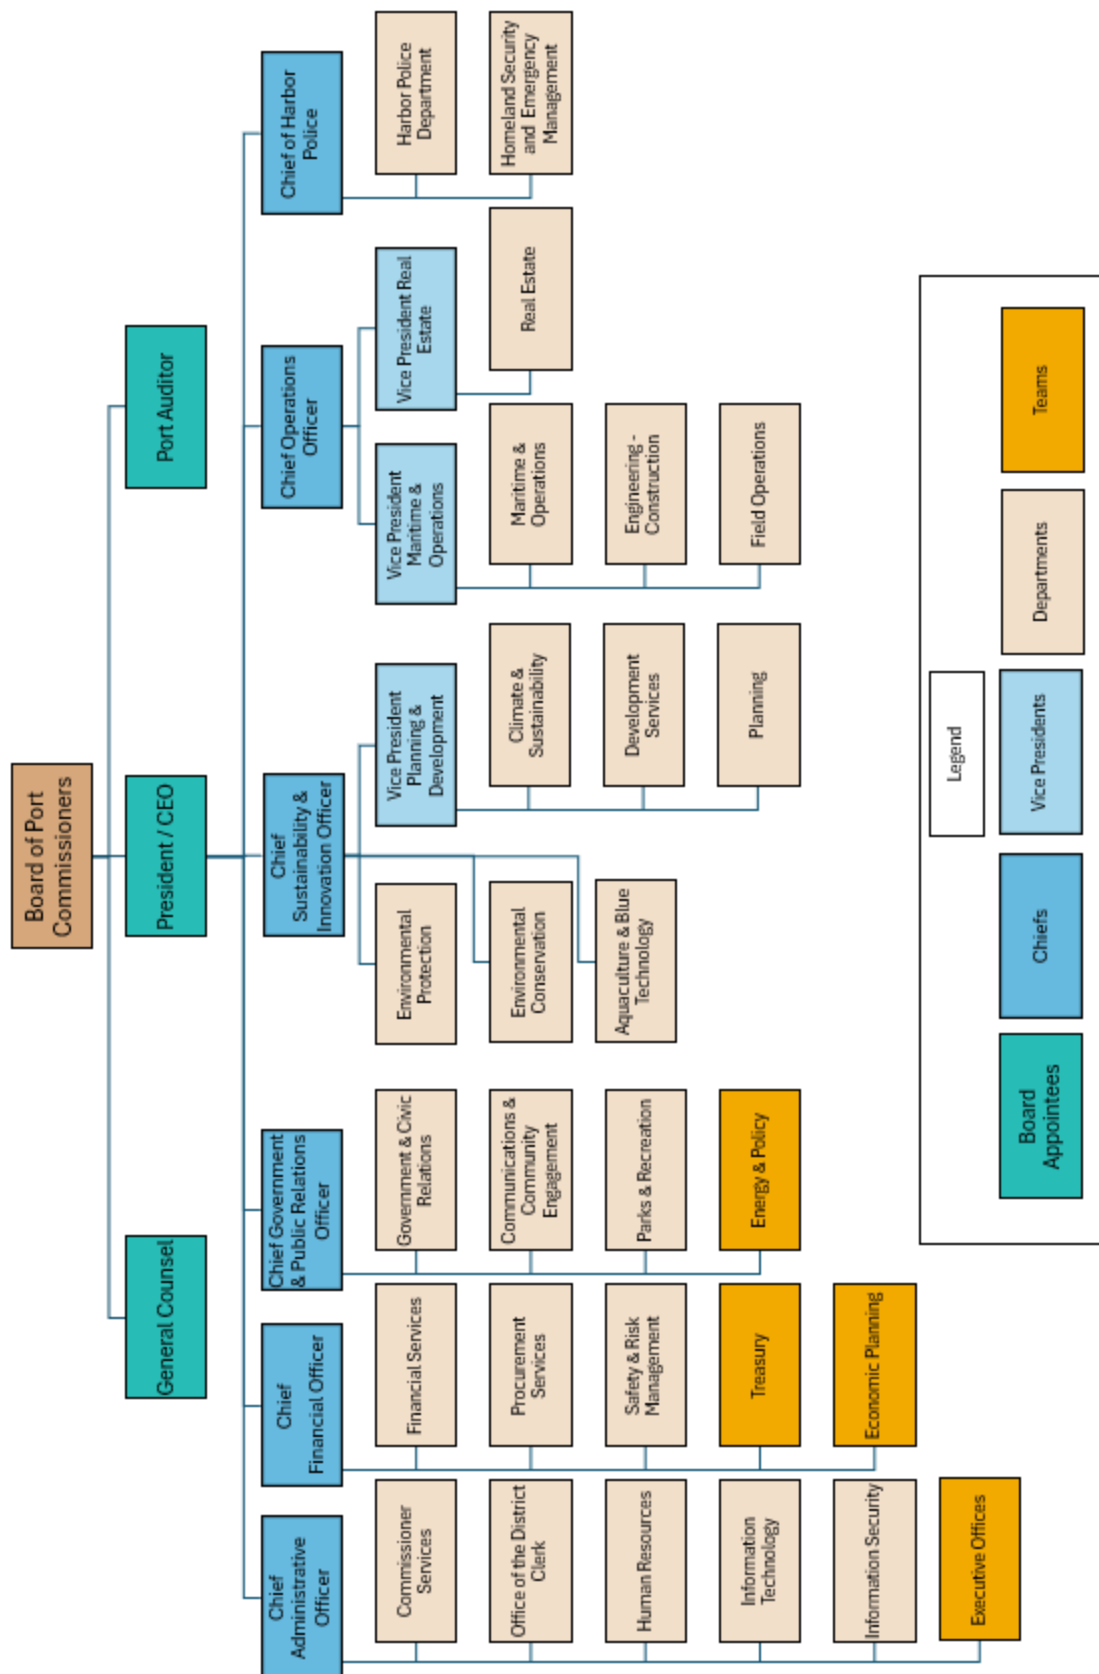

The Safety & Risk Management department, under the CFO's leadership, focuses on fostering a culture of safety through training, education, policies, and processes. It ensures a safe environment for employees and the community throughout the tidelands. The department also collaborates as a trusted partner with all District departments, as well as local and regional authorities, to promote and support safe practices in all aspects of the District's operations.

Departments and teams in the Financial Services Branch include:

- Economic Planning
- Financial Services
- Procurement Services
- Safety & Risk Management
- Treasury

Overview of Financial Policies and Guidelines

The District operates as an enterprise fund and prepares its budget on the accrual basis of accounting. The District's annual audited financial statements are also prepared on the accrual basis. Under this method, revenues are recorded when earned and expenses are recorded when incurred. The San Diego Unified Port District Act (Port Act) directs the creation of only one fund with many revenue sources and operates as a separate, independent, and local government entity. Accordingly, unless specifically stated, all income and expenses flow through one fund.

The District's budget process actively incorporates various financial policies and guidelines articulated by the Board and Executive Staff. The budget process and outcome are performance-based and focused on strategies, initiatives, and key operating and financial indicators. The adopted budget gives the District the legal basis for which to expend funds.

Financial Strategy and Long-Range Policies

The District continues to proactively manage and grow its financial resources with the objective to balance its service requirements, its responsibility to make long-term investments in infrastructure, the environment, and public service. As such, the District outlined a framework to develop a long-term financial strategy which seeks to establish an overarching set of guiding principles that aligns financial best practices into the District's strategic plan. The framework consists of five key pillars as depicted below:

The annual operating budget is intended to establish efficient and effective methods for managing the District's financial resources. Accordingly, this section outlines the long-range and financial policies that guide the preparation of the budget:

- Revenues and other sources of funds exceed expenses before depreciation and amortization and before capital expenditure and other uses of funds.
- The District activities authorized in the budget will help stimulate the economy in the San Diego region.
- Capital investment in the tidelands will provide significant, long-term economic benefits to the region and will provide public improvements and infrastructure that will stimulate private investment in the tidelands bringing new revenues to the District and creating new jobs and opportunities for the region. Financial policies will enable the District to maintain its sound financial condition, so that capital investment in the tidelands may continue.
- Cash investments made by the District will conform to its Guidelines for Prudent Investments (see Section 5 Appendix). It is the policy of the District to invest public funds in a manner that will provide the highest rate of return with the maximum security while meeting the daily cash flow demands of the District. The investment policies and practices of

Overview of Financial Policies and Guidelines

the District are based upon prudent money management and conform to all state and local statutes governing the investment of public funds. In order of priority, investment objectives are:

- Safety of principal
 - Liquidity
 - Return on investment
- The budget will be prepared in a manner that facilitates its understanding by the public as well as District officials. Presenting a clear, readable budget will communicate effectively overall District goals and plans, and contribute to the public's knowledge and appreciation of the District's positive impact on the region.

Budget Development and Cost Management

The District will prepare a budget on an annual basis. The District's definition of a balanced budget is one in which revenues and other sources of funds equal or exceed expenditures and other uses of funds.

One of the key pillars for fiscal sustainability that the District adopted is budgeting for unrestricted sources of funds exceeding uses of funds or, a structural surplus now referred to as unrestricted resources.

The budget is a result of a collaborative effort that includes extensive deliberations by the Executive Team on strategies and initiatives. The Board is briefed to solicit input and directions. As appropriate, throughout the year, presentations are provided by staff and Board directions are given on multi-year strategies such as Integrated Planning, Climate Action Plan, Major Maintenance Program, etc.

The FY 2026 budget reflects the resources allocated to provide key services as described in each department's operating plan. Staff prepared operating plans by department describing key services they provide, and highlighted opportunities for process improvement and innovation. The operating plans are integrated into the expense budget breakdown in Section 4 Departments/ Cost Centers for each department. The operating plans have also been interlocked to ensure that each department considered the impacts of their resource needs, key services, and priorities on other departments. As a result, needs and priorities with corresponding impacts to other departments have been accounted for in the operating plans prepared by those departments. Additional cost management controls include providing the following reporting to the Board:

- Annually – Year-end projections
- Annually – Finance team prepares a Five-Year Cash Flow Forecast used for long-term financial planning
- Monthly – Financial Management Report, including Cash Status Report
 - Staff conducts a thorough monthly review of all expense items and provides explanations for budget variances, including both overages and any significant underruns, along with an estimate of when those expenses will be incurred.
- Quarterly – Major Maintenance Program Update

The District's prudent practices ensure long-term financial sustainability and the ability to deliver our public service commitment as follows:

- Activation programs that draw visitors and residents alike to the waterfront
- Maintenance of infrastructure, public parks, and open spaces throughout the tidelands
- Ensuring safe and secure tidelands through land and waterside patrolling and response
- Protecting and enhancing our environmental resources – land, water, air, and wildlife
- Ability to generate revenue and to manage costs allows the District to provide excellent public service without the need to tax – the District is a self-sustaining public entity

Overview of Financial Policies and Guidelines

Account Structure

The District's account structure is comprised of two main components: profit/cost center and general ledger account code. Budget amounts are entered and tracked at the profit/cost center and general ledger account codes. Within this budget book you will see the description for the general ledger account codes used for expenses.

A general ledger account is an account or record used to sort and store balance sheet and income statement transactions. Examples of general ledger accounts include the asset accounts such as Cash, Accounts Receivable, Land, and Equipment. Examples of the general ledger liability accounts include Notes Payable, Accounts Payable, Accrued Expenses Payable, and Tenant Deposits. Examples of income statement accounts found in the general ledger include Concession Revenues, Fixed Rents, Salaries Expense, Services – Professional & Other Expense, Insurance Expense, etc.

The District uses six digit general ledger account codes divided into four major categories as follows:

100100-399999	Balance Sheet
500100-599999	Revenue
600100-600330	Personnel
610100-680999	Non-Personnel Expense

PAGE LEFT INTENTIONALLY BLANK

Budget Timetable

BUDGET PROCESS

Preliminary budget adoption starts the public comment period. Adoption of the preliminary budget occurs at the May Board meeting. After the preliminary budget adoption in May, the 30-day public comment period begins. Not less than 30 days later, the Board considers the final budget for adoption.

Final budget adoption follows the public comment period. At its first meeting following the comment period, the Board adopts the final budget, along with amendments to the Salary Ordinance for personnel changes included in the final budget. Ideally, this happens in June, prior to the start of the new fiscal year.

Once the budget is adopted by the Board, the budget amounts are loaded into SAP CO module via an automated tool. Then these planned amounts are copied to FM and the funds availability control is activated.

An appropriating ordinance may be required. If no final budget is adopted by July 1st, a special ordinance is required to appropriate funds for continuing operations.

The budget is based on estimates made by departments prior to the end of the current fiscal year, and 16 to 17 months prior to the end of the budget year. Many events could occur after adoption that would make the actual results significantly different from the budget estimates.

Once adopted, the budget is not fixed. The budget can be amended at any time during the fiscal year by Board ordinance. Staff monitors budget results and programs throughout the fiscal year. Changes in plans, fluctuations in estimates, new programs for which no estimate was available, and other unexpected events may require a budget amendment.

Board of Port Commissioners (BPC) Policy No. 090 shall govern transfers between appropriated budget items.

BUDGET CALENDAR

<u>DATE</u>	<u>TASK DESCRIPTION</u>
Sept 2024	Strategic Budgeting with the Executive Team
Nov 15, 2024	FY 2026 Budget Schedule and Instructions are e-mailed to all District Budget Preparers and Contacts.
Nov 18, 2024 - Dec 18, 2024	POSITION ALLOCATION REVIEW PERIOD: Departments that are contemplating changes to position allocations will need to obtain the approval of their Chief, then review their Workforce Planning changes with Human Resources during this period. Once approved by their Chief, Department Heads should submit their position requests to Human Resources.
Jan 08, 2025 - Jan 14, 2025	POSITION ALLOCATION APPEAL PERIOD: There will be a position allocation appeal period to the President/CEO between January 08, 2025 through January 14, 2025.
Jan 15, 2025	Human Resources provide the recommended position allocations to Financial Services. Note: Any recommended allocations will be subject to the availability of revenues to fund any additional positions or changes.

Revenue Highlights

Total Revenues are budgeted at \$355.8M compared to the FY 2025 Adjusted Budget of \$315.7M, an increase of \$40.1M, or 12.7%.

Trends affecting revenue are described below by profit center.

Revenue by Profit Center

Revenues were projected by benchmarking major tenants and customers, conducting tenant and customer interviews, and using industry analysis to predict trends in revenue. Assumptions concerning prospective revenues from new and renegotiated leases were included. Revenues for leases scheduled to terminate are reduced by the probability that they will not be renewed.

Since concession revenue varies with economic conditions, the Real Estate revenue team performed a detailed analysis using recent data from multiple sources, including: actual year-to-date revenue, published industry forecasts, cruise ship activity projections, local and national economic reports, information and insight provided by District tenants, and convention bookings for 2025 and 2026. The aforementioned sources were all reviewed and considered in developing the FY 2026 budget.

Real Estate

Real Estate revenue is budgeted at \$145.2M, an increase of \$9.6M, or 7.1% from the FY 2025 Adjusted Budget. Differences from the FY 2025 revenue budget are projected in the following areas:

- **Fixed Rent** is budgeted at \$23.0M, a decrease of \$1.2M, or 5.0%. The decrease is primarily due to the termination of Tideland Use and Occupancy Permits (TUOP) and the completion of the Otay River Estuary Restoration Project, which will reduce fixed revenue income following the end of the Right of Entry License Agreement (ROELA). However, a maintenance easement agreement will replace and help offset the losses from the ROELA. Additionally, FY 2026 fixed revenue has been reduced in unoccupied tenant locations compared to FY 2025.
- **Concession Revenue** is budgeted at \$110.4M, an increase of \$5.1M, or 4.9%. The increase is due to projected revenue growth driven by modest economic expansion in the local area, which is expected to positively impact concession revenue tenants such as hotels, marinas, tourism, and Seaport Village tenants. Additionally, ramp-up rent schedules for some District hotel tenants are contributing to the positive revenue variances.
- **Other Rental Revenue** is budgeted at \$5.9M, an increase of \$5.9M. This revenue is a reimbursement to the District, per the Chula Vista Bayfront Facilities Finance Authority (JEPA) Revenue Share Agreement, priority 1 and 2, for the cumulative amount of support payments and county loan agreement payments being made by the District in FY 2026. Portions of this reimbursement were originally contributed by the District via the real estate revenue set aside sent to the JEPA in the current year and prior years.

Guest Experiences – Parking

Guest Experiences - Parking revenue is budgeted at \$19.3M, a decrease of \$675k, or 3.4% from the FY 2025 Adjusted Budget. Differences from the FY 2025 revenue budget are projected in the following areas:

- **Parking** is budgeted at \$13.4M, a decrease of \$1.6M, or 10.7%. The decrease is mainly due to the planned construction at Freedom Park during FY 2026, which will reduce the number of available parking spaces throughout the year, thereby eliminating projected parking revenue for those spaces.
- **Parking Meters** is budgeted at \$4.5M, an increase of \$585k or 14.8%, mainly due to the projected parking meter price adjustment. The projected price adjustment is aimed at supporting new developments and improvements throughout the District.

Revenue Highlights

- **Parking Concessions** is budgeted at \$663k, an increase of \$310k or 87.7%. The increase is primarily due to the revised structure of fees, which will be calculated based on a flat rent calculation by square footage of the parking area.

Maritime & Operations

Maritime & Operations revenue is budgeted at \$59.5M, an increase of \$3.8M, or 6.9% from the FY 2025 Adjusted Budget. Differences from the FY 2025 revenue budget are projected in the following areas:

- **Fixed Rent** is budgeted at \$22.3M, an increase of \$606k, or 2.8%, due to rent increases in major maritime industrial and cargo leases.
- **Concession Revenue** is budgeted at \$2.9M, an increase of \$78k, or 2.8%, due to the anticipated increase in marina sales in National City.
- **Storage Space Rental** is budgeted at \$2.4M, an increase of \$265k, or 12.2%, due to the anticipated increase in automobile storage and new storage agreement.
- **Cruise Ship Passenger Fees and Security Charges** combined are budgeted at \$6.7M, an increase of \$1.6M, or 31.9%, due to the anticipated increase in cruise activity resulting from the addition of the Norwegian Jade homeport vessel calls.
- **Wharfage** is budgeted at \$14.5M, an increase of \$864k, or 6.3%, mainly due to the increases in automobile cargo throughput.
- **Miscellaneous Other Operating Revenue** is budgeted at \$484k, a decrease of \$14k, or 2.7%, primarily due to the anticipated decrease in miscellaneous operating expense reimbursements.
- **Low Carbon Fuel Standard (LCFS) Revenue** is budgeted at \$3.3M, a decrease of \$338k, or 9.4%, primarily due to recent data around electrical usage at the Navy Base San Diego has shown greater variance in usage with quarters producing less credits than previously expected.
- **Cruise Facility Improvement Fee** is budgeted at \$2.3M, an increase of \$655k, or 40.6%, primarily attributed to the anticipated increase in cruise activities. The cruise facility improvement fees are assessed on a per passenger basis.

Harbor Police Department

Harbor Police Department revenue is budgeted at \$24.3M, an increase of \$3.1M, or 14.5% from the FY 2025 Adjusted Budget. The increase is primarily due to an increase in labor cost and projected service hours at the Airport.

The Harbor Police Department, in addition to serving the District tidelands, is the primary law enforcement agency at the San Diego County Regional Airport Authority (SDCRAA). The cost reimbursement for police services provided to the SDCRAA is \$22.8M, while the General and Administrative (G&A) cost reimbursement reported under the Miscellaneous profit center is \$3.4M, bringing the total reimbursement to \$26.2M, an increase of \$3.4M over the FY 2025 Adjusted Budget. The FY 2026 Public Services Provided revenue budget includes labor and burden based on actual individual officer's rate per pay period and department overhead.

Revenue Highlights

Miscellaneous

Miscellaneous revenue is budgeted at \$104.1M, an increase of \$23.9M, or 29.9% from the FY 2025 Adjusted Budget. Differences from the FY 2025 revenue budget are projected in the following areas:

- **Public Services Provided** is budgeted at \$3.4M, an increase of \$443.5k, or 14.9%. The amount covers the reimbursement for G&A costs related to the SDCRAA agreement for Harbor Police services, as detailed in the Harbor Police revenue section above.
- **Partnership/Cost Sharing Reimbursement** is budgeted at \$47k, a decrease of \$173k, or 78.8%, due to the schedule of cost sharing for the Regional Harbor Monitoring Program.
- **Grants – Capital Projects Reimbursement** is budgeted at \$45.1M, an increase of \$23.5M, or 108.8%. The increase is primarily due to a new grant received from US Environmental Protection Agency (EPA) that will be used to continue the electrical improvements project at Tenth Avenue Marine Terminal (TAMT).
- **Grant Revenue - Other** is budgeted at \$1.7M, a decrease of \$408k, or 19.3%. The decrease is due to a decline of non-capital grant funded information technology costs.
- **Economic Recovery Program (ERP)** is budgeted at \$21.2M, a decrease of \$6.8M, or 24.3%. The decrease is attributed to a reduction in ongoing projects resulting from project completion.
- **Miscellaneous Other Non-Operating Revenue** is budgeted at \$285k, a decrease of \$1.9M, or 86.8%. The decrease is primarily due to reimbursements for the Sweetwater Channel Shoreline project now being budgeted under the Capital Project Contribution category for FY 2026, instead of being included in Miscellaneous Other Non-Operating Revenue.
- **Low Carbon Fuel Standard (LCFS) Revenue** is budgeted at \$11.2M to fund the development and management of LCFS-qualified projects at Navy Base San Diego.
- **Capital Project Contribution** is budgeted at \$13.0M, an increase of \$8.3M, or 175.3%, due to an increase in construction expenses for the Freedom Park project coupled with the Sweetwater Channel Shoreline project now being budgeted in Capital Project Contribution.
- **Interest - Investments** is budgeted at \$11.5M, an increase of \$2.0M, or 21.1%. Investment earnings are expected to be higher than prior year budget due to higher returns on cash and investments. The Port is projecting a 4.7% rate of return and a total ending balance of \$258M in cash, cash equivalents, and investments for FY 2025. Looking ahead to FY 2026, the average total balance is expected to be \$266M, with an anticipated yield of 4.3%. These projections reflect the District's strategic financial management and commitment to maintaining robust liquidity and investment performance while mitigating risks associated with uncertainties generated by federal economic and fiscal policy changes. The District's primary goal is to ensure the safety of its cash and investments.

Expense Highlights

Total Expense is budgeted at \$247.5M, an increase of \$12.6M, or 5.3%, from the FY 2025 Adjusted Budget.

Personnel Expense

Personnel Expense is budgeted at \$135.5M, an increase of \$5.2M or 4.0% from the FY 2025 Adjusted Budget.

Budgeted Personnel Expense consists of Salaries & Wages, Overtime, and Burden.

- **Salaries & Wages** (including Overtime) is budgeted at \$81.4M, an increase of \$1.8M, or 2.3%. The increase is primarily due to negotiated increases, step increases, increases in overtime for Harbor Police operations, and cost of living adjustments.
- **Burden** is budgeted at \$54.1M, an increase of \$3.3M, or 6.5% from the prior fiscal year. This is primarily due to increases in group health insurance and the District's actuarial determined contribution to the pension plan.

Non-Personnel Expense

Non-Personnel Expense (NPE) is budgeted at \$103.9M, an increase of \$8.4M, or 8.8%, from the FY 2025 Adjusted Budget. Significant variances from year to year are explained below:

- **Services - Professional & Other** is budgeted at \$17.0M, an increase of \$1.7M, or 11.4%. The variance primarily results from the broker service fees for selling low carbon fuel stand credits, along with expenses related to the detection and removal of the invasive species *Caulerpa* found in San Diego Bay.
- **Services - Security** is budgeted at \$4.3M, an increase of \$697k, or 19.1%. The variance is primarily due to the addition of the Norwegian Jade homeport vessel calls.
- **Services - Operator Retention** is budgeted at \$3.3M, an increase of \$332k, or 11.2%. The increase is attributed to a higher forecast in auto cargo revenue. Operator retention is calculated as a percentage of gross revenues.
- **LCFS - Navy Projects** is budgeted at \$11.2M, a decrease of \$772k, or 6.4%. The variance is mainly due to the reduction in expenses for LCFS Navy projects.
- **Equipment & System** is budgeted at \$3.9M, an increase of \$569k, or 17.2%. The variance is mainly due to increases in information technology expenses.
- **Utilities - Gas & Electric** is budgeted at \$3.2M, a decrease of \$700k, or 18.1%. The anticipated increases in electricity rates did not materialize, as a result of negotiated rate structures, which ultimately led to lower rates.
- **Major Maintenance Expense** is budgeted at \$880k, a decrease of \$278k, or 24.0%. This is mainly due to expenses incurred in FY 2025 for repainting the interior of the Broadway Pavilion.
- **As - Needed Maintenance** is budgeted at \$1.8M, an increase of \$231k, or 14.4%. The increase is primarily attributed to increased expenses associated with painting services and the removal of marine debris from the bay.
- **Software Maintenance** is budgeted at \$2.4M, an increase of \$446k, or 22.9%. The increase is is mainly due to expenses related to software maintenance.

Expense Highlights

- **Services - Fire, Police, Rescue, Emergency** is budgeted at \$11.0M, an increase of \$334k, or 3.1%. The increase is primarily due to the adjustments of baseline rates under the Municipal Services Agreements with member cities.
- **Eligible Environmental Fund Expenditures** is budgeted at \$856k, an increase of \$258k, or 43.2%. This increase is related to environmental surveys and a soil erosion study.
- **Grant Funded Expenditures** is budgeted at \$1.8M, a decrease of \$722k, or 29.2%. This is due to decreased ongoing expenses for grant-funded initiatives, as a larger portion of these projects is anticipated to be completed by FY 2025.
- **Economic Recovery Program (ERP) Expense** is budgeted at \$1.5M, a decrease of \$980k, or 39.4%. The decrease is due to a reduction in ongoing projects as more projects were completed in FY 2025.
- **Retiree Health Benefits** is budgeted at \$4.8M, an increase of \$515k, or 12.0%. The increase is due to an anticipated rise in medical premium costs.
- **Other Miscellaneous Operating Expenses** is budgeted at \$1.5M, an increase of \$204k, or 15.5%. The increase is attributed to the Berth Regulation Remediation Fund, which was established to ensure compliance with California Air Resources Board (CARB) regulations designed to reduce emissions from the auxiliary engines of ocean-going vessels while docked at California ports.
- **Financial Assistance/Grants/Contribution** is budgeted at \$9.8M, an increase of \$7.4M, or 306.0%. This increase is due to support payments designated for the Chula Vista Bayfront Facilities Finance Authority (JEPA) and repayments associated with County Funding Agreement loan. Additionally, expenditures on projects funded by the Maritime Industrial Impact Fund, including the air filtration initiative at Logan Heights Library and improvements to the National City Bayshore Bikeway, have also contributed to this increase.
- **Other Misc Non-Operating Expense** is budgeted at \$0, a decrease of \$3.0M, or 100.0%. This decrease is due to the lease termination buyout with Cays Resort, LLC, that occurred in FY 2025.

Capital Labor

Capital labor is budgeted at \$5.3M, an increase of \$50k, or 1.0%, from the FY 2025 Adjusted Budget. Capital labor is internal labor costs (personnel and overhead) that are directly incurred in the development and construction of approved capital projects. Generally Accepted Accounting Principles (GAAP) requires capitalization of these costs and, since these costs are already included in the Salaries & Wages and the associated NPE for overhead, capital labor is considered a reduction in expense when capitalized. Capital labor for FY 2026 is included in the ERP capital projects, BCP, Major Maintenance capital projects, Equipment Outlay and Other Capital Projects, and Technology Management Program budgets.

Balanced Capital Program Highlights

The following is a list of the funding available for Balanced Capital Program (BCP) Projects by Port Member Cities per Board of Port Commissioners (BPC) Ordinance 3067. BPC Resolution 2022-0338 sunsets the Capital Improvement Program and institutes the BCP in its place. The intent of the BCP is to distribute the Port's capital investments in a balanced and equitable manner throughout the Tidelands located in all member cities.

The projected actual represent anticipated project expenses by the current fiscal year-end, subject to adjustments with any forthcoming project updates or revisions. Project actual may change as each project progresses.

BALANCED CAPITAL PROGRAM PROJECTS				
MEMBER CITY	PROJECT NAME	PROJECT FUNDING	PROJECTED FY 2025	BUDGET FY 2026
Coronado	Tidelands Park Central Comfort Station & Exercise Station Replacement	\$ 2,700,000	\$ —	\$ 2,700,000
Imperial Beach	Imperial Beach Pier Enhancements Project 3	30,700	30,700	—
National City	National City Balance Plan - Pepper Park	2,000,000	—	2,000,000
San Diego	East Harbor Island Infrastructure Improvements	1,000,000	902,800	97,200

Balanced Capital Program Highlights

Listed below are the projects included in the BCP appropriation, along with a brief description of each. The Start and End dates noted below are subject to change, pending progress of project:

Project Name	Project Description	Start	End
Tidelands Park Central Comfort Station & Exercise Station Replacement	This project involves replacing the central restroom in Tidelands Park and upgrading the existing exercise equipment. The new restroom will feature single-occupant, unisex ADA-accessible designs, with additional amenities including exterior hand washing sinks, exterior art wall panels, and drinking fountains to enhance accessibility and user experience in the park.	TBD	TBD
Imperial Beach Pier Enhancements Project 3	This project will design and construct a range of improvements to the Imperial Beach Fishing Pier, including the addition of new cantilevered deck extensions, shade structures, railings, fishing rod holders, signage, art installations, benches, fish cleaning stations, drinking fountains, and painting. Potential electrical improvements and the removal of passenger loading structures are also part of the scope. This project has been canceled and replaced with the Splash Pad at Portwood Pier Plaza project, which was reallocated to the Economic Recovery Program.	FY2022	N/A
National City Balance Plan - Pepper Park	This multi-phase project will enhance Pepper Park through a series of design and construction tasks. Phase 0 includes temporary programming managed by the Department of Park and Recreation. Phase 1 focuses on improvements to the existing park footprint, while Phase 2 will address the future park expansion. Public outreach and schematic design are led by KTUA, with community input shaping the final site plan. Detailed construction documentation for Phase 1 is being prepared by the Engineering-Construction Department, and the construction phase—currently underway—will deliver new features such as a splash pad, perched beach, waterfront deck, playground, picnic areas, promenade, sidewalks, and updated signage. Project completion is expected by the end of 2025.	FY2022	FY2026
East Harbor Island Infrastructure Improvements	This project involves completing an Environmental Impact Report (EIR) for the entire East Harbor Island redevelopment area, which includes the rental car parcels, road realignment, and a new public park. The project will also encompass the design and construction of new infrastructure, realignment of Liberator Way, a new park, and repairs to the shoreline revetment.	FY2023	TBD

Technology Management Program

The Technology Management Program (TMP) is a strategic, operationally responsive, and fiscally responsible approach to manage District technologies. It allows the District to standardize systems and leverage cost saving opportunities through economies of scale. Additionally, it facilitates coordinated implementation schedules of planned technology refresh strategies that will keep the District up-to-date. It uses a cost-benefit analysis method and governance model to make technology investment decisions, ensuring the highest likelihood of a return on investment.

Notes:

- Carry Over amounts were funded from prior fiscal years.
- Ops is funded from Operations in the current fiscal year.
- S/4 HANA Upgrade - \$4.5M funded by designated funds and \$3.0M funded by cumulative unrestricted resources.
- Maritime PortConnect - fully funded by the Governor's Office of Business and Economic Development (GO-BIZ) grant.
- Bay Radar - \$450k funded by Port Security Grant Program FY 2024 and \$150k funded by Grant Matching Reserves.
- Cybersecurity Maturity Model Certification - \$188k funded by Department of Homeland Security Port Security Grant Program and \$63k funded by Grant Matching Reserves.
- Threat Detection Enhancements - \$124k funded by Department of Homeland Security Port Security Grant Program and \$41k funded by Grant Matching Reserves.
- Critical Infrastructure Aware Phase 1 & 2 - \$74k funded by Department of Homeland Security Port Security Grant Program and \$25k funded by Grant Matching Reserves.

Major Maintenance Program Highlights

The following list of Major Maintenance projects for FY 2026 will be implemented in accordance with BPC Policy No. 130 (see Section 5 Appendix). This list represents a 3-year outlook of projects generated through the Asset Management Program (AMP) which uses a scientifically based methodology to determine repairs or replacements of high risk assets before they fail. The Major Maintenance Program is part of the District's strategic initiative, and many of the projects span multiple years. The last two columns are forecasted values for information only and subject to change prior to the next fiscal year's budget. The amount budgeted for FY 2026 is an estimate of the anticipated work to be completed, but may continue to subsequent fiscal years.

PROJECT NAME	TOTAL PROJECT BUDGET	BUDGET FY 2026	FORECAST FY 2027	FUTURE BUDGET
MAJOR MAINTENANCE CAPITAL PROJECTS

Notes:

- Carry Over amounts were funded from prior fiscal years.
- Ops is funded from Operations in current fiscal year.
- Maintenance Dredging at B St. Cruise Ship Terminal - \$2.1M funded by Harbor Maintenance Trust Fund.
- West Elevator Improvements at B Street CST - \$100k funded by Cruise Ship Terminal Improvement Fund.

Major Maintenance Program Highlights

Listed below are the projects included in the Major Maintenance Program, along with a brief description of each. The Start and End dates noted below are subject to change, pending progress of project:

Project Name	Description	Start	End
TAMT Post Indicator Valve Replacements at Warehouse B & C	The critical replacement of the post-indicator valves used for fire suppression in Warehouse B and C. Multiple valves have failed at these warehouses over the last two years and have required immediate repair. These valves are situated underneath the loading dock pavements.	FY2022	FY2026
Maintenance Dredging at B Street Pier	This project will redistribute approximately 13,000 cubic yards of bay bottom material from the north and south berths at B St. Pier and the North Berth of Broadway Pier to achieve a uniform depth of -32 foot Mean Lower Low Water (MLLW), as specified by the prospective new cruise line whose ships need the deeper berths. The current design assumes a construction approach of redistribution/side casting the material from high spots to areas adjacent to the berths that are deeper due to ship prop scouring, called scour pits.	FY2024	FY2026
Railroad Tie Repairs at TAMT	This project will replace the remaining railroad ties (approximately 330) in the area north of the southerly ship loader rail at TAMT. In addition, the project will remove and dispose of AC paving and replace it with 9" thick reinforced concrete pavement.	FY2019	FY2026
Utility Piping and Pile Replacement at Imperial Beach Pier	Scope includes replacement of two structural piles, repairs of piping and valves for fire suppression water, potable water, wastewater and electrical services such as service/fuse panels, wiring, conduit and junction boxes.	FY2022	FY2026
Structural Repairs at NCMT Berth's 24-1, 24-2	This project will rehabilitate Berths 24-1 and 24-2 at NCMT. This includes replacement of pavements, decks, utilities, edge beams, bull rails, ladders, ballast, bollards, pile caps, pile encasement and new fendering systems. This will create a new 25 year operational service life for each berth. Design will start with a condition assessment of each berth as a basis for detail work scope determination and ROM estimates. This will be a multi-fiscal year project.	FY2025	FY2029
Electrical Retrofit of Bayfront Parking Structure	This project will complete: 1. A site assessment of the garage's electrical system and fixtures with repair options and estimates; 2. Design, 3. Construction which will replace all corroded wiring, boxes, & fixtures with more durable and tamper proof fixtures. Work scope details will be determined during design.	FY2025	FY2026
Structural Repairs at NCMT Berth 24-3 & 24-4	This project will initially perform a new inspection of both berths in support of work scope definition and design. The rehabilitation of both berths will include the removal and replacement of: asphalt concrete paving, ballast, utilities, bull rail, edge beam, pile caps, bollards, ladders, fendering systems and shore power infrastructure. A new concrete deck will be constructed over the old decks (in-situ) and all structural piles will be encased.	FY2024	FY2028
Elevator Replacement at Convention Center Parking Garage	This project will complete a site assessment of the 3 elevators at the San Diego Convention Center, design, and construction of the their replacement or refurbishment as necessary. Complete scope and estimate details will stem from the assessment and design.	FY2024	FY2027
Timber Fender System Replacement at Broadway Pier	This project will replace the existing timber fendering system on the south side and west end of B street Pier with a more modern system similar to what was installed on the north side in 2012. Project will also make any necessary repairs to the existing north side fendering system.	FY2025	FY2028
Structural Pile Repairs at Broadway Pier	This project will complete a new structural condition assessment of B Street Pier, Design and repair of approximately 147 18-Inch and 22-Inch Piles, pile-caps, related underdeck soffit work. Final scope will be determined via the new structural survey.	FY2025	FY2028

Major Maintenance Program Highlights

Project Name	Description	Start	End
TAMT Electrical Upgrades Phase 4	This project will complete a preliminary engineering report for phases 4-6, and design and construction for TAMT Electrical Upgrade Phase 4. Phases 5 & 6 will be completed as separate projects when funding is approved. The scope of work by phase is: Phase 4 - Warehouse B South Area: Replaces all of the east 12kV feeder cables and closes the loop to the south side. Phase 5 - North West Area: Completes power system repairs for Warehouse B and de-energizes existing transformer to the water side route. Phase 6 - North East Area: Complete the west side 12kV loop cabling with one long feeder circuit.	FY2024	FY2026
Loading Dock Improvements at TAMT Warehouse B	This project will demolish and dispose of approximately 12,600 square feet of asphalt and concrete pavement that forms the topside of the truck and rail loading docks on the west and east sides of Warehouse B at TAMT. The two areas will be compacted, fine graded and repoured with 6" of concrete. All of the rubber and wood truck bumpers on the vertical face of the loading dock will be replaced. Pending design scope and estimates, hand rails and the stairs at the SDRS offices on the SW corner will be repaired and/or replaced as additive bid items.	FY2024	TBD
Elevator Car Improvements at San Diego Bayfront Parking Garage	Phase 2 work scope includes the remaining work for elevator #2 and all the work for elevator #'s 1, 3, & 4. This will include replacement of existing geared machines with new gearless machines, elevator drives, governor ropes, door rollers, electrical work, cab interior improvements and other work to fully restore these 4 elevators. Also included is a 365 day service/maintenance agreement.	FY2021	FY2026
Waterline and Valve Repairs at NCMT	This project will complete design and construction for the repair of at least 2 waterline leaks and three valve replacements at NCMT. Final work scope to be determined during design.	FY2024	FY2026
West Elevator Improvements at B St. CST	This project will make improvements to the western elevator at the B St. Cruise Ship Terminal. Improvements include: full replacement of the elevator pit steel framing and the installation of a new elevator cab.	TBD	TBD
Pavement Repairs at Crosby Road, Cesar E. Chavez Parkway, Shelter Island, Seaport Village and TAMT	This project will investigate, design and construct maintenance level pavement repairs at four locations in San Diego: 1) Shelter Island, 2) Seaport Village, 3) Cesar Chavez Park area, and 4) Tenth Avenue Marine Terminal. In general, scope will include various mill & overlays, patching, seal coats and re-striping. Some pavement sections have significant tree root damage and this project will also consider the removal/replacement of the trees (12) causing the pavement damage during design as additional work scope. Final scope of work for each section will be determined during design.	FY2024	TBD
HVAC System Upgrades at Port Administration Building	This project will execute: 1. A new study for the replacement of the existing HVAC system at the Port Administration Building; 2. Design and 3. Multi-Fiscal Year phased construction.	FY2022	TBD
Sand Replacement at Kellogg Beach - FY 2025	This Phase IV project will continue replenishing the shoreline sand at the eroded area of Kellogg Beach at the foot of Lawrence Street. The scope of work includes design and placement of sand (material type and volume to be determined during design) and potentially other erosion controls determined in design at the eroded location.	FY2024	FY2026
Broadway Pier Port Pavilion Painting	This project will perform a site inspection, development of scope of work and design in FY 2024. Construction will be performed in FY 2025 and will include maintenance cleaning, repainting, and refurbishment of exterior and interior structures and building components at the Broadway Pier Port Pavilion. Some highly corroded exterior components such as fixtures, gates and fencing may need extensive refurbishment or even replacement.	FY2023	FY2026

Other Capital Projects

Other Capital Projects is part of the District's strategic initiative, and many of the projects span multiple years. The last two columns are forecasted values for information only and subject to change prior to the next fiscal year's budget. The amount budgeted for FY 2026 is an estimate of the anticipated work to be completed, but may continue to subsequent fiscal years.

PROJECT NAME	TOTAL PROJECT BUDGET	BUDGET FY 2026	FORECAST FY 2027	FUTURE BUDGET
TAMT Clean Ports Program Infrastructure Upgrades	\$ 24,251,600	\$ 24,035,300	\$ —	\$ —

Notes:

- Carry Over amounts were funded from prior fiscal years.
- Ops is funded from Operations in current fiscal year.
- TAMT Clean Ports Program Infrastructure Upgrades - fully funded by EPA Grant.
- Navy Pier Freedom Park - \$2.0M funded by Department of Housing & Urban Development Grant and \$10.5M funded by USS Midway contribution.
- TAMT Electrical Upgrades Phase 4 - \$5.0M funded by APCD Grant and \$2.8M funded by Grant Matching Reserve.
- Harbor Park Phase 1A Beach Improvements - \$3.0M funded by Department of Housing & Urban Development Grant, \$1.6M funded by CA Department of Fish & Wildlife Grant, and \$533k funded by the Grant Matching Reserve.
- Silvergate Tunnel Abandonment - \$4.9M funded by SDG&E settlement.
- National City Balance Plan/Pepper Park - \$250k funded by Austal Donation.
- TAMT Redevelopment Project - \$600k funded by Department of Transportation Maritime Administration Grant and \$2.0M funded by Grant Matching Reserve.
- SW Channel Shoreline/SEP - \$2.5M funded by MOU with City of San Diego.
- B St Cruise Ship Terminal Interior Improvements - \$2.2M funded by Cruise Ship Terminal Improvement Fund.
- Bonnet System - \$2.0M funded by Trade Corridor Enhancement Program.
- Shore Power at Fish Harbor Pier and Chesapeake Wharf - \$900k funded by LCFS Fund.
- Habitat Friendly Shoreline Structure Improvements at Harbor Island - \$771k funded by NOAA Grant.
- NCMT 24-10 Shore Power - \$522k funded by IQHQ.
- Habitat Restoration at Western Sweetwater Park Shoreline - \$400k funded by Environmental Fund.
- Sweetwater Park - \$200k funded by JPA/County Fund.
- Stormdrain Inlet Trash Devices at Various Locations - \$160k funded by Environmental Fund.
- CV Wildlife Reserve Shoreline Improvements - \$110k funded by Environmental Fund.

Other Capital Projects

Overview

The Port of San Diego's Capital Infrastructure Projects are included within the Other Capital Projects (OCP) appropriation, which supports public infrastructure improvements throughout the Tidelands. These projects are distinct from the Port's Major Maintenance and Balanced Capital Programs and focus on facility enhancements that promote long-term asset preservation, safety, and public access. The program delivers targeted upgrades to Port-owned properties such as parks, piers, and waterfront amenities.

Other Capital Project Process

Other Capital Projects follow a standardized development and approval process. Project requests may be submitted in two ways:

- During the annual budget cycle, as part of the regular capital planning process
- Out of cycle, if the project is urgent or time-sensitive, in accordance with internal guidelines

Projects are initiated by Port departments and undergo a review to assess their scope, feasibility, and alignment with strategic goals. Once approved by the Executive Leadership Group (ELG) and/or Board of Port Commissioners (BPC), projects are assigned to the Engineering-Construction Department for execution and are tracked through the Port's internal project management systems. Regular reporting ensures transparency and accountability at every stage.

These projects play an important role in advancing the Port's mission to protect, develop, and enhance the San Diego Bay waterfront for the benefit of the public, the environment, and the regional economy.

Listed below are the projects included in the OCP appropriation, along with a brief description of each. The Start and End dates noted below are subject to change, pending progress of project:

Project Name	Project Description	Start	End
TAMT Clean Ports Program Infrastructure Upgrades	This project advances the Port's zero-emissions goals by upgrading the TAMT electrical infrastructure and expanding shore power capabilities. Phases 5 and 6 complete the 12kV loop expansion, improve grid reliability, and repair key transformers to support increased electrification demands. The project includes installation of 12 fast chargers for electric cargo handling equipment, integrated into the upgraded grid. Additionally, new shore power systems will be installed—one high-voltage outlet for ocean-going commercial and military Roll-on/Roll-off (RORO) vessels, and two low-voltage outlets for harbor craft—to reduce diesel emissions and ensure compliance with air quality	TBD	TBD
Navy Pier Freedom Park	This project involves the demolition of the Navy Pier headhouse, structural reinforcement of the affected pier area, and a series of pier entry improvements, including new above-grade utility boxes, updated signage, landscaping enhancements, a boardwalk installation, and upgraded trash enclosures.	FY2022	FY2028
TAMT Electrical Upgrades Phase 4	This project finalizes the replacement of TAMT's aging main electrical system, beginning with Phase 4, which includes a preliminary engineering report for Phases 4–6 and the design and construction of Phase 4 improvements. Work will focus on replacing the east 12kV feeder cables, completing the loop to the south side, and upgrading Port-responsible electrical infrastructure in the Warehouse B South Area and the Jankovich leasehold.	TBD	TBD
Harbor Park Phase 1A Beach Improvements	This project will design and construct a new beach, Jet Ski and personal watercraft (PWC) launch ramp, along with additional park amenities at the northern end of Bayside Park, with design scheduled for FY 2024 and construction planned for FY 2025–2026.	TBD	TBD
Silvergate Tunnel Abandonment	This project will formally abandon in-place four large concrete intake and discharge tunnels—each measuring 8 feet by 8 feet by 700 feet—originally installed by SDG&E for the former Silver Gate Power Plant at 2205 East Belt Street, by designing and constructing their complete fill-in and decommissioning.	FY2022	FY2026

Other Capital Projects

Project Name	Project Description	Start	End
Harbor Park Upland Improvements	This project will design and construct a new beach, Jet Ski and Personal Watercraft (PWC) launch ramp, and additional recreational amenities at the northern end of Bayside Park, with design scheduled for FY 2024 and construction anticipated in FY 2025–2026.	TBD	FY2026
National City Balance Plan/ Pepper Park	This multi-phase project will enhance Pepper Park through a series of design and construction tasks. Phase 0 includes temporary programming managed by the Department of Park and Recreation. Phase 1 focuses on improvements to the existing park footprint, while Phase 2 will address the future park expansion. Public outreach and schematic design are led by KTUA, with community input shaping the final site plan. Detailed construction documentation for Phase 1 is being prepared by the Engineering-Construction Department, and the construction phase—currently underway—will deliver new features such as a splash pad, perched beach, waterfront deck, playground, picnic areas, promenade, sidewalks, and updated signage. Project completion is expected by the end of 2025.	FY2022	FY2026
Wetlands Mitigation Bank - Pond 20	Phase 1 of this project will initiate the transformation of Pond 20 into a wetlands mitigation bank by completing design, permitting, and approximately 20% of construction. Key activities include securing a Coastal Commission permit, removing unsuitable soil, conducting environmental assessments, finalizing entitlements such as the Banking Enabling Instrument and Port Master Plan amendment, and excavating 75,000 cubic yards of material for transport to adjacent U.S. Fish & Wildlife Service Refuge land, with additional material stockpiled for future export.	FY2025	FY2027
TAMT Redevelopment Project	This project focuses on the planning phase for the TAMT Redevelopment effort, which includes several key improvements: 1) Replacement and realignment of on-terminal rail tracks with enhancements to load capacity; 2) Seismic upgrades, concrete resurfacing, and reconfiguration and upgrading of utility lines; 3) Reconfiguration of the front gate, perimeter fence, and operations center to improve operational safety; 4) Completion of environmental analysis (CEQA and NEPA) and permitting.	FY2025	TBD
SW Channel Shoreline/Sep	This project involves the removal of approximately 1,000 linear feet of existing riprap along the Sweetwater flood channel, to be replaced with eco-engineered, habitat-friendly shoreline structures. The specific locations and linear footages will be determined during the design phase and further refined during procurement through additive bid schedules, ensuring the project stays within the \$2.6M total cost limit.	FY2023	FY2026
B St CST Interior Improvements	The B St. Cruise Ship Terminal Interior Improvements project involves upgrades to two compartments. In Compartment A, it includes demolishing the existing office structure to add 8,350 square feet of usable space, implementing fire life safety improvements, expanding passenger screening, replacing the bathroom facilities, adding a security office, installing a new ticketing area, encapsulating exposed ceilings, and upgrading flooring, painting, and lighting for improved guest comfort. Compartment B will see flooring replacement, interior painting, lighting improvements, and the removal of the ticketing function from the waiting area.	FY2022	FY2027
Driscoll's Wharf Redevelopment	This project involves the design and construction of a new Pier #5, with construction phased to allow for the demolition of other piers by tenants. This approach will ensure that mooring space remains available for current commercial vessels during the transition.	FY2023	FY2027
Harbor Police Headquarters Facility Improvements	This proposed project focuses on upgrading the existing modular facilities at the Harbor Police Headquarters, which currently consist of three obsolete trailers that do not meet the operational space requirements. Option 1 involves removing the three existing leased trailers and designing and installing new modular buildings to accommodate men's and women's lockers, the Community Services Division (including CSOs, Homeless Outreach Officers, and supervisors), and Traffic Investigations equipment, along with additional office space and a meeting room. Option 2 offers a more cost-effective solution, proposing the installation of modular facilities with temporary supports instead of a permanent foundation, providing a quicker fix while still meeting operational needs alongside the three existing trailers.	FY2025	FY2026

Other Capital Projects

Project Name	Project Description	Start	End
Bonnet System	The investment in an Emissions Capture and Control System (ECCS) aligns with the Port's commitment to utilizing new technologies to reduce air pollutants that affect nearby communities. This system connects to a vessel's exhaust while it is at berth, filtering out specific air pollutants. The work scope includes the complete construction of the emissions capture control barge, along with the installation of electrical services, a pedestal boom, a capture hood, a platform, and a manipulator arm to effectively manage and filter exhaust emissions.	TBD	TBD
Drainage Area 2 Stormwater Improvements at TAMT	The project involves the design of treatment control structural Best Management Practices (BMPs) for the drainage area occupied by the Dole leasehold, known as "Drainage Area D-2" in the Port's Long-Term Structural BMP Plan. The structural BMPs will be designed in accordance with the Port's BMP Design Manual and will meet the priority development project requirements for effective stormwater management and environmental compliance.	FY2024	TBD
Seaport Village Tenant Improvements	This project will begin with a new inspection to define the work scope and design. The rehabilitation of the piers will involve removing and replacing various elements, including asphalt concrete paving, ballast, utilities, timber bull rails, edge beams, pile caps, bollards, ladders, and fendering systems. Additionally, a new concrete deck will be constructed over the existing deck (in-situ), and all structural piles will be encased to ensure improved durability and safety.	FY2024	FY2026
Emergency Generator Replacement at Port Admin Building	This project focuses on upgrading the Port Administration Building's emergency power and UPS systems, including the replacement of the emergency diesel generator set, transfer switch, and other associated equipment. The scope of work includes the design, demolition, and installation of a new, upgraded Generator Set (GenSet) system to meet both current and future operational needs. Additionally, the generator will be relocated to comply with the required 50-foot setback from the building, and the new location will be secured with perimeter fencing and surveillance to ensure safety and compliance.	FY2025	FY2026
Wayfinding Signage at Chula Vista Bayfront	The project involves designing, preparing construction documents (CDs), advertising for bids, awarding contracts, and initiating construction for Port standard signage throughout the Chula Vista Bayfront. This signage will incorporate both Port and City logos, as well as concepts developed by RSM, Communications & Community Engagement's consultant, and Communications & Community Engagement's internal design team. The new wayfinding signage will replace and improve upon existing signage, enhancing navigation and visibility across the Bayfront area.	FY2024	FY2026
District Wayfinding and Regulatory Signage Improvements at Harbor Island and Tidelands Park	The project focuses on designing and preparing construction documents (CDs) for Port standard signage throughout the District tidelands. This signage will feature Port logos and concepts developed by RSM, Communications & Community Engagement's consultant, and Communications & Community Engagement's internal design team. The new signage will replace and enhance existing signage, incorporating wayfinding, regulatory signs, monuments, and crosswalk striping.	FY2024	FY2027
Shore Power at Fish Harbor Pier and Chesapeake Wharf	This project involves the design and installation of three shore power pedestals on the north side of Fish Harbor Pier and one shore power pedestal on Chesapeake Wharf. The pedestals will be connected to a 400-amp, 208/120-volt, 3-phase, 4-wire circuit sourced from the existing electrical service at the Chesapeake processing facility. Additionally, the project will explore lighting options for Fish Harbor Pier to enhance visibility and safety.	FY2024	FY2026
Drainage Area 1 Stormwater Improvements at TAMT	The project involves designing and preparing plans and specifications for structural treatment control BMPs (Best Management Practices) to address runoff from Drainage Area 1, where the only existing treatment methods are inlet screens and the CDS unit. These structural BMPs will be designed to meet the Port's BMP Design Manual's requirements for priority development projects, ensuring compliance with environmental standards for runoff treatment.	FY2024	FY2027

Other Capital Projects

Project Name	Project Description	Start	End
Habitat Friendly Shoreline Structure Improvements at Harbor Island	This project involves the design, manufacturing, and installation of new revetment structures tailored to the Harbor Island environment. The scope includes removing and replacing the existing revetment along approximately 400 feet of shoreline on Harbor Island, with the exact location to be determined during the design phase. The project will also involve redistributing the removed riprap to areas that require replenishment, ensuring shoreline stability and environmental sustainability.	FY2024	FY2026
Broadway Pier Port Pavilion Facility Enhancements	This project involves the design, permitting, and construction of necessary enhancements to achieve the required occupancy goals. Previously, the project was permitted to enlarge existing restrooms to meet increased capacity, but the design was put on hold, and the permit expired. The design phase will begin with a review of the prior design against current code and the implementation of any new requirements, in collaboration with an architectural consultant. After reviewing and updating the design as needed, a design review set will be created for submittal to the relevant planning and building department agencies. This process is expected to take until fiscal year 2026. Once the design is approved, the project will be put out for competitive bidding, with construction anticipated to be completed by the end of fiscal year 2026.	FY2024	FY2027
Administration Building Space Reconfiguration	This project aims to enhance security and functionality within the Administration Building. It includes providing a secure entry point for visitors and staff, with the addition of partitions and sliding doors to support a new entry layout as part of a separate security improvement initiative for the lobby area. The project will also evaluate improvements to a currently closed corridor that leads to a pair of unused entry doors on the west side of the building, facing Pacific Highway. Additionally, a new doorway will be installed into the Administration Building's Training Room on the first floor to improve the efficiency of the emergency operation center (EOC). Finally, office space on the 7th floor will be reconfigured to better meet operational needs.	FY2025	FY2026
NCMT 24-10 Shore Power	This project involves the installation of a shore power system near berths 24-10/11, which will include a shore power substation, a shore-to-ship connection system, an underground duct bank, and shore power equipment, along with a charging station for vehicles and forklifts. The required shore power equipment will consist of a 7.5 MVA, 12.47kV dry transformer, a 6.6kV main draw-out power circuit breaker, and two high-voltage load (HVL) break interrupters. The specific type of shore-to-ship connection system has not yet been determined but will either be a shore-side plug-in station or a cable management system. The final decision on this will be made during the design phase.	FY2022	FY2026
Habitat Restoration at Western Sweetwater Park Shoreline	The proposed project aims to restore approximately 35 acres of degraded upland coastal habitat and eroded shoreline, while creating wetland habitat to benefit local wildlife, enhance habitat connectivity with the adjacent National Wildlife Refuge, and provide protection against sea level rise. The project area, currently dominated by invasive weeds with minimal habitat value, encroaches into nearby areas like Sweetwater Park and the Sweetwater Bicycle & Pedestrian Path. Restoration efforts will include shoreline cleanup to remove legacy concrete debris, grading, planting, and the removal of invasive species. The project will also involve soil redistribution to create appropriate elevations for salt marsh habitat, tidal channels, and sea level rise transgression zones, as well as implementing grow-kill cycles to eliminate invasive weed seed banks. Native plants will be introduced, and environmental monitoring will be conducted during and for five years post-construction in line with the Chula Vista Natural Resources Management Plan. This project is the largest component of the Chula Vista Bayfront Restoration and Enhancement Alternatives Plan, developed by the Chula Vista Wildlife Advisory Group, which includes additional habitat restoration initiatives for the Chula Vista Bayfront.	FY2025	TBD

Other Capital Projects

Project Name	Project Description	Start	End
CST Staging Lot Improvements at 1550 W Palm St	This project will modify the lot at 1550 W. Palm to accommodate cruise terminal truck staging and screening for 53-foot trucks. The scope includes demolishing the existing guard shack, widening the entrance and exit gates, and designating the north gate for entrance only and the south gate for exit only. Additional improvements will include cleaning up and repairing the drive path, as well as re-stripping the lot to create two truck staging lanes and security personnel parking spaces. These modifications aim to improve traffic flow and security at the cruise terminal.	FY2024	FY2026
Marine Terminal Outfalls	This project will design and install four backflow preventers at four marine terminal outfall locations—two at the Tenth Avenue Marine Terminal (TAMT) and two at the National City Marine Terminal (NCMT). The purpose of these improvements is to mitigate the impacts of tidal inundation and sea level rise, as outlined in the Feasibility Study for Flap Gates on San Diego Unified Port District Marine Terminal Outfalls, dated May 17, 2023. These backflow preventers are essential for protecting the terminals from potential flooding caused by rising tides and storm surges.	FY2024	TBD
Stormdrain Inlet Trash Devices at Various Locations	This project involves the final design, purchase, and construction/installation of up to 12 trash capture devices within the Port's existing storm drain infrastructure, specifically within catch basins. These devices will help reduce litter and debris from entering the stormwater system, improving water quality and supporting environmental sustainability efforts in the area.	FY2024	FY2026
Sweetwater Park	This project will design and construct Sweetwater Park as a key component of the Chula Vista Bayfront development. The park will feature a variety of amenities, including a comfort station, parking lot, and structures designed to enhance the visitor experience. Planned improvements include an interpretively themed restroom, group education ring, multi-use meadow, nature and adventure playground, picnic areas, shade shelters, and wildlife blinds. A comprehensive path system will wind through the park, offering opportunities for calisthenic activities and connecting visitors to natural recreational features such as grassy mounds, dunes, a dry creek bed, and basin system. Several overlooks will also provide scenic views of the bay, making Sweetwater Park a vibrant and engaging space for both education and recreation.	FY2023	FY2026
CV Wildlife Reserve Shoreline Improvements	This project aims to replace failing shoreline treatments along the western edge of the Chula Vista Wildlife Reserve with a more sustainable, nature-based solution that will protect the existing berm and adjacent wetland habitat. This project involves the removal of deteriorating concrete treatments at low, medium, and high-energy sites, followed by the installation of eco-friendly shoreline protection measures at the medium and high-energy locations. This approach will enhance the resilience of the shoreline while preserving the integrity of the surrounding environment.	FY2025	FY2027
Supplemental Effort To Increase Native Oyster Habitat (NCWC)	The project involves the installation of Reef Ball elements to enhance native oyster recruitment and shoreline protection. The Reef Balls are two feet tall, with a four-inch thick base. The lower arrays of these reef elements will be placed at an average elevation of -1 feet Mean Lower Low Water (MLLW), while the upper arrays will be at approximately -0.3 feet MLLW. The top of the upper arrays will have a design elevation of 2.2 feet MLLW (± 0.5 feet), and the lower arrays will be at 1.4 feet MLLW (± 0.6 feet). These elevations are specifically designed to optimize surface area for oyster recruitment while providing adequate vertical structure for shoreline protection. Additionally, to compensate for any missing surface area, around 600 oyster castles will be deployed at tidal elevations between -1 and 0 feet MLLW. The oyster castles, each 12" x 12" x 8" in size and weighing 35 pounds, will be stacked in various configurations to create ideal habitat for native oysters. This initiative is a collaboration between the Port and the Coastal Conservancy.	TBD	TBD

Other Capital Projects

Project Name	Project Description	Start	End
Staging Lot Improvements at TAMT	The project involves the development of design plans and specifications for the paving of a partially paved lot located at the south entrance of TAMT, covering an area of about 1 acre. The site is currently used for truck staging and parking. The planned improvements will stabilize the lot, preventing sediment tracking onto the roadway and enhancing stormwater treatment in accordance with the Port's BMP Design Manual. Once completed, the project will provide a more efficient and functional space for truck staging and other marine terminal operations, while also increasing the capacity for stormwater management and improving overall site conditions.	FY2024	FY2027
Physical Security Enhancements at TAMT	The project scope includes installing a concrete foundation, denial wedge barrier systems, drop arms, electrical systems, new signage, and all associated improvements at the designated project location. All work will be carried out in accordance with the project design specifications.	TBD	TBD
Set Back Park Plaza	TBD	TBD	TBD

Economic Recovery Program Highlights

In October 2021, the Board of Port Commissioners approved the Economic Recovery Program (ERP), a suite of 40 projects to be funded with \$100M in American Rescue Plan Act (ARPA) funds.

The project management team includes staff from every Branch, working together to complete stimulus projects by December 31, 2026. Projects are located in all five member cities and are focused on the following areas: major maintenance, disadvantaged community investments, environmental education, storm water improvements, blue technology, visitor serving investments, technology upgrades, and electrification.

PROJECT NAME	TOTAL PROJECT BUDGET	FY 2026 REMAINING ERP BUDGET
ERP FUNDED CAPITAL PROJECTS		
National City Marine Terminal Berth 24-11 Structural Repair	\$ 11,000,000	\$ 10,673,600
National City Balanced Plan Environmental Analysis and Preliminary Design	4,350,000	1,847,800
Splash Pad at Portwood Pier Plaza	1,800,000	1,800,000
Customer Portals	1,103,500	1,103,500
Other ERP Funded Capital Projects	72,228,500	4,265,500
SUBTOTAL ERP FUNDED CAPITAL PROJECTS	\$ 90,482,000	\$ 19,690,400
Capital Labor ⁽¹⁾	\$ —	\$ 1,000,000
TOTAL ERP FUNDED CAPITAL PROJECTS & CAPITALIZED LABOR	\$ 90,482,000	\$ 20,690,400
ERP FUNDED EXPENSE PROJECTS		
Zero Emission Heavy Duty Truck	\$ 1,000,000	\$ 1,000,000
Other ERP Funded Expense Projects	11,364,900	509,300
TOTAL ERP FUNDED EXPENSE PROJECTS	\$ 12,364,900	\$ 1,509,300
TOTAL ECONOMIC RECOVERY PROGRAM ⁽²⁾	\$ 102,846,900	\$ 22,199,700

Notes:

⁽¹⁾ Includes \$1.0M of Capital Labor funded from Operations.

⁽²⁾ The District received the final amount of \$110.3M from ARPA funds. A total of \$7.5M was transferred to the BCP, which leaves the ERP Program funded at \$102.8M.

Debt Management Highlights

Promissory Note to the SDCRAA. As part of the January 2003 transfer of the airport, the District issued a \$50.0M promissory note to SDCRAA. In accordance with the May 20, 2004 settlement agreement, the note is being amortized over 25 years beginning in January 2006 at a fixed interest rate of 5.5% per annum. The District entered in to an agreement with SDCRAA to amend the existing promissory note and renegotiated the fixed interest rate of the loan outstanding balance of \$26.5M, from 5.5% to 3.63% for the remaining term of the note effective November 1, 2021. The promissory note provides that the Port may prepay principal on the note at any time, in any amount without penalty.

Revenue Bonds. The District issued revenue bonds on October 28, 2004. The debt issuance consisted of \$23.0M Series A and \$26.5M Series B bonds for a total of \$49.5M. The 2004 series A bonds were fully paid in August 2019. The bonds were issued to reimburse the District for previously incurred expenditures on Capital Improvement Program (CIP) projects approved by the Board of Port Commissioners.

On November 20, 2013, the District refunded its \$26.5M Series B 2004 Bonds which resulted in the issuance of \$25.5M Series A 2013 Revenue Bonds for a term of 16 years with interest rates ranging from 2.0% to 5.0% with maturity dates ranging from September 1, 2014 to September 1, 2029.

The District's long-term credit ratings remains strong, with both S&P and Fitch affirming an 'A+' rating and maintaining a stable outlook.

Debt Service Payments FY 2026. Payments are budgeted at \$6.5M (see table below).

Debt Limits. According to section 29 of the Port Act, the District may not incur general obligation bonded debt that exceeds 15.0% of the assessed value of its real and personal property. There are also statutory debt limits that further constrain the District borrowing. At this time, the District does not have any general obligation bonds outstanding. The District has never failed to pay its principal and interest payments when due.

DEBT SERVICE PAYMENTS

Public Art Fund Highlights

In 1982, the Public Art Fund was established in BPC Policy No. 609: Public Art Programs, for the purpose of accumulating funds for the inclusion of public artworks within the tidelands of the District's five member cities to help create a vibrant waterfront destination for residents and tourists. Since then, most of the 70+ permanent public artworks now in the District's "Tidelands Collection," plus numerous temporary artwork exhibitions, have been funded from the Public Art Fund. The Public Art Fund was originally funded by an annual budget set-aside equivalent to a fraction of one-percent of the District's projected annual gross revenues, plus accrued interest. Since then, the fund has become a depository for funds received from other sources, such as: tenant percent for art in-lieu contributions; aggregated District percent for art contributions from Balanced Capital Program (BCP) projects; art-related grants, donations, or bequests from outside sources; and any future income that may accrue from the potential sale, loan, or licensing of artworks. Monies in the Public Art Fund are reserved for expenditures for special art acquisitions or exhibitions of exceptional merit, quality, and significance for the tidelands and the greater San Diego region.

The District's vision for the waterfront includes investing in the community through creative place-making with innovative artworks, cultural programming, and activation opportunities that enhance the visual excitement and cultural richness of District tidelands. Parks & Recreation staff provides leadership, advocacy, and support for arts and culture programming that contributes to the creative economy, cultural tourism, and economic vitality of the region. The 13-member Arts, Culture & Design Committee serves as an advisory panel to staff and the Board of Port Commissioners and supports the development of arts and cultural programs within the District's jurisdiction.

Sweetwater Park BCP Percent-for-Art Project

Artist Roberto Salas' new public artwork, titled "Rigors of Flight", was celebrated as part of the Sweetwater Park Ribbon Cutting event on April 2, 2025 on the Chula Vista Bayfront. The artwork is a 24-foot-tall metal sculpture in the form of a furcula, or wishbone, which acknowledges the natural setting of the park and especially the numerous species of birds found in the area. The artwork was funded through a percent-for-art allocation from the Sweetwater Park BCP budget, in accordance with Board Policy No. 609.

San Diego-Coronado Bridge Lighting Project

The goal of the project is to artistically illuminate the San Diego-Coronado Bridge with a dynamic and programmable color LED architectural lighting installation powered from sustainable energy sources. The project is being planned and coordinated under a memorandum of understanding (MOU) and a cooperative agreement with the California Department of Transportation (Caltrans). Funding is intended to be provided through charitable donations from businesses and private individuals, as well as from in-lieu percent-for-art contributions from District tenants. In November 2020, full-scale lighting mock-up tests conducted on part of the bridge demonstrated the technical functionality of the proposed system design and its ability to achieve the envisioned aesthetic lighting effects.

The bridge lighting project is currently paused pending implementation of another Caltrans project on the bridge. When the lighting project resumes, it will be funded through a Port-led fundraising campaign. Once funded, the project design would be advanced to a level necessary to support initiation of the California Environmental Quality Act (CEQA) review process, achieve certification of the environmental document (an EIR), and obtain all applicable agency approvals and entitlements needed to permit installation of the lighting on the bridge.

Environmental Fund Highlights

In 2006, the Environmental Fund was established by BPC Policy 730 the Port Environmental Advisory Committee Policy, for the purpose of reviewing and providing input and recommendations on District environmental programs and initiatives, and commenting on funding projects aimed at improving the condition of the Bay and surrounding District tidelands. In approving the policy, the Board of Port Commissioners created both the Environmental Advisory Committee (Committee) and the Environmental Fund (Fund). The key component of the Committee and Fund is to support projects that ensure the District's compliance with environmental laws and regulations, as well as, advising the Board on actions that can be taken for the protection and improvement of the environmental conditions of the Bay and surrounding tidelands. Additionally, the Committee and Fund meet the District's goal of "A Port with a healthy and sustainable bay and its environment." To date, the Fund has supported more than 109 projects worth over \$17.8M, with projects bringing in over \$16.5M in matching funds. The Fund specifically supports projects that address air, water and sediment quality; sustainability and climate action planning; natural resources and endangered species management; habitat creation, restoration or protection; reclaiming natural shoreline conditions; environmental education; research and monitoring; and/or other issues in the Bay and/or the tidelands. The 18-member Committee is an advisory committee to staff and the Board and consists of stakeholder representatives from environmental advocacy groups, the US Navy, regulatory agencies, resource agencies, member cities, academia, local business, and labor.

The Environmental Fund is funded in accordance with BPC Policy No. 730 (see Section 5 Appendix), which sets aside one-half of one percent (1/2 of 1%) of the District's projected gross revenues for that year. The gross revenue shall not include anticipated grants from any source or any other restricted revenue source.

Maritime Industrial Impact Fund Highlights

In July 2010, the Board established a Marine Terminal Impact Fund. The purpose of the fund is to invest in projects that will help offset marine industrial impacts on neighboring communities.

The Board established an initial set-aside of \$500k with additional funds to be set aside annually starting in FY 2011. The annual set-aside was initially calculated at one-half of one percent (1/2 of 1%) of the actual gross revenues earned from the Tenth Avenue Marine Terminal (TAMT) and the National City Marine Terminal (NCMT).

In March 2015, BPC Policy No. 773 was adopted (see Section 5 Appendix), and the Marine Terminal Impact Fund was renamed the Maritime Industrial Impact Fund (MIIF). In June 2015, BPC Policy No. 773 was revised to change the way the annual set-aside was calculated. The annual set-aside is now calculated at one-half of one percent (1/2 of 1%) of the actual gross revenues earned from TAMT and NCMT as well as revenues from maritime industrial tenants located between the two terminals. At the April 2022 Board workshop, the Board approved an additional one-half of one percent (1/2 of 1%) to be added to the fund.

In June 2023, BPC Policy No. 773 was amended again, and the annual set-aside is now calculated at two percent (2%) of the actual gross revenues earned from TAMT and NCMT, as well as revenues from maritime industrial tenants located between the two terminals.

In May 2024, BPC Policy No. 773 was revised to increase the annual set-aside calculation from two percent (2%) to four percent (4%) of the actual gross revenues earned from TAMT and NCMT as well as revenues from maritime industrial tenants located between the two terminals. The actual amount of the funding will be posted after the end of each fiscal year when the gross revenues from each terminal are known.

Notes:

- (1) According to BPC Policy No. 773 for the purpose of the MIIF Set-Aside calculation, revenues are gross revenues from TAMT, NCMT, and maritime industrial tenants between the two terminals.
- (2) Additional Set-aside of 0.5% of revenues for FY 2023. BPC Policy No. 773 was amended in June 2023, increasing the annual set-aside from 0.5% to 2.0%. In May 2024, BPC Policy No. 773 was amended increasing the annual set-aside from 2.0% to 4.0%.
- (3) FY 2023 Actual Total Set-aside was trued-up in FY 2024.
- (4) FY 2026 MIIF to fund projects to mitigate off-tidelands impacts from District's maritime terminals and maritime industry.

Seaport Village Highlights

Seaport Village is a tourist-oriented specialty retail shopping center consisting of approximately 100,000 square feet of specialty retailers, restaurants, outdoor entertainment, and parking on an approximately 14-acre Bayfront site located at 849 West Harbor Drive in San Diego, California. Since assuming ownership of the Seaport Village assets on October 1, 2018, the District has successfully repositioned and revitalized the center with strategic financial and operational investments of approximately \$9.7M towards site maintenance enhancements, activations, deferred maintenance and tenant improvement allowances to improve the overall experience for locals, visitors and the businesses that operate within it. The center has 63 tenants and is currently managed and operated by a third-party property management company on the District's behalf.

For FY 2026, the District is budgeting approximately \$12.9M in revenue for Seaport Village, which consists of four categories: base rent generated from tenant leases (fixed and concession revenue), common area maintenance (CAM) fee recovery income, marketing fee recovery income, and parking revenue. The District is budgeting approximately \$3.9M in operating expenses for Seaport Village, based on the following three categories: projected leasing commissions to the District's commercial broker for leasing vacant spaces; management's operating budget for the day-to-day management, operation, and maintenance of Seaport Village; and marketing expenditures to advertise and promote this unique waterfront venue. The District is also budgeting \$1.4M in investment spending for tenant improvements funded by the Other Capital Projects. By investing in these expenditures, the District will be taking a proactive approach to ensure that Seaport Village operates efficiently and continues to serve as a vibrant and prosperous waterfront destination for residents, visitors, and the businesses that operate it until the redevelopment of the Central Embarcadero commences.

SUMMARY OF SEAPORT VILLAGE REVENUE AND EXPENDITURES	BUDGET FY 2026
Revenue Sources: ⁽¹⁾	
Fixed Rent	\$ 52,000
Concession Revenue	7,361,500
Common Area Maintenance	2,195,000
Marketing Fee ⁽²⁾	600,300
Parking Revenue	2,726,300
Total Revenue Sources	\$ 12,935,100
Operating Expenses: ⁽³⁾	
Broker Services	\$ 196,000
Common Area Maintenance ⁽⁴⁾	2,887,000
Marketing Fee	782,000
Total Operating Expenses	\$ 3,865,000
Operating Income	\$ 9,070,100
Investment Spending:	
Seaport Village Tenant Improvements ⁽⁵⁾	\$ 1,400,000
Total Investment Spending	\$ 1,400,000
Total Income	\$ 7,670,100

Notes:

- (1) Revenue sources for Seaport Village are budgeted in the Real Estate profit center (see Section 3, Revenue Highlights).
- (2) Unless specifically excepted or capped in (a) particular lease(s), Seaport Village tenants reimburse the District for all marketing expenses at the shopping center. Revenues and expenses will be managed according to the Board-approved budget throughout the fiscal year.
- (3) Operating expenses are budgeted in Section 4, Real Estate.
- (4) Management's operating budget is included in Common Area Maintenance expense.
- (5) Tenant Improvements are budgeted in Section 3, Other Capital Projects.

PAGE LEFT INTENTIONALLY BLANK

Parks Management & Revenue Highlights

Property Use Revenue Summary

The Parks & Recreation department oversees public access to the waterfront and manages the usage and permitting of the District's 23 public parks, piers, public open space, and certain facilities to promote well-being and civic pride for residents and tourists to the region.

For FY 2026, the Parks Management Program is expected to generate \$1.0M in gross revenue from fees collected on the use of District property, parks, public open space, and facilities for which the department issues use permits. Approximately \$478k of the \$1.0M gross revenue generated by the department is for waived permit fees for FY 2026 Tidelands Activation Programs.

This amount does not include the incremental revenue accruing to the District resulting from special events and activities that the department permits, which includes concession-rent revenue from hotels, restaurants, retail stores, and parking in tenant- or operator-managed facilities generated by special-event attendees' patronage of these businesses. Event attendees in San Diego County spend \$35.57 per person per event beyond the cost of admission according to the Arts & Economic Prosperity 6 study released in early 2024 and conducted by Americans for the Arts, a national industry organization. Overall, the study attributes a total of \$637.8M in event-related expenditures in San Diego County during fiscal year 2022.

Parks & Recreation department-issued permits generate fees that are captured as revenue in three different profit centers - park and public open space use fees that are accounted for in the Real Estate profit center are estimated at \$476k in gross revenue, facility use fees that are accounted for in the Maritime & Operations profit center are estimated at \$395k in gross revenue, and parking use fees that are accounted for in the Guest Experiences - Parking profit center are estimated at \$131k in gross revenue.

Use Fees

Use fees vary based on the type of use and planned activities. The fee schedule for the use of the District's public parks for special events can be found on the District's website under Board of Port Commissioners Policies, Policy No. 452 (see Section 5 Appendix). Fees for other use types and activities are located in the department's permitting procedural documents.

Vending & Expressive Activity Program

To help activate public spaces and contribute to the vibrancy and excitement of the District's waterfront, the Parks & Recreation department manages the District's Vending & Expressive Activity Program, which was updated by the Board in February 2023. The program authorizes street vendors and performers to operate in predetermined Allotted Spaces in certain District parks and public open spaces. The program seeks to accomplish the following objectives:

- Provide increased economic opportunity for commercial and expressive vendors.
- Activate the District's waterfront by providing a broad range of commercial goods and expressive activities.
- Ensure health, safety, and general welfare standards are maintained.
- Reduce negative, adverse secondary impacts associated with unregulated commercial vending and expressive activity.

Commercial Vending includes the sale of any commercial merchandise and requires the issuance of Temporary Commercial Use Permit from the Parks & Recreation department for use of an Allotted Space. Expressive Activity is allowed in designated Allotted Spaces on a first-come, first-served basis and includes a wide variety of speech and conduct that may also include the sale of items that are inherently communicative in nature. In calendar year 2024, the Parks & Recreation department oversaw the management of 35 commercial vending spaces and 32 expressive spaces, for a total of 67 spaces in the City of San Diego. In calendar year 2025, the department managed 33 commercial vending spaces and 34 expressive spaces, for a total of 67 spaces in the City of San Diego. Commercial Vending activity is governed by San Diego Unified Port District Code Section 8.05.

Special Event Sponsorship Highlights

The District sponsors four types of special events defined under Board Policy No. 771, the Tidelands Activation Programs (see Section 5 Appendix), administered by the Parks & Recreation department. Included below are summaries of its special event sponsorship program types for FY 2026.

Community Events

Community Events are held on tidelands, and the District provides event-related fee waivers to qualified applicants to support the production of free special events open to all ages and do not require any paid admission or participant registration fee. Community events align closely with the District's goals to balance public access to District parks for everyone, bring people together to connect communities within the District's dynamic waterfront, and enhance the quality of life for all communities.

Past Community Events include the Dr. Martin Luther King Jr. Parade and Festival, San Diego Fleet Week, Live Well San Diego 5K & Fun Run, and Coronado Music Festival.

For FY 2026, eligible applicants may apply for event-related fee waivers as defined in Board Policy No. 771.

Business Negotiated Events

Business Negotiated Events consist of multi-faceted, strategic partnerships that produce prominent special events with national recognition on the waterfront for the benefit of residents, tourists, and area businesses. They are complex in nature, require long-range planning, input from multiple District departments, and involve substantial collaboration among businesses and agencies - including regional tourism agencies - to bring large-scale events to San Diego Bay that have a significant economic benefit to the region and generate direct and/or indirect revenue for the District, its tenants, and its member cities.

For these sponsorships, Parks & Recreation may negotiate direct revenue-sharing for the District from tickets, concessions, merchandise, and/or total net profit. Substantial direct and/or indirect revenue to the District from its tenant businesses is also derived from event attendee activity, such as hotel room night bookings, event-generated parking, and additional consumer spending by attendees at restaurants and in retail stores.

Past Business Negotiated Events have included Comic-Con, Big Bay Boom, Holiday Bowl Parade, San Diego Bay Wine + Food Festival, Gator by the Bay, and Wonderfront Music & Arts Festival.

Sponsorship funding is approved by the Board as a Parks & Recreation department program. For FY 2026, \$591k is allocated to the program and included in the department's Non-Personnel Expense (NPE) budget in Section 4, Parks & Recreation.

Civic Events

Civic Events are community-focused events intended to appeal to a diverse population. Equal amounts of direct funding, as well as event-related fee waivers, are budgeted for use in each member city to support the production of free civic events held on tidelands during the fiscal year. Civic events serve a large number of community members and often occur in conjunction with a national holiday or a seasonal celebration and may promote recreation, environmental stewardship, and/or recognize a community's heritage or identity.

Past Civic Events include Chula Vista Earth Day, Imperial Beach Symphony by the Sea, and the Port of San Diego Day at the Docks.

Sponsorship funding is approved by the Board as a Parks & Recreation department program. For FY 2026, \$350k is allocated to the program and included in the department's NPE budget in Section 4, Parks & Recreation.

Special Event Sponsorship Highlights

Expanded Access Program

Expanded Access Program events are intended to activate tidelands parks that have historically been under-utilized for special events. As title sponsor, events curated under this program reaffirm the District's investment in each community by providing sponsorship funding and event-related fee waivers for the production of a maximum of three events per fiscal year. Expanded Access Program events are designed to appeal to a diverse population, balance access to parks for everyone, and feature the unique character of the selected public space(s). District staff will work in consultation with community stakeholders to identify concepts and review selection criteria for a special event hosted at each of these less-activated parks.

An example of the Expanded Access events were the multi-cultural festivals produced at Pepper Park in National City, Cesar Chavez Park in San Diego, and Bayside Park in Chula Vista in FY 2024.

Sponsorship funding is approved by the Board as a Parks & Recreation department program. For FY 2026, \$210k is allocated to the program and included in the department's NPE budget in Section 4, Parks & Recreation.

Grants

Grants from Other Agencies to the District

Grant Revenue is included in the revenue budget. The District may pursue grants from other agencies where the District may be qualified and the grant would provide for a strategic service. The budget excludes grants that have not been officially awarded.

	BUDGET FY 2026
CAPITAL GRANTS	
Maritime & Operations	\$ 31,635,300
Real Estate	6,600,000
Informational Technology	3,615,000
Harbor Police	2,427,500
Sustainability & Innovation	771,300
Field Operations	90,000
SUBTOTAL CAPITAL GRANTS	\$ 45,139,100
GRANT REVENUE - OTHER	
Sustainability & Innovation	\$ 1,080,000
Harbor Police	595,800
Field Operations	457,000
Maritime & Operations	242,900
SUBTOTAL GRANT REVENUE - OTHER	\$ 2,375,700
TOTAL	\$ 47,514,800

Grants for Maritime & Operations. The District will utilize funds awarded by the US Environmental Protection Agency (EPA) to continue the electrical improvements project at TAMT, install shore power for an electric commercial harbor craft, advance the construction of an electric truck stop, and to purchase 32 pieces of battery electric zero-emission cargo handling equipment. The District will use funds awarded by the State of California to procure a Port Emission Capture Control System. The District will continue to support the state of California's energy and greenhouse gas policies program by demonstrating the business case for advanced microgrids through the TAMT Microgrid Infrastructure project, which has been constructed with grant funds provided by the California Energy Commission (CEC).

Grants for Real Estate. The District has been allocated funds from the California State Department of Parks & Recreation to build a new park at Chula Vista bayfront. The Department of Housing and Urban Development has awarded funds to the District for the construction of Freedom Park, as well as a boat launch at Harbor Park.

Grants for Information Technology Projects. The District received funds from the California Office of Supply Chain, Governor's Office of Business and Economic Development (GO-BIZ) to implement the Maritime PortConnect project. The PortConnect project will support cloud-based port data system development and emerging data aggregation and analysis to advance supply chain efficiency. Also, the District will continue to receive grant funds from the Department of Homeland Security Port Security Grant Program for the Public Open Spaces Threat Detection, Threat Detection Enhancements, San Diego Bay Radar Coverage, and the construction of a Cybersecurity Maturity Model.

Grants for Harbor Police. The District will use funding from the Department of Homeland Security to purchase two replacement fireboats and a maritime fire simulator. The District will continue to utilize funds from the California Border Alliance Group for the High Intensity Drug Trafficking Areas (HIDTA) programs, and funds from the Urban Area Security Initiative for advanced close

Grants

quarters training. Funds awarded to The District by the San Diego Office of Emergency Services State Homeland Security Program will be used to purchase replacement equipment. The District will use funds awarded by the California Department of Transportation (Caltrans) for enforcement and towing services in the Zuniga Shoal area.

Grants for Sustainability & Innovation. The District will continue to use funds awarded by The Builders Initiative for San Diego Bay Native Oyster Living Shoreline Project, blue carbon studies, and for creating opportunities for restorative ocean farming. The U.S. Department of Commerce has awarded funds to the District for nature-based habitat friendly shoreline solutions along Harbor Island Park, and the District will use additional funding from the California Coastal Conservancy to evaluate the success of the native oyster living shoreline project. The District will also use funds awarded by the California Department of Transportation (Caltrans) to complete the environmental studies required to engage in marine debris removal and to perform marine debris removal in the Zuniga Shoals area.

Grants for Field Operations. The District will use funds from the Division of Boating and Waterways to remove abandoned recreational vessels from our waterways. In addition, Caltrans has also awarded funds to the District for the removal of abandoned vessels at Zuniga Shoals. The District will also use funds awarded by the Department of Homeland Security for HPD vessel maintenance.

4 Departments Cost Centers

In this section, departments and cost centers are organized alphabetically. Departments include a mission, vision, and key services provided / goals, followed by a summary of department expenses, staffing, equipment outlay, and expense budget breakdown. The cost centers include a summary of departmental expenses and expense budget breakdown.

Aquaculture & Blue Technology

MISSION

To provide a launch pad for sustainable aquaculture and blue technology innovation in and around San Diego Bay by offering key assets and support services focused on pilot project facilitation, planning and predevelopment tools, state and federal policy and legislative development, permit ready infrastructure, entitlements, market access, and strategic funding.

VISION

To be a catalyst for sustainable aquaculture and blue technology innovation in and around San Diego Bay and build a sustainable portfolio of new businesses and partnerships that deliver multiple social, environmental, and economic benefits to the region.

KEY SERVICES PROVIDED / GOALS

- Manage new inquiries and proposals through the Port's Blue Economy Incubator (BEI) four-step cross-departmental review and selection process.
- Evaluate innovative aquaculture and blue tech proposals to address Port challenges and inform future opportunities in collaboration with other Port subject matter experts.
- Manage and coordinate deployment of approved BEI pilot projects and monitor performance and agreement compliance.
- Participate/coordinate with state and federal agencies in creating enabling policies, legislation, and permitting pathways to facilitate timely development of emerging sustainable aquaculture and Port-related blue tech industries.
- Provide community outreach, environmental education, and foster stakeholder collaboration with the blue economy ecosystem locally, regionally, nationally, and globally.
- Provide regulatory expertise and capacity to expedite permit applications for startup and early-stage companies' products and services – accelerating time to market and scaling blue economy innovation.
- Leverage and build partnerships with local, regional, national, and global blue economy ecosystem, academic institutions, resource agencies, and industry to turn applied research into innovation, increase investment in blue-tech, ocean-tech and climate-tech through creative financing and increasing operating revenue.

Climate & Sustainability

MISSION

Through proactive planning, innovative partnerships, collaborative stewardship, and regulatory compliance, accelerate climate mitigation, adaptation, and carbon sequestration solutions to support a prosperous, sustainable, and resilient Tidelands.

VISION

A sustainable and resilient Tidelands for present and future generations.

KEY SERVICES PROVIDED / GOALS

- Develop and update plans such as the Climate Action Plan (CAP), Maritime Clean Air Strategy (MCAS), and climate adaptation plans for improving air quality, reducing greenhouse gases (GHG) emissions, and preparing for climate change.
- Provide guidance to Port departments for CAP, MCAS, and climate adaptation implementation.
- Foster environmentally responsible culture among Port staff, tenants, and service providers.
- Establish external partnerships to implement Port climate and air quality improvement plans and strategies.
- Determine and implement cost effective initiatives to reduce GHG emissions, air quality improvement, and climate adaptation solutions.
- Track GHG emissions and pollutants and evaluate apportioned health risk.
- Monitor and analyze air quality and climate regulations and policy.
- Emergency Management (Planning, Preparedness, Response and Recovery).

Climate & Sustainability

Commissioner Services

MISSION

Serve as vital connectors between the Board, staff, stakeholders, and the public, ensuring seamless communication, alignment with organizational goals, and strategic collaboration. Through meticulous coordination, streamlined processes, and proactive assistance, we facilitate focus on governance, leadership, and impactful decision-making.

VISION

To be a pillar of operational success, providing superb administrative services. Through adaptability, continuous improvement, and a commitment to service excellence, we work to ensure Board functions run smoothly and in support of the Port's objectives with clarity and confidence.

KEY SERVICES PROVIDED / GOALS

- Provide administrative support to the Board
- Liaise with Board, Port leadership, public and private entities on day-today-business matters on behalf of the Board.
- Track Board requests for information and feedback to staff.
- Collaborate with District Clerk, the Board and/or other appropriate executives to coordinate meetings and ensure compliance including regular board meetings, workshops, and swearing in.
- Prepare and present staff and agenda reports and other necessary correspondence.
- Manage corporate travel services.

Communications & Community Engagement

MISSION

Be a dynamic and trusted strategic partner, providing integrated communications and marketing services that clearly and creatively share the District's story internally and externally, and engage people in the Port experience.

VISION

People and partners experience a thriving and inviting San Diego Bay waterfront; understand, appreciate and are motivated to join in the District's purpose; and are left with a sense of enduring pride and extraordinary potential.

KEY SERVICES PROVIDED / GOALS

- Develop and oversee the District's brand and sub-brands.
- Oversee telling the District's story to the public and stakeholders in a consistent and deliberate manner.
- Develop, implement and analyze integrated marketing campaigns to support the District's business lines.
- Manage and implement creative services for the organization, including graphic design, photography and video production.
- Manage the District's marketing sponsorships to ensure the Port's brand is represented correctly and the District's messaging is consistent.
- Oversee content creation and design of the District's website and social media channels.
- Manage the District's Speakers Bureau, including giving tours, providing speaking points and developing high-level presentation materials.
- Handle all District media inquiries, media interviews, media events, and development of key messaging platforms.
- Maintain positive and transparent relationships with international, national and local media.
- Manage community outreach for various District projects and initiatives to engage the public and stakeholders.
- Manage internal communications strategies for the organization, including the intranet.

Communications & Community Engagement

Development Services

MISSION

With a service-first approach, Development Services satisfies regulatory requirements for development through the review and processing of District and tenant projects for compliance with the California Environmental Quality Act (CEQA), the Port Master Plan and the California Coastal Act, the District's development policies, and other applicable laws and regulations.

VISION

To guide development of a world-class waterfront through excellence in customer service, enhancement and protection of the environment, and furtherance of high-quality public and private spaces on tidelands.

KEY SERVICES PROVIDED / GOALS

- CEQA and Coastal processing for District and Tenant Current Planning projects, including: overseeing preparation of CEQA documents; preparing CEQA/Coastal language for most Agenda Sheets; preparing CEQA and Coastal Determinations for District and Tenant projects and some special events; and processing Coastal Development Permits and Port Master Plan Amendments.
- Regular coordination with staff of the California Coastal Commission and other public agencies, and the District's Planning Department and other District departments.
- Conduct tenant project review and approval, and design review.
- Conduct tenant inspections during project construction.
- Provide mapping services.

Development Services

Economic Planning

MISSION

Provide economic insight and analysis to inform Port decision-making, evaluate the return on investment of strategic initiatives, and assess the broader economic impact of Port activities. The team supports long-term planning and policy development through research and collaboration.

VISION

Support a forward-looking, data-informed Port that invests wisely, adapts to economic trends, and maximizes public value.

KEY SERVICES PROVIDED / GOALS

- Analyze the economic impact of Port projects, policies, and investments.
- Forecast market and industry trends to inform long-range planning.
- Evaluate the potential return on investment (ROI) of proposed capital and policy initiatives.
- Support departments with economic data and research for budgeting forecasting, grant applications, policy development, and strategic initiatives.
- Monitor regional, national, and global economic indicators relevant to Port operations.
- Produce internal reports and briefing materials to support leadership and Board decision-making.

Economic Planning

Energy & Policy

MISSION

We support the evolving needs and priorities of the Port by developing new policies, projects and analytics in collaboration with other departments. We support economic growth through programs and processes which lower emissions, strengthen community partnerships, and promote environmental stewardship by providing analytics and policy options.

VISION

Support the Port's position as a global leader in energy, sustainability and equity.

KEY SERVICES PROVIDED / GOALS

- Analytics to support programs, in collaboration with other departments.
- Draft agency policies to transform ideas into action plans including external labor and energy.
- Connect tenants with financial opportunities such as grants and business partnerships.
- Manage LCFS Program.

Engineering - Construction

MISSION

Deliver innovative, sustainable infrastructure that enhances the beauty of our premier waterfront, supporting community and economic vitality.

VISION

To be a nationally recognized leader in design, construction, and management of a world-class waterfront.

KEY SERVICES PROVIDED / GOALS

- Administration of public projects in the Balanced Capital Program, Major Maintenance Program, and Other Capital Projects.
- Development and management of public works plans and specifications.
- Implementation of Alternative Delivery Methods.
- Inspection of public works projects.
- Inspection of tenant development projects.
- Review of tenant plans.
- Administration of the Asset Management Program to support the maintenance of port infrastructure.
- Administration of infrastructure asset inventories.
- Preparation and updates to condition assessments.
- Preparation of engineering studies and investigations.
- Compliance with the RWQCB Construction Storm Water Permit and other regulations.
- Grant application support for public projects.
- Load capacity and related calculations.
- Cost estimating.
- Project scheduling and scope definition.
- Exhibit preparation.
- Field surveying and mapping services of sites and utilities.
- Engineering support for development projects.
- Project reporting.
- Records Retention.

Engineering - Construction

Environmental Conservation

MISSION

To conserve and enhance natural resources in balance with the Port's trustee responsibilities for commerce, navigation, fisheries, recreation, and environmental stewardship. This is accomplished by protecting and restoring native habitats, ensuring regulatory compliance, and advocating for sustainable resource management.

VISION

To create a vibrant, sustainable waterfront that supports both economic vitality and environmental resiliency, ensuring robust natural resources endure for present and future generations.

KEY SERVICES PROVIDED / GOALS

Compliance with Mandated Regulatory Requirements:

- Ensure compliance with federal, state and local environmental laws and regulations.
- Obtain permits and ensure compliance for Blue Economy Incubator, Capital Improvement, and Major Maintenance programs in-water construction projects in accordance with U.S. Army Corps of Engineers (USACE) and Regional Water Quality Control Board permits (RWQCB).
- Compliance with the USACE Regional General Permit #72 for routine maintenance of Port piers, docks and wharves to facilitate the Balanced Capital and Major Maintenance programs.
- Facilitate environmental education to promote pollution prevention and the bay's natural resources for students in the San Diego Bay watershed to protect the bay's natural resources.
- Coordination with Resource Agencies to expedite Port Balanced Capital and Major Maintenance programs and Tenant development projects.
- Lead the management of protected species and habitats on tidelands.
- Manage memorandum of agreement with USACE for Harbor Maintenance Trust Fund.
- Develop mitigation procedures for bay fill, eelgrass, wetlands, and upland habitat.
- Coordinate a programmatic essential fish habitat permit for proposed sea turtle critical habitat.
- Implement Federal guidance for dredging projects at B Street and Laurel Hawthorne embayment.
- Maintenance of mitigation credits/banks on Port Tidelands.
- Review newly proposed legislation and provide comments.
- Compliance with Chula Vista Natural Resources Management Plan and Port/Navy Integrated Natural Resources Management Plan.
- Ensure compliance with the mitigation requirements for Chula Vista Bayfront projects.
- Emergency Management (Planning, Preparedness, Response and Recovery)– respond to emergencies with the potential to impact natural resources in the bay or could impact regulatory and permit requirements. Continue local emergency for Caulerpa in coordination with the County of San Diego emergency management. Respond to reports of injured wildlife.

Environmental Conservation

Improving the quality of the Bays natural resources through environmental stewardship:

- Manage the bay's natural resources in accordance with the joint Port/Navy Integrated Natural Resources Management Plan (INRMP), and update through 2027.
- In coordination with Development Services and Planning by reviewing CEQA documents for all Port and Tenant maintenance and development projects and tenant project applications for natural resource issues.
- In coordination with Engineering and Blue Economy Incubator projects, obtain all in-water permits and ensure permit compliance.
- Assist tenants with their permit applications and expedited permit processing.
- Manage the Port's Environmental Advisory Committee and Wildlife Advisory Group.
- Manage endangered and threatened species, including control of predators.
- Conduct bay-wide natural resources surveys in coordination with the Navy, including avian, fish, eelgrass, turtles, and oysters.
- Implement the Chula Vista Bayfront Natural Resources Management Plan to ensure all development projects are in compliance with the plan and other entitlements.
- Proactively survey for and manage invasive species, including the complete eradication of Caulerpa.
- Identify and apply for grant funding to implement Port restoration and enhancement projects.
- Continue implementation and monitoring of the nature-based solutions and coastal resiliency projects.
- Support and host coastal clean-up events and debris removal.
- Provide support and funding for environmental education for students within the San Diego Bay watershed regarding pollution prevention and natural resources.
- Expand regional partnerships with stakeholders including agencies to support a Sentinel Landscapes designation in partnership with the US Navy and California Coastal Conservancy.
- Seek additional grant funding to support wetlands creation and restoration, Caulerpa eradication, expansion of nature-based solutions and eelgrass creation. (previously awarded \$20M in grants since 2018)
- Manage environmental fund to support matching funds for grants.

Restoration and creation of the bay's natural resources:

- Create a 75-acre mitigation bank on Pond 20 to generate revenue and ensure mitigation is available for future Port BCP/MM and Tenant projects.
- Maintain and annually monitor eelgrass beds and continue research on blue carbon sequestration and storage.
- Conduct restoration of the bay's natural resources through volunteer events and grant funding.
- Develop a mitigation banking restoration business plan which will create wetlands habitat to be added to the mitigation bank, for 5-acres at D Street Fill and 6-acres at Grand Caribe Isle South and eelgrass habitats.

Environmental Conservation

- Implement nature-based solutions and engineering with nature, by expanding on the success of the native oyster living shoreline and habitat friendly shoreline structures.
- Coordinate nature-based solutions for Grand Caribe Isle South and Chula Vista Wildlife Reserve.

Department management:

- Support staff professional training to expand natural resources expertise.
- Ensure department efficiencies.
- Budget management – continue to manage department budget and spending. Ensure department budget not exceeded.
- Manage Environmental Fund to benefit and improve the Bays natural resources.
- Manage annual reporting on the Harbor Maintenance Trust Fund through coordination with the ACOE.

Environmental Conservation

Environmental Protection

MISSION

Develop a culture of environmental stewardship to protect and enhance the environmental health of the Tidelands and its marine ecosystems. Support Port and tenant projects through all facets of developments and operations to ensure compliance with environmental laws and regulations.

VISION

Pollution Prevention. Healthy Ecosystems. Enhanced Experiences.

KEY SERVICES PROVIDED / GOALS

- Regulatory Compliance Oversight.
- Policy Development.
- Monitoring & Reporting.
- Inspections.
- Field Investigations.
- Data Tracking/Analysis/Mapping.
- Enforcement.
- Plan Review/Approval (stormwater, site assessment).
- Hazardous Waste Management.
- Education / Outreach / Training.
- Stakeholder/Agency Collaboration.
- Cross-departmental Support.
- Emergency Management (Planning, Preparedness, Response and Recovery).

Executive Offices

MISSION

Our mission in the Executive Offices is to lead the Port of San Diego with visionary guidance and strategic oversight. We are committed to driving operational excellence, nurturing innovation, and advancing policies that enhance economic growth, foster a culture of inclusivity and belonging for our employees, and support the well-being of our community.

VISION

To drive the Port of San Diego's success with strategic foresight, operational excellence, and a strong commitment to sustainability, community and stakeholder engagement, while valuing and empowering our employees as key to our achievements.

KEY SERVICES PROVIDED / GOALS

The primary functions of the Executive Office involve strategic leadership, operational oversight, and policy development, alongside a broad range of initiatives aimed at enhancing the District's success and community engagement. To achieve the Executive Office's Mission and Vision statements and Goals, staff is committed to providing the following Key Services:

- **Strategic Planning and Oversight:** Develop and implement comprehensive strategies to guide the District's growth and operations, ensuring alignment of tracking and accountability of long-term goals and vision to fulfill the District's statutory mandate under the San Diego Unified Port District Act, to acquire, construct, maintain, operate, develop and regulate harbor works and improvements, to promote commerce, navigation, fisheries, and recreation on Tidelands.
- **Policy Development:** Craft and advocate policies that drive economic development, sustainability, and community engagement, with a focus on enhancing inclusivity and supporting employee well-being.
- **Leadership and Management:** Provide strong executive leadership to ensure effective management and coordination across all departments, fostering a high-performance culture.
- **Stakeholder Engagement:** Build and maintain positive relationships with key stakeholders, including community groups, government entities, and business partners, to advance the District's objectives.
- **Operational Excellence:** Oversee operational performance to uphold high standards of efficiency, safety, and service delivery across the District's activities.
- **Market Analysis and Expansion:** Conduct thorough market research to identify new business opportunities and expansion areas, ensuring the District remains competitive and responsive to industry trends.
- **Innovation and Improvement:** Promote and support innovative practices and continuous improvement initiatives to drive operational and strategic advancements.
- **Sustainability Initiatives:** Lead efforts to develop and implement sustainability programs that support environmental stewardship and resource efficiency.
- **Employee Support and Development:** Cultivate a positive work environment that supports employee growth, ensures inclusivity and belonging, and enhances overall job satisfaction.
- **Public Relations and Communications:** Manage the District's reputation through external communications and public relations to effectively convey goals, achievements, and initiatives.
- **Financial Oversight:** Oversee budgetary and financial planning to ensure fiscal sustainability and alignment with the District's strategic objectives.
- **Emergency Management and Response:** Lead emergency management efforts to address and mitigate any emergencies or issues affecting the District's operations or reputation.

Executive Offices

- Regulatory Compliance: Ensure adherence to relevant laws, regulations, and industry standards to maintain operational integrity and compliance.
- Partnership Development: Identify and foster strategic partnerships and collaborations to support and advance the District's mission and goals.

Field Operations

MISSION

To deliver cost-effective, reliable, and sustainable maintenance of District assets including the deployment of industry-best practices in turf, plant, irrigation, and urban forest management, leveraging technology to enhance the efficiency and responsiveness of landscaping and support services.

VISION

Excellence, innovation, and leadership in maintenance and support services to ensure the public's first impressions are positive when visiting the bay by optimizing visitors experience on tidelands.

KEY SERVICES PROVIDED / GOALS

- Preventive maintenance of District assets.
- Corrective maintenance of District assets.
- New construction (limited to \$65,000 and below by law).
- Support services (including but not limited to pest control; special events support; refuse and debris removal; furniture/equipment moves; and cruise ship and maritime terminal operations).
- Maintenance services agreement management.
- Trade specific technical consultation.
- Centralized fleet asset management program.
- Landscape maintenance inclusive of turf management, weed abatement, plant management and urban forestry care at 23 parks
- Landscape maintenance at non-park locations:
 - Port Facilities: Admin Building, Port Operations Center, HPHQ
 - TAMT
 - LaPlaya Trail
 - Open Spaces (Pond 20, Sweetwater mitigation areas, etc)
 - Various street/sidewalk areas (Shelter Island Drive, Harbor Island Drive, Tidelands Avenue, North Harbor Drive, J Street, Marina Parkway)
- Management of contracted services for specific landscaped areas/activities.
- Contract negotiations, administration, obligation monitoring and enforcement.
- Park landscaping inspections.
- Landscape enhancement projects (LEP's) to improve visual and ecological benefits – from design through construction.
- Urban Forestry Management & Development Program for 3,900+ trees and growing.
- Optimized “SMART” Irrigation Control Center.
- Financial management of NPE.
- Efficient response to customer/stakeholder complaints.

Field Operations

- Review of development plans impacting landscapes and urban forestry.
- Request For Proposals (RFP) – solicitations for new landscaping service providers.
- Interdepartmental and inter-agency coordination.
- Consultant Management.
- Project management.

Financial Services

MISSION

To safeguard the District's financial assets, provide expert financial planning and analysis, and ensure timely, accurate financial reporting. Our goal is to maintain liquidity for both operational and capital needs, effectively manage risks, uphold safety practices, and deliver exceptional service to our customers and business partners.

VISION

To continuously optimize and enhance financial management processes to deliver best-in-class services that support the District's goals and ensure long-term fiscal sustainability.

KEY SERVICES PROVIDED / GOALS

- Financial Planning, Reporting, and Analysis: Prepare and manage key financial documents, including the Annual Comprehensive Financial Report (ACFR), monthly financial reports, performance metrics, and continuing disclosure for Series 2013 bonds. Produce specialized reports for entities such as the AAPA, Member City, Marine Terminals, and State Lands Commissions.
- Budget Administration: Lead the annual budget process, including the development of the budget book, facilitation of budget workshops, budget approvals and adoptions, mid-year budget reviews, and budget transfers.
- Accounting Services: Oversee accounts receivable, billing, customer account maintenance, collections, accounts payable, and ensure compliance with regulatory reporting requirements.
- Collaboration with External Auditors: Work closely with external auditors during financial statement audits, providing all necessary information, answering all follow up questions, and ensuring the District's interests are well-represented.
- Payroll Management: Handle bi-weekly payroll processing, timecard management, and ensure adherence to payroll regulatory requirements.
- Audit Support: Assist with external independent audits, airport audits, granting agency audits, and internal audits.
- Grants Management: Administer monthly billings, financial reporting (monthly and quarterly), and oversee the A-133 Single Audit process.
- Special Programs and Projects: Manage bond issuance and refinancing, conduct annual credit agency surveillance reviews, handle cost recovery and overhead analysis, and support negotiations such as with teamsters.
- Systems Support: Implement and maintain financial systems, including the Grants module, HR/Payroll module upgrades, Real Estate (RE) module, Travel module enhancements, SAP upgrades, and other IT system enhancements like Workiva.
- Five-Year Cash Flow Forecast: Prepare and manage the District's five-year cash flow forecast to ensure long-term financial stability.

Government & Civic Relations

MISSION

Identify solutions that lead to the implementation of District policies and projects by successfully engaging with local, state, national, and international governments, as well as civic groups and other parties.

VISION

To be a center of excellence in government and civic relations and to support the District's goals by promoting communication, relationship building, and policy development.

KEY SERVICES PROVIDED / GOALS

- Legislative advocacy.
- Political and policy analysis.
- Federal, state, and local elected and appointed officials, and key stakeholder relationship management.
- Grant application and funding agreement management.

Government & Civic Relations

Guest Experiences - Parking

MISSION

To develop, manage, and grow the District's parking assets to their highest and best use based on market rates and demand within the District's planning and regulatory framework.

VISION

Creating America's finest waterfront with public-accessible parking options supported with current technology for a fair value to visitors, tenants, their employees and customers.

KEY SERVICES PROVIDED / GOALS

- Parking asset and operations management
- Assisting with mobility & transportation programs in conjunction with Planning Department
- Contract and Tideland Use and Occupancy Permits (TUOP) negotiations, administration, obligation monitoring and enforcement of Real Estate documents, including Right of Entry License Agreements (ROELA), Right of Entry (ROE), Easements, and Leases.
- Tenant and contractor relationship management.
- Parking asset inspections and improvement planning.
- Special event coordination for parking, notifications for road closures, etc.
- Cruise Parking coordination.
- Parking financial management.
- Citation and parking coordination with Harbor Police and Community Service Officer's team.
- Feasibility studies for new parking assets and programs.
- Customer service for the public and visitors to Tideland's parking & citations & cruise parking.
 - 50 phone calls/month; 40 emails/month; walk-ins for citations.
- Request For Proposals (RFP) – solicitations for new operators.
- Interdepartmental and inter-agency coordination.
- Consultant Management.
- Marketing of available parking locations.
- Project management, including paving, San Diego Association of Governments (SANDAG), pier projects, boat launch and parks.
- Tenant redevelopment proposal review & planning.
- Assistance with current Baywide Signage Program for parking & mobility regulatory signs.
- Parking legislation review and coordination with Government Relations.

Guest Experiences - Parking

- Oversized Vehicle program management.
- Placard program for employees, consultants and tenants.
- Event and parking waiver requests.

Guest Experiences - Parking

Harbor Police Department

MISSION

In partnership with our community, we strive to provide the highest levels of policing, maritime firefighting, aviation security and public safety services.

VISION

To protect and serve with excellence through proactive policing, community engagement and serving with honor, professionalism, and dedication.

KEY SERVICES PROVIDED / GOALS

- Law enforcement, maritime security of San Diego Bay and Aviation Security for the San Diego International Airport.
- Maritime Firefighting Services.
- Community Policing Unit – to include parking enforcement services, vending enforcement, and special event traffic services.
- Homeless out-reach services and coordination with People Assisting the Homeless (PATH).
- Investigations and intelligence services.
- Psychological Emergency Response Team (PERT).
- Communications/ police dispatch services to include 9-1-1 dispatch services.
- Police Records Services.
- Explosives Detection K-9.
- Regional Dive Team.
- Maritime Tactical Team (SWAT).
- Participation in Federal Law Enforcement Task forces (NTF, JTTF, MTF).
- Peer Support / Crisis Intervention (Chaplains, Therapists, Support K-9).
- Drone Team.
- Contracted police services for events.
- Community engagement Programs.

Harbor Police Department

Homeland Security and Emergency Management

MISSION

To provide the highest quality of public service through crime prevention, homeland security, and ensuring quality of life for our communities.

VISION

Dedicated to the protection of our Port, waterfront and surrounding critical infrastructure while fostering resilient partnerships with local state and federal agencies through strategic planning, vigilance and relentless commitment to public safety

KEY SERVICES PROVIDED / GOALS

- Port emergency management, plan development, training and exercises.
- Port emergency incident response and critical communications management.
- Security and emergency management coordination across all Port departments.
- Enhanced security measures for marine terminal operations in support of Port tenants and key military partners.
- Facility Security Plan and access control for regulated terminals.
- Security and emergency management grants project identification, application and project administration.
- Conduct continuous risk and threat assessments of Port critical infrastructure.

Human Resources

MISSION

To attract, develop, and retain top talent by fostering a supportive environment where all employees can thrive and make meaningful contributions.

VISION

Our Human Resources department is dedicated to creating an inclusive and equitable workplace where every individual feels valued and empowered to contribute their best. We strive to build a culture of belonging by promoting diversity, ensuring fair and unbiased practices, and supporting continuous learning and growth.

KEY SERVICES PROVIDED / GOALS

Department Priorities

- The Human Resources department priorities will align with our Functional Areas.
- People, Culture, and Professional Development: Proactively develop, enhance, and invest in Human Resources services and strategies to attract, develop and retain a diverse, inclusive and highly talented workforce to accomplish the mission of the District.
- Human Resources Continuous Improvement: Model Human Resources agility through innovation, technology, and process re-engineering and continuous improvement in delivering effective and efficient strategic and consultative people services.
- Human Resources Metrics + Workforce Analytics: Measure our success by analyzing, monitoring, and evaluating the effectiveness of our people services and programs through metrics and workforce analysis.
- Human Resources Strategy and Operational Administration: Consistently demonstrate Human Resources strategic and operational excellence to position the District as a recognized leader in Human Resources practices and social justice efforts in the San Diego region.

Functional Areas

Recruitment and Selection

- Recruitment and Selection; Onboarding and Off boarding; Career Fairs/Outreach; Intern Program; and Labor Market Data Demographics, Metrics and Analytics.

Employee and Labor Relations

- Answering Questions; Regulatory Guidance and Interpretation; Coaching and Counseling; Investigations, Inquiries and Fact Findings; Employee Events; Conflict Resolution; Progressive Discipline; Skelly Process; Personnel Advisory Board; Developing Management Response to Bargaining Unit Concerns; Negotiating Collective Bargaining Agreements; Grievances; Labor Management Committee; and Rendering Interpretations of Labor Contract Issues.

Benefits, Leaves and Wellness

- Benefits Administration, Education and Contracts; Crisis Intervention; Post-Accident Drug Testing; Health Benefits Committee; Leave Administration (FMLA/CFRA/PDL, Special Leave, Military Leave, Administrative Leave, Compulsory Leave); Physicals; Retiree Healthcare (Including HRA Plan); Retirement Plans; Benefit Surveys; Wellness Center and Programs (Classes, Flu Shots, Onsite Counseling, etc.); Wellness Reimbursement Program; COBRA; Tuition Reimbursement; 457/401(a) Investment Committee; and GASB 45 (Other Post-Employment Benefits Actuarial Analysis).
- Accessibility Advisory Committee Co-Chair; ADA accommodations and Inquiries; and ADA Grievances.

Human Resources

Classification and Compensation Services

- Maintenance of the Classification Specifications (Job Descriptions); Position Control for the District Personnel Budget; Maintenance of the Compensation Structures; Evaluates Competitive Pay Practices; Staff Administers all Compensation Directives and Programs Relating to Pay, Including Salary Administration and Surveys; Creates and Analyzes Reports to Ensure Equity and Makes Recommendations to Prevent Compaction and Compression Issues; Desk Audits (Job Analysis) and Maintenance of the Salary Ordinance and Classification Directory.

Administration, Recordkeeping and Compliance

- Respond to In-Person Inquiries, Emails and Phone Calls; ID Badges (Employees, Consultants, Contractors, Retired Police Officers); Employment Verifications: Port Alert Data Entry; Personnel File Management; Telecommuting, Personnel Rules and Regulations, Administrative Procedures; Board Appointee Agreements; Regulatory Compliance; Unemployment (EDD) Insurance Administration; Subpoena Response; and Performance Management (Evaluations, Performance Improvement Plans, etc.).

Organizational and Learning Development

- New Hire Orientation; Employee Engagement Survey; Coaching Employees / Managers / Supervisors; LEAD Program; Workforce Planning; Management Training; Leadership Development; Regulatory Training; Retreats and Teambuilding; Organizational Review; Development and Delivery of Learning and Development Programs; Process Improvement and Organizational Effectiveness; Employee Recognition; and Employee Service Awards / Executive Leadership Group Awards.

Culture and Belonging

- Education and Training (Internally and Externally); Programming and Cultural Events; Employee Resource Groups; Outreach; High School Internships (Unpaid); Job Shadowing; and Workforce Development.

Human Resources - Culture & Belonging

MISSION

At the Port of San Diego, we work on our culture of belonging every day to ensure everyone feels welcome. The Port values people with varied backgrounds, experiences, and perspectives. Embracing different representations is essential to innovation and the success of our organization and is why we recruit and retain motivated people with a wide array of knowledge, skills, and abilities. We do this by listening, learning, and engaging in meaningful conversations, and thoughtfully considering the needs of all the communities we serve both internally and externally. Qualified candidates appreciate varied viewpoints and enjoy working with others from different backgrounds and identities than their own.

VISION

Our Human Resources - Culture & Belonging Team is dedicated to creating an inclusive and equitable workplace where every individual feels valued and empowered to contribute their best. We strive to build a culture of belonging by promoting diversity, ensuring fair and unbiased practices, and supporting continuous learning and growth.

KEY SERVICES PROVIDED / GOALS

- The Culture & Belonging Team's priorities will align with Human Resources Functional Areas.
- Culture & Belonging Council: a group of Port staff dedicated to cultivating an inclusive environment where our unique abilities, strengths and differences are valued and respected. The Council will focus on talent and recruitment, policies and procedures as well as promote inclusive growth.
- Business Resource Groups: a group of Port staff who will be advocates, business resources, and genuine connectors as a part of the strategic goals to implement a new culture into the Port.
- Workplace: Foster a culture of inclusion and belonging through continuous education and awareness programs.
- Workforce: Implement recruitment initiatives to attract, recruit and retain diverse talent that reflects the demographics of San Diego County.
- Community/Marketplace: Increase access to equitable contracting opportunities and decrease obstacles for underrepresented small businesses.

Human Resources - Culture & Belonging

Information Security

MISSION

Safeguard the confidentiality, integrity, and availability of information systems. Enhance District operations and security through supporting and strengthening a resilient infrastructure, identity, and data assets and to foster a culture of security awareness for every individual, team, and partner agency.

VISION

Our vision is to partner with all District departments by applying technology solutions that evolves the District's role as a regional leader in cyber security, stewardship, and safety.

KEY SERVICES PROVIDED / GOALS

- 24/7 monitoring of security posture.
- Alert management.
- Incident response.
- Data forensic.
- Threat hunting.
- Recovery and remediation.
- Security intelligence.
- Developing and implementing security policies.
- Application and vendor security assessment.
- Security awareness training.
- Security architecture.

Information Technology

MISSION

Provide a secure, stable, high performing technology environment. Enhance District operations through administering and supporting solutions that add value to every team and team member and deliver on-time, on-budget results through collaborative, mission-relevant technology projects and business services.

VISION

In collaboration with all District departments, we will develop and deploy technology solutions that evolve the District's role as a leader in commerce, stewardship and safety.

KEY SERVICES PROVIDED / GOALS

- **Enterprise Application Services** - The Information Technology (IT) Applications Services team supports over 125 business and specialty applications, expertly catering to the diverse needs of more than 20 different departments and units within the Port of San Diego, including Maritime Operations and the Harbor Police Department. The IT department ensures that each application is meticulously maintained and optimized, facilitating smooth and efficient operations across all systems. Regular maintenance, upgrades, and evaluations of applications enhance productivity but also ensure robust security and compliance, particularly crucial for the sensitive operations of our regulated terminals and public safety branch. By fostering a collaborative environment with the business and leveraging cutting-edge technology, the IT Department plays a pivotal role in driving the organization's success and operational excellence. Our application portfolio includes:
 - Enterprise ERP system supporting multiple shared services branches
 - Enterprise Content Management System
 - Customer Relationship Management Platform
 - Geographic Information System
 - Agenda Management System
 - Human Resources Information System
 - Learning Management System
 - Time, Attendance, Payroll System
 - Microsoft Application deployments including SharePoint, PowerBI, Power Automate
 - eSignature System
 - Maritime Terminal Operating System (2025)
 - And many department-focused applications
- **Enterprise Technology & Infrastructure Services** - The IT Enterprise Technology & Infrastructure Services team supports approximately 700 end users (staff, consultants, and temporary workers), located at 12 offices distributed throughout the San Diego waterfront, which are interconnected in a hub and spoke network topology using a redundant mix of leased and private lines. For business continuity of District technology services, IT employs a solution that conducts enterprise-wide data and file backups, with the ability to restore and recover data and application services. Approximately 300 District servers run on a variety of mainstream operating systems, including physical, virtual, and cloud platforms, which host District applications. In addition to the infrastructure listed above, the IT department also operates and maintains the following enterprise solutions and platforms:
 - End user computing devices and standard productivity software titles
 - Mobile cellular device services and support
 - Enterprise account management and directory services
 - Enterprise email and management
 - Enterprise voice, voicemail, and call routing services
 - Enterprise storage area network, storing approximately 250 Terabytes of data
 - Enterprise video archive storage, storing approximately 2.96 Petabytes of data
 - Enterprise network services connecting end-users and datacenter devices
 - Secure remote access application management
 - Enterprise security services including firewall protection
 - Enterprise access control, video surveillance, and analytics
 - Public safety technology including law enforcement records, RIPA, and 911 systems
 - 800MHz radio technology

Information Technology

- **Office of CIO & Strategic Services**

- **Technology Strategic Planning.** The IT Department begins the planning for each fiscal year with a strategic plan review. This review is spearheaded by the AVP of IT. The review ensures that IT's strategies are aligned with those of the overall enterprise, and that the appropriate structures and guidelines are in place to steer the budget cycle.
- **New Technology Requests (NTRs).** In support of business-driven and mission-relevant technology products, and as part of the annual budget cycle, the IT Department continually solicits input from all District staff regarding their New Technology Requests (NTRs). NTRs are evaluated weekly by a multidisciplinary IT team and larger projects are then referred to the Technology Steering Committee for review.
- **Technology Steering Committee (TSC).** The IT Department partners with the Chair of the TSC (currently the Director of Information Security) and the committee members to evaluate NTRs submitted by business departments. New project ideas are scored based on business drivers that correlate both to the enterprise strategy as well as the technology strategy. The IT Project Management Office periodically presents the balanced project portfolio to the committee and consults on all technology elements of all proposed projects.
- **Enterprise Project Management Services.** In FY25, the IT Department is supporting 39 new technology projects, valued at over \$7,500,000. Working with the Technology Steering Committee, the Enterprise IT Project Management Office (PMO) plays a pivotal role in analyzing the resources required to execute proposed projects and balances the portfolio across the fiscal year for efficient allocation of IT staff while recommending external resources when and where needed. The IT PMO provides project management governance, applying best practices to ensure that all technology projects are aligned with the company's strategic objectives. Using the PMBOK (Project Management Body of Knowledge) methodology throughout the project's lifecycle, the PMO ensures consistent, high-quality project results. By adhering to these structured practices, the IT PMO ensures that projects are executed efficiently and aligned with the business goals, delivering maximum value to the organization.
- **Technology Management Program (TMP) Budget Cycle.** The IT Department manages the District's centralized technology budget. The TMP comprises both an operational expense budget as well as a capital budget. The IT Finance unit interfaces with every District Department to ensure that all requested operational budget items are included in the TMP annual budget request. Working with the TSC and all IT leaders, the IT PMO proposes a capital budget for submission into the budget process.
- **Quarterly Business Reviews (QBRs).** On a quarterly basis, all IT leaders meet with each District Department head for a technology review that is specific to their unit. The team reviews:

Maritime & Operations

MISSION

To strengthen our region through growth of cargo, cruise, and maritime industrial business lines while ensuring a clean, safe, and secure environment.

VISION

Keeping our region strong through a thriving and modern seaport.

KEY SERVICES PROVIDED / GOALS

- Maritime is organized in three (3) functional lines: Operations, Commercial (Business Development and Business Retention), and Maritime Sustainability that support four (4) Primary Business Lines:
 - Cargo
 - Cruise
 - Maritime Industrial (Shipyards, Other Maritime Assets)
 - Commercial Fishing
- The Operations team is responsible for the day-to-day functions of the cargo and cruise terminals, billing, tenant liaison, vessel scheduling and coordination with stevedores, agents, the International Longshore and Warehouse Union (ILWU) and other maritime stakeholders.
- The Commercial team is responsible for business retention and growth, including direct sales activities and problem-solving to address competitive issues.
- The Maritime Sustainability function facilitates the implementation of sustainability/decarbonization initiatives and projects within the sphere of the maritime business lines noted above.

Office of the District Clerk

MISSION

We are dedicated to consistently providing exceptional and timely services to the public, our stakeholders, District staff, and the Board of Port Commissioners.

VISION

Through a culture of inclusivity, we facilitate seamless connections with everyone we serve to ensure transparency and accountability for the public.

KEY SERVICES PROVIDED / GOALS

- Process approximately 470 Public Records Requests annually in compliance with the California Public Records Act and the Constitution of the State of California
 - Note – if budget cuts to Office of the District Clerk (ODC) are realized, we will be unable to move forward with a codification service that would manage the Port code, ordinances and resolutions on a hosted website. Approximately 160 in calendar year 2023 with 45 changes to the code requiring codification.
- Ensure compliance with the requirements set forth by the Fair Political Practices Commission (FPPC)
 - Process Form 802s as per BPC Policy No. 070 and Administrative Procedure 106-115
 - Manage Conflict of Interest Program and Statement of Economic Interest requirements (approximately 275 filers)
- Manage the electronic agenda and Board Meeting management system
- Process and post agenda packages for approximately 35 meetings a year in accordance with the Brown Act
- Manage the Records and Information Management (RIM) Program, including documenting and preserving District records.
 - Note – if any budget cuts to ODC are realized, we will not be able to move forward with a planned start on a scanning of permanent records and photo preservation project. We will likely also be limited on the number of boxes that we are able to non-retain in FY 2026.
- Provide administration building customers with their first point of contact at the Customer Service Center located in the lobby and via phone through the main customer service line.
- Provide Print Shop services through a consulting agreement with Xerox (on average 35,000 pages per month)
- Process all incoming and outgoing mail including registered mail and FedEx deliveries and pickups

Office of the Port Auditor

MISSION

The mission of the Office of the Port Auditor (OPA) is to provide independent, objective assurance and advisory services to the Board of Port Commissioners (Board) and District Management. To assist the Board and members of the organization in accomplishing its goals and objectives by bringing a systematic, disciplined approach to evaluating and improving the effectiveness of control, risk management, and governance processes.

VISION

To be a regional model dedicated to providing professional world-class auditing services to advance the public's understanding and trust in the District.

KEY SERVICES PROVIDED / GOALS

The role of the OPA is to provide independent, objective assurance and advisory services that support the Board and management in achieving organizational goals. The OPA plays a crucial role in evaluating and improving the effectiveness of the Port's internal controls, risk management, and governance processes.

- Risk Assessment: Conduct risk assessments to identify potential vulnerabilities within the Port's operations and prioritize audit activities accordingly.
- Conducting Audits: Perform financial, operational, compliance, and performance audits to ensure that the Port operates efficiently and complies with all relevant regulations.
- Providing Recommendations: Offer recommendations based on audits and investigations to improve processes, strengthen internal controls, and enhance the overall effectiveness of the Port's operations.
- Audit Follow-Up: Conduct follow-up audits to assess the implementation and effectiveness of recommendations and corrective actions taken by Port management.
- Collaboration with External Auditors: Coordinate with external auditors during financial statement audits or other external reviews, ensuring all necessary information is provided and the District's interests are well-represented.
- Fraud Prevention: Manage the Port's Fraud, Waste, and Abuse Hotline, investigate all claims of fraud, and ensure prompt identification and resolution of any fraudulent activities.
- Monitoring Compliance: Track and monitor compliance with laws, regulations, and internal policies, updating the Board, management, and the Audit Oversight Committee (AOC) on emerging compliance risks.
- Supporting Transparency and Accountability: Foster transparency and accountability within the District by regularly reporting audit results and recommendations to the Board, management, AOC, and other stakeholders.
- Assisting Management and the Board: The OPA supports the Board and management by reviewing special requests and providing recommendations, ensuring that decisions are informed by thorough analysis and best practices.
- Reporting to Stakeholders: To ensure transparency, regularly report findings, audit results, and the status of recommendations to the Board, management, AOC, and external stakeholders.
- Benchmarking and Best Practices: Identify and integrate best practices from other ports or industries, benchmarking the Port's processes against leading standards to drive continuous improvement.
- Training and Development: Provide training and resources to Port staff on internal controls, fraud prevention, and compliance to promote a culture of integrity and awareness.

Office of the Port Auditor

- Support the Audit Oversight Committee: As directed by the board, provide robust support to the AOC, ensuring effective oversight and alignment with the Port's strategic goals.

By carrying out these functions, the OPA helps the Port to safeguard its assets, optimize operations, and maintain a strong governance framework.

Parks & Recreation

MISSION

To create a vibrant waterfront destination with innovative artworks, cultural programming and activation opportunities that enhance the visual excitement and cultural richness of Port tidelands.

VISION

To establish Port tidelands as a world-class arts and cultural destination that enriches the lives of present and future generations.

KEY SERVICES PROVIDED / GOALS

Permitting:

- Provide customer support to all applicants inquiring about park and facility uses and utilizing the park permit portal to facilitate the submittal of use permits. Support service is delivered online, in person, and via telephone. Spanish/English support is also provided to customers.
- Receive electronic applications and manually review, process, invoice, and refund deposits for over 600+ park use permit applications.
- Issue 600+ special event permits annually for small events, special events, moving events (parades and runs), car shows, filming, temporary commercial activity, and drone activity.
- Conduct pre-event site visits, weekend/day-of-event visits, and post-event site inspections for approximately 60+ special events each calendar year.
- Oversee the use and permitting for Port Pavilion, Broadway Pier, and Port Aquatic Center for events.
- Park Permitting Portal Management and Liaison with Sales Force staff in IT
- Manage the District's new Vending & Expressive Activity program:
 - Oversight, administration, and update to the Vending and Expressive Activity Ordinance Port Code 8.05
 - Providing support services to applicants utilizing the permit portal in English and Spanish
 - Provide public outreach and coordinate agreement with Logan Heights Community Development Corporation
 - Receive electronic applications and manually review, process, and issue permits for the Port's 33 commercial vending spaces
 - Monitoring the use of 34 expressive vending spaces
 - Process over 200 commercial vending applications annually
- Support the planning and execution of the District's large Business Negotiated Events, including the Big Bay Boom, Wonderfront Music Festival, ComiCon, and the Holiday Bowl Parade, as well as several smaller events such as the Parade of Lights and the South Bay Holiday.
- Coordination of special events with internal and regional stakeholders
- Support internal and external stakeholders with planning and executing internal District special events, which includes managing agreements and issuing task authorizations, coordinating entertainment, equipment rental, logistics, general services support, and catering services for ceremonies, ribbon cuttings, and groundbreakings, press conferences, staff appreciation events, and the District's recently launched Portside Community Academy.
- Manage the District Administration Building's Lighting Program to increase awareness of various social and cultural issues in connection with the City of San Diego, County of San Diego, and the San Diego Convention Center's efforts

Parks & Recreation

Public Art:

- Oversight, administration, and management of the Tenant Percent for Art Program (BPC Policy 608) and the District's Public Art Program (BPC Policy 609), which provides artworks for the public's benefit along the waterfront.
- Manage the District's Public Art Fund, which serves as a depository to include artworks within the District's five member cities.
- Convene and manage the 13-member Arts Culture and Design Committee (ACDC), which meets three times a year and serves as the advisory body to the Board on arts and culture-related matters.
- Provide ongoing stewardship of the District's 70+ artworks (valued at over \$14 million) through professional conservation, maintenance, and collection management programs.
- Process inquiries regarding memorials
- Manage Parks & Recreation Budget

Sponsorships – Tidelands Activation Program (TAP):

- Oversight, administration, and management of Tidelands Activation Program (BPC Policy No. 771).
- Review and process all requests for special event sponsorship – including Community Events, Civic Events, and Business Negotiated Events
- Assess inquiries and opportunities for special event sponsorship
- Draft TAP agreements, amendments, and term sheets.
- Preparing summaries of Civic Event sponsorship applications for Board consideration.
- Tracking post-event requirements, including payments, promotional collateral, and summary reports
- Coordinating with Executive Leadership, Commissioner Services, and Communications & Community Engagement to facilitate TAP-related speaking opportunities.
- Prepare all TAP event sponsorship presentation materials and summaries.
- Prepare requisitions and process sponsorship funding invoices per agreement terms.
- Update the online sponsorship application website for Civic and Community Event sponsorship – Survey Monkey Apply.
- Provide hands-on support to all stakeholders interested in Port-sponsored events, including member city staff (Civic Events), community stakeholders, port tenants, local non-profits (Community and Civic Events), and professional event organizers.
- Coordinate distribution and reporting of special event tickets.
- Negotiate with special event production professionals
- Managing Expanded Access Event Program – newly created in FY24
 - RFP preparation with Procurement Services for event coordination

Parks & Recreation

- Contract Negotiations
 - Public/Stakeholder Outreach
 - Event Production Company management
 - Event Vision and Attendee Experience Development
 - Day of Oversight
 - Communication and Community Engagement Liaison
 - Senior Leadership and Board Communications
- Coordinating with internal stakeholders – Communications & Community Engagement, Procurement, Harbor Police, Field Operations, Guest Experiences, Government Civic Relations
 - Manage Parks & Recreation Sponsorship Budget

Stakeholder and Community Engagement:

- Liaison with member city Parks & Recreation department staff.
- Liaison and Coordination with community leaders and member city staff for use of sports fields in Barrio Logan – Cesar Chavez Park and Coronado – Tidelands Park
- Liaison and Coordination with the Working Waterfront Group (Port Tenants) for the use of port parks and facilities for special events, car shows, and moving events
- Liaison with Executive Team, Development Services, Harbor Police, Guest Experiences, Field Operations, and Commissioner Services regarding the condition and use of parks to address public feedback
- Liaison with San Diego Symphony

Planning

MISSION

Create and support a well-planned and integrated waterfront through strategic initiatives, policy formation, agency coordination and stakeholder and public engagement.

VISION

Advance a holistically planned waterfront that is welcoming, sustainable, prosperous, and improves the quality of life for present and future generations.

KEY SERVICES PROVIDED / GOALS

- Focus on highly technical and complex planning and environmental issues with goals of advancing key policy formation in the areas of climate sustainability, greenhouse gas reductions, and air quality improvements to ensure compliance with all mandated regulatory requirements (e.g., AB691, AB617, SB32)
- Create and sustain positive relationships with stakeholders and the community at large on environmental and planning issues
- Compliance with California Environmental Quality Act; National Environmental Policy Act; California Coastal Act; Public Trust Doctrine; and, Port District Act
- Preparation and processing of all post-PMPU amendments to the Port Master Plan
- Coordination with local, regional, state and federal agencies on District-wide planning initiatives
- Community outreach and stakeholder collaboration
- Master planning at the Planning district and Sub-district level in a manner that integrates all District tidelands and submerged lands
- Tracking of local, regional, state and federal planning issues.
- Advance mobility efforts to address baywide connectivity with all modes, including pedestrian, bicycle, vehicular, transit, freight and waterside
- Environmental planning and mitigation, including implementation of Maritime Industrial Impact Fund projects
- Practitioner and policy guidance for implementation of large-scale redevelopment projects (e.g., Chula Vista Bayfront Master Plan)
- Review of tenant and District-sponsored project submittals for compliance with BPC Policy No. 752, Guidelines for Conducting Project Consistency Review Related to the Integrated Port Master Plan Update
- CEQA and Coastal Act processing, including Agenda Sheet Environmental Review language, for Port-driven programs (not tenant or Port development/construction projects, unless grant funded)
- Responses to Public Records Act Requests

The Sustainability & Innovation Operations/Administrative Support Team, housed in the Planning department, is responsible for and committed to the following Key Services for all six cost centers in the S & I Branch:

- Managing agreements, contracts, requisitions, task authorizations and invoices; financial oversight and management; Purchasing; Cost recovery; Board Agendas/Memos; Presentations; Outreach; CRM and Records Requests; Travel; Timecards; employee support/development; inspection correspondence

Procurement Services

MISSION

To collaborate with internal stakeholders to create effective business solutions, ensure fair competition for vendors and contractors, and optimize fiscal resources through cost-efficient and streamlined procurement operations.

VISION

Procurement Services will be recognized as a trusted, fully integrated, one-stop resource, staffed by a team that is talented, innovative, ethical, and dedicated to supporting the organization's goals.

KEY SERVICES PROVIDED / GOALS

- Solicitations and Bids: Manage all solicitations, including RFPs, RFQs (quotes and qualifications), RFIs, RFBs for goods and services, as well as Public Works bids for construction projects.
- Contract Management: Draft agreements, amendments, and assignment/assumption agreements.
- Project Labor and Compliance: Administer and coordinate Project Labor Agreements (PLA) and ensure labor compliance, including prevailing wage administration.
- Small Business Enterprise (SBE) Program: Oversee and manage the SBE program.
- P-Card Program: Administer the Procurement Card (P-Card) Program.
- Centralized Vendor Management: Oversee and manage district-wide vendor accounts, including Staples, UPS, FedEx, and Amazon Business.
- Essential Services Contracts: Administer contracts such as the drinking water contract with Sparkletts.
- Policy Oversight: Manage and enforce procurement policies (BPC 110) and surplus property policies (BPC 111).
- Surplus Property Management: Reallocate or dispose of surplus property and manage electronic waste and scrap metal disposal.
- Inventory and Mail Services: Handle inventory distribution, storage, interoffice mail processing, and package delivery across the district.
- Shipping and Fleet Management: Track incoming and outgoing shipments, manage fleet title and registration, and handle shipment discrepancies.
- Financial Reconciliation: Apply credit memos, make financial adjustments, and reconcile shipments with purchase orders.
- Compliance and Task Management: Review requisitions for compliance, process task authorizations, and manage change requests in SAP.
- Training and System Administration: Conduct training on procurement processes and manage systems for vendor and labor compliance (Planet Bids, LCP Tracker).
- Procurement Process: Convert purchase requisitions into purchase orders.

Procurement Services

Real Estate

MISSION

Real Estate manages the District's commercial and maritime industrial lease portfolio from end to end. The department solicits new development, negotiates complex real estate transactions and agreements, partners with prospective and existing tenants during the entitlement process, and manages the District's leased and owned assets.

VISION

To build a best in class commercial and maritime industrial lease portfolio with internationally recognized amenities, attractions, and developments for the promotion of commerce, navigation, fisheries, and recreation.

KEY SERVICES PROVIDED / GOALS

Redevelopment

- Increase awareness of and promote the District's real estate portfolio through marketing and relationship building within the development community.
- Manage solicitation process for District development and redevelopment opportunities.
- Negotiate new and amended leases associated with development projects.
- Manage development and redevelopment projects through the entitlement process.
- Analyze the financial feasibility of development projects.
- Conduct and analyze market studies for development projects.

Asset Management

- Administer and manage commercial and maritime industrial lease portfolio.
- Monitor and enforce tenant lease obligations.
- Conduct rent reviews and process rent adjustments to achieve market rent for District.

Performance & Reporting

- Finance, budget, and administrative team for the Real Estate Department.
- Administer Real Estate's revenue and expense budgets.
- Enter agreements negotiated by Real Estate into the Real Estate module in SAP.
- Facilitate procurement activities for the Real Estate Department.

Real Estate

Safety & Risk Management

MISSION

To build a culture of safety through training, education, policy and process. Supporting a safe environment for our employees at their worksite and our community throughout the tidelands.

VISION

To be a trusted partner with all Port departments to promote, support, and foster safe practices in all aspects of the District's operations.

KEY SERVICES PROVIDED / GOALS

Risk Management

- Management of workers' compensation program
- Purchase and maintenance of District's insurance policies
- Recovery of claim costs
- Project and contract review for safety insurance requirements
- Tracking proof of insurance from District tenants and contractors

Safety

- Establishment of safety policies and procedures
- Tracking Occupational Safety and Health Administration (OSHA) regulations and determining their impact on the District
- Develop and provide effective Safety training utilizing meaningful material and modes of presentation
- Investigations of accidents and injuries

Treasury

MISSION

To manage and safeguard the financial resources of the district with integrity, transparency, and efficiency, ensuring fiscal responsibility and compliance with all regulations, while maximizing the value of public funds to support the district's strategic goals and community needs. Our goal is to maintain liquidity for both operational and capital needs, effectively manage risks and uphold safety practices.

VISION

To be a trusted financial steward, recognized for excellence in cash flow, Investments, debt issuance and debt service management, innovation, and service, contributing to the economic vitality and sustainability of the District.

KEY SERVICES PROVIDED / GOALS

Financial Management

- Cash Management: Optimize cash flow to meet the District's operational needs.

Investment Management

- Investment Strategy: Develop and implement investment policies to maximize returns while ensuring the primary goals of Safety and Liquidity.
- Portfolio Management: Monitor and manage the District's investment portfolio in compliance with state laws and regulations

Debt Management

- Debt Issuance: Plan and execute the issuance of bonds and other debt instruments to finance capital projects.
- Debt Service: Manage the repayment of debt, ensuring timely payments and compliance with covenants.

Risk Management

- Internal Controls: Establish and maintain robust internal controls to safeguard assets and ensure financial integrity.
- Compliance: Ensure adherence to relevant laws, regulations, and policies.

Summary of Changes from Preliminary Budget	21
Ordinance No. No. xxxx – Ordinance Adopting the Annual Budget for Fiscal Year 2026	23

PAGE LEFT INTENTIONALLY BLANK

Glossary of Terms

Accrual Basis of Accounting - under this method, revenues are recorded when earned and expenses are recorded when incurred.

Actual - is earned revenue or incurred expense during the stated fiscal year.

Americans with Disabilities Act (ADA) - prohibits, under certain circumstances, discrimination based on disability.

AMP - Asset Management Program

Appropriation - is an authorization made by the Board of Port Commissioners that permits District departments to make expenditures of governmental resources. All appropriations that have not been expended or lawfully encumbered lapse at the end of the fiscal year. The Board of Port Commissioners may increase or decrease appropriations by majority vote.

Asset - are resources owned or held that have an economic value.

Balanced Budget - is one in which revenues and other sources of funds equal or exceed expenditures and other uses of funds.

Balanced Capital Program - is a program established by BPC Ordinance 2022-0338 that sunsets the Capital Improvement Program and institutes the Balanced Capital Program (BCP) in its place. The intent of the BCP is to distribute the Port's capital investments in a balanced and equitable manner throughout the Tidelands located in all member cities.

Bond - is a written promise to pay a designated amount (called the principal), at a specific date in the future, together with periodic interest at a specified rate. In the budget, these payments are identified as debt service. Bonds are usually used to obtain long-term financing for capital improvements.

Board - Board of Port Commissioners

Board of Port Commissioner (BPC) Policies - San Diego Unified Port District Act requires the Board of Port Commissioners to make and enforce necessary rules and regulations governing the use and control of all navigable waters, tidelands, and submerged lands within the District and to make and enforce certain local police and sanitary regulations relating to the District.

Brown Act - guarantees the public's right to attend and participate in meetings of local legislative bodies.

Budget - is a financial plan for a specified period of time (fiscal year) that matches plan expenses and revenues with planned services.

Budgetary Control - is the control or management of a government in accordance with the approved budget for the purpose of keeping expenditures within the limitations of available appropriations and resources.

Burden - is the benefits and taxes that a company must or chooses to pay on their payroll. These can include, but are not limited to, all of the following: payroll taxes (both federal and state), retirement/pension costs, fringe benefits, health care, life/AD&D insurance, paid time off, worker's compensation costs, long-term disability insurance, and short-term disability insurance.

California Environmental Quality Act (CEQA) - requires state and local agencies within California to follow a protocol of analysis and public disclosure of environmental protection a mandatory part of every California state and local agency's decision-making process.

California Fair Employment and Housing Act (FEHA) - is used to fight sexual harassment and other forms of unlawful discrimination in employment and housing.

Glossary of Terms

California Public Records Act - requires inspection and/or disclosure of governmental records to the public upon request, unless exempted by law.

Caltrans - California Department of Transportation

Capital Expenditure - To be considered a capitalization expenditure, and thus subject to depreciation/amortization, an asset must fulfill three characteristics:

- (i) The asset must be acquired (purchased, constructed, or donated) for use in operations and not for investment or sale.
- (ii) The asset must have a useful life of more than one year.
- (iii) The asset must meet the capitalization threshold which is currently \$5,000 or more as approved by the Board of Port Commissioners (Board).

Capital Improvement Program (CIP) - is the District's five-year fiscal plan detailing the amount and timing of anticipated capital expenditures. It is updated annually with the adoption of the budget.

Capital Labor - is internal labor costs (personnel and overhead) that are directly incurred in the development and construction of capital projects.

CEO - Chief Executive Officer

Coastal Act - addresses issues such as shoreline public access and recreation, lower cost visitor accommodations, terrestrial and marine habitat protection, visual resources, landform alteration, agricultural lands, commercial fisheries, water quality, offshore oil and gas development, transportation, development design, power plants, ports, and public works. The Coastal Commission, in partnership with coastal cities and counties, plans and regulates the use of land and water in the coastal zone.

Competency - A pattern of behavior that represents a set of knowledge, skills and abilities.

Competencies (Port-wide)

- **Listening** - Effective performers display engagement, demonstrate understanding, and are open to what is being communicated.
- **Growth** - Effective performers work on acquiring knowledge and skills, as well as supporting others with their own development goals.
- **Collaboration** - Effective performers promote an environment of teamwork by developing and building relationships across all levels and departments to accomplish individual and team goals.
- **Trustworthiness** - Effective performers act in ways that foster an environment of trust and are relied on as honest and truthful in interactions with other people and in completion of work.
- **Humility** - Effective performers seek opportunities to increase self-awareness and possess an openness that allows them to appreciate the views and contributions of others.

Corporate Vision - 21st Century Port - We are an innovative, global seaport courageously supporting commerce, community, and environment.

Cost Center - is a unit within the District to which costs may be charged for accounting purposes.

CST - Cruise Ship Terminal

Glossary of Terms

Department - is a major administrative unit of the District, which indicates overall management responsibility for an operation or a group of related operations within a functional area, and the organizational level at which the budget is adopted and controlled.

District - San Diego Unified Port District

Economic Recovery Program (ERP) - is a suite of 40 projects to be funded with \$100 million in American Rescue Plan Act (ARPA) funds.

Enterprise Fund - in governmental accounting, a fund that provides goods and services to the public for a fee that makes the entity self-supporting.

Expense - is a charge incurred (whether paid immediately or accrued) for operations, maintenance, interest or other charges.

External Stakeholder - A person or group of people who are impacted or have a strong interest in the operations, or effects of operations performed by an organization's work as it pertains to them as clients/constituents, community partners, and others.

Fiscal Year (FY) - is the annual period beginning July 1st and ending June 30th.

GASB - Government Accounting Standards Board, the body responsible for establishing GAAP for governmental entities.

GDP - Gross Domestic Product

Generally Accepted Accounting Principles (GAAP) - is the conventions, rules, and procedures that serve as the norm for the fair presentation of financial statements.

GFOA - Government Finance Officers Association

GIS - Geographic Information System

Goals - Broad statements of an organization's plan to achieve desired outcomes and be successful among competition at some point in the future. Goals should strive to deliver a company's vision and create a company's differentiation and sustainability and be supported by measurable performance.

Grant - is a contribution by a government or other organization to support a particular function. Grants may be classified as either operational or capital, depending on the grantee.

Guiding Principle - We do the greatest good by doing remarkably well

Initiative - Initiatives are programs or projects that turn strategy into operational terms and actionable items.

Internal Stakeholder - A person or group of people which are already committed to serving the organization and may be impacted or have a strong interest in the operations, or effects of operations within the organization.

Key Services - Standard operations needed to sustain a purpose within the organization.

Glossary of Terms

Key Performance Indicators (KPIs) - A measurable value that demonstrates how effectively a company is achieving a specific strategic or operational goal.

Low Carbon Fuel Standard (LCFS) - The Low Carbon Fuel Standard is designed to decrease the carbon intensity of California's transportation fuel pool and provide an increasing range of low-carbon and renewable alternatives, which reduce petroleum dependency and achieve air quality benefits.

MIIF - Maritime Industrial Impact Fund

MM - Major Maintenance

Milestone - A significant event or date during the execution of a project; end of phase or sub-phase.

Marine Oil Terminal Engineering and Maintenance Standard (MOTEMS) - are the standards that apply to all existing and new marine oil terminals in California, and include criteria for inspection, structural analysis and design, mooring and berthing, geotechnical considerations, fire, piping, and mechanical and electrical systems.

MOU - Memorandum of Understanding

NEVP - North Embarcadero Visionary Plan

NCMT - National City Marine Terminal

NOAA - National Oceanic Atmospheric Administration

Non-Personnel Expense (NPE) - includes costs for materials and supplies, equipment, communications, outsourced services, travel, and other expenses.

Operating Reserves - are unrestricted funds, usually accumulated over several years that are available for appropriation (also see Unreserved Fund Balance).

Other Post-Employment Benefits (OPEB) - that an employee will begin to receive at the start of retirement. This does not include pension benefits paid to the retired employee. Other post-employment benefits that a retiree can be compensated for are life insurance premiums, healthcare premiums, and deferred-compensation arrangements.

Overhead Expense (Overhead) - refers to an expense in the District that cannot be directly associated and charged to a service or project.

Personnel Expense - is the sum of all wages paid to employees, as well as the cost of employee benefits and payroll taxes paid by an employer.

Glossary of Terms

Port Philosophy - Port Leaders are Other Focused First (Servant Leadership).

Portfolio - A group, set or selection of initiatives an organization has agreed to invest in by approving the allocation of necessary resources.

Program - A set of highly related products, services or projects within an organization

Project - A temporary endeavor with a defined start date, end date, scope, and budget: and which consumes cross-functional resources in order to produce a unique product, service or result.

Public Contract Code - requires competitive bidding for the vast majority of public projects.

RCS - Regional Communications System Interoperability

Revenue - sources of income financing the operations of government

RFP - Request for Proposal

RFQ - Request for Qualifications

RSVP - Retired Senior Volunteer Program

SANDAG - San Diego Association of Governments

San Diego Unified Port District Act - provides for the calling of municipal elections therefor; describing the powers, duties, and functions thereof, authorizing the district to borrow money and issue bonds for district purposes; to provide means of raising revenues for the operation, maintenance and bond redemption of the district; and to provide, for the transfer to such district of tidelands and lands lying under inland navigable waters.

SDCRAA - San Diego County Regional Airport Authority

Stakeholder - Any person, group, or organization that may be impacted or has a strong interest in the operations, or effects of operations, of the organization. Stakeholders may be internal or external to the organization.

TAMT - Tenth Avenue Marine Terminal

TWIC - Transportation Worker Identity Card

Tactics - Specific, actionable ways to do things in order to accomplish a milestone, target or result.

Team - is a sub-administrative unit of a department, which has responsibility for an operation or a group of related operations within a functional area.

Values

- **Integrity** - honoring agreements and acting truthfully, honestly and ethically. It is the commitment to our set of shared core values applied equally to all.
- **Accountability** - honoring our agreements with our stakeholders, the community and each other. Accountability is establishing and tracking measurable outcomes and evaluating our progress.
- **Courage** - setting aside fears and standing by personal principles, facing challenges with fortitude, taking intellectual

Glossary of Terms

risks, extending beyond personal comfort zones to achieve goals, persevering in the face of diversity and taking responsibility for actions.

- **Teamwork** - promoting and practicing collective cooperation. Teamwork involves open communication, respect, trust and the commitment to common goals. An effective team shares the workload, credit and consequences of its actions.
- **Inclusiveness** - a sense of belonging and feeling respected. Inclusiveness is being valued for who you are and that you are essential to the success of the organization.
- **Fairness** - behaving in an objective and consistent manner. Fairness is listening to and respecting the opinions, values and interests of others.
- **Fun** - creating an environment where employees can enjoy spontaneity, levity and productivity. Fun is celebrating successes and accomplishments.
- **Innovation** - Innovation is creative thinking and continually improving performance, emphasizing quality, productivity, growth, best practices and measurement. Innovation means striving to be the best in our public service.
- **Transparency** - Transparency is a commitment to our partners, stakeholders and the community to enhance openness, public participation, and access to information, outreach and collaboration. Transparency promotes accountability, increased public trust, and a more efficient, effective and public-focused organization.

BPC Policy List

Below is a list of BPC Policies affecting budget. These policies can be found at www.portofsandiego.org.

BPC Policy No. 080 – Unplanned Work Consideration

BPC Policy No. 090 – Transfer Between or Within Appropriated Items in Budget

BPC Policy No. 106 – Cost Recovery User Fee Policy

BPC Policy No. 114 – Payment of Commissions for the Leasing of Tidelands

BPC Policy No. 115 – Guidelines for Prudent Investments

BPC Policy No. 117 – Operating Reserve Policy

BPC Policy No. 120 – Balanced Capital Program (BCP)

BPC Policy No. 130 – Major Maintenance Program

BPC Policy No. 452 - Permit Fees for Use of the District's Public Parks for Special Events

BPC Policy No. 608 – Tenant Percent for Art Program

BPC Policy No. 609 – Public Art Programs

BPC Policy No. 641 – Travel and Business Expense Reimbursement Policy

BPC Policy No. 642 – Reimbursement for Transportation Expense

BPC Policy No. 730 – Port Environmental Advisory Committee Policy

BPC Policy No. 771 - Tidelands Activation Program

BPC Policy No. 773 – Maritime Industrial Impact Fund (MIIF)

BPC Policy No. 776 – Port Audit Oversight Committee Policy

BPC Policy No. 784 – Low Carbon Fuel Standard Program

Metrics and Trends

Maritime & Operations cargo volumes by segment serves several important purposes:

- **Economic Indicator:** It provides insights into the economic health of a region or country by tracking the volume of goods being imported and exported. Higher cargo volumes often indicate robust trade activity and economic growth
- **Supply Chain Management:** By analyzing cargo volumes by segment (e.g., containerized cargo, dry bulk, liquid bulk), businesses can better understand and manage their supply chains. This helps in forecasting demand, optimizing logistics, and planning inventory
- **Port Performance:** It helps in assessing the performance and capacity of ports. Understanding which segments are growing or declining can guide infrastructure investments and operational improvements

(Expressed in metric tons)

Metrics and Trends

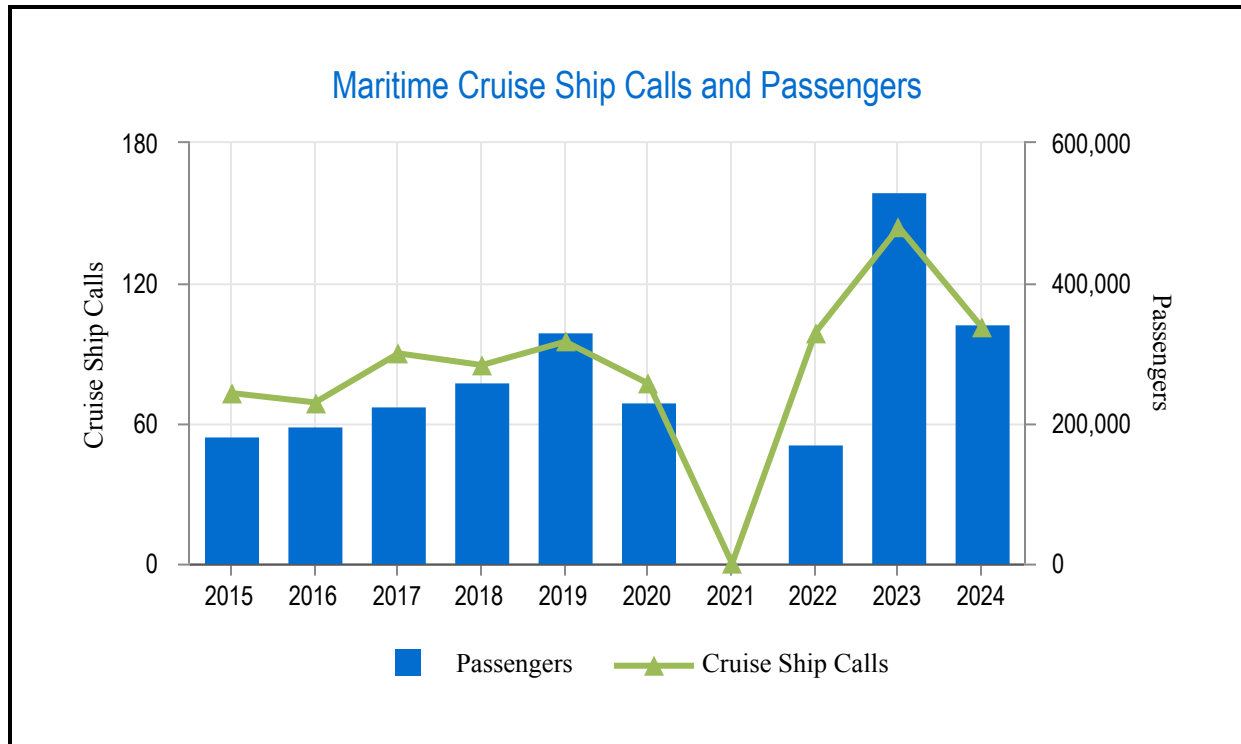

Maritime cruise ship calls and passengers serves several key purposes:

- **Tourism Impact:** It helps gauge the economic impact of cruise tourism on local economies. Higher numbers of cruise calls and passengers often translate to increased spending in port cities on services like dining, shopping, and excursions
- **Port Performance:** This metric is crucial for assessing the performance and capacity of ports. It can indicate how well a port is handling cruise traffic and whether there is a need for infrastructure improvements or expansions
- **Market Trends:** Tracking these numbers helps identify trends in the cruise industry, such as popular destinations and seasonal variations. This information is valuable for cruise operators in planning routes and schedules

Fiscal Year	Cruise Ship Calls	Passengers
2017	90	224,453
2018	85	259,937

³Pier & Floats was transferred to Maritime department in FY 2022

Metrics and Trends

The **District headcount** serves several important purposes:

- **Workforce Planning:** It provides a clear picture of the total number of employees, helping organizations plan for growth, redistribution of labor, and hiring needs. This ensures optimal staffing levels and efficient resource allocation
- **Performance Analysis:** By tracking headcount, the District can analyze productivity, employee engagement, and efficiency across different departments. This helps in identifying areas for improvement and making informed decisions
- **Financial Planning:** Headcount metrics are crucial for budgeting and financial forecasting. They help in understanding labor costs and planning for future expenses related to salaries, benefits, and other employee-related costs
- **Strategic Decision-Making:** This metric aids in strategic planning by providing insights into workforce composition, turnover rates, and retention. It helps in aligning human resources with business goals and ensuring sustainable growth

This chart reflects the number of regular full-time employees at June 30th of each fiscal year.

Metrics and Trends

The **Senior Debt Coverage Ratio** serves several important purposes:

- **Assessing Financial Health:** It measures a company's ability to cover its senior debt obligations with its operating income. A higher ratio indicates that the company generates sufficient income to meet its debt payments, reflecting strong financial health
- **Creditworthiness Evaluation:** Lenders use this ratio to evaluate the risk associated with lending to a company. A higher senior debt coverage ratio suggests lower risk, making the company more attractive to lenders
- **Investment Decisions:** Investors rely on this metric to assess the financial stability of a company. A strong ratio indicates that the company is less likely to default on its debt, making it a safer investment
- **Strategic Planning:** Companies use this ratio to inform strategic decisions, such as expansion plans or new investments. It helps in understanding the capacity to take on additional debt without compromising financial stability

Summary of Changes from Preliminary Budget

At the April 24, 2025, Budget Workshop, staff presented a draft FY 2026 Preliminary Budget and received direction from the Board; and on May 6, 2025, staff presented an updated Preliminary Budget to the Board with a \$647,600 budget surplus.

On May 6, 2025, the Board voted to accept staff's recommendation to adopt the FY 2026 Preliminary Budget with a surplus of \$647,600. On May 13, 2025, a new organizational structure was implemented to enhance operational efficiency and streamline internal processes. This restructuring led to a reduction of \$975,900 in Personnel Expenses, achieved through the reclassification and elimination of certain roles, the consolidation of departments, and the realignment of reporting structures within the branches (formerly known as divisions). Additionally, Non-Personnel Expenses rose by \$414,600 due to an increase in the Chula Vista Bayfront Real Estate Revenue payment, which will be covered by the Safe Harbor Sale. The budget for the Shore Power at Fish Harbor and Chesapeake Wharf project also increased by \$260,000, rising from \$670,000 to \$930,000, to be funded by the Low Carbon Fuel Standard (LCFS) fund. As a result of these adjustments, the surplus increased by \$975,900, changing from \$647,600 to \$1,623,500.

The following Appropriation and Budget in Brief Summary tables highlight the changes made from the FY 2026 Preliminary Budget:

<u>Appropriation Table</u>	Preliminary Budget May 6, 2025	Changes	Final Budget June 6, 2025
<u>Ordinary Annual Expense</u>			
Personnel Expense (Net of Capitalized Labor)	\$ 131,137,400	\$ (975,900)	\$ 130,161,500
Non-Personnel Expenses (includes NPE, MSA, and Non-Operating NPE)	114,507,100	414,600	114,921,700
Economic Recovery Program (ERP) Expense	1,509,300	—	1,509,300
Expense Major Maintenance	880,000	—	880,000
Total Ordinary Annual Expense	\$ 248,033,800	\$ (561,300)	\$ 247,472,500
<u>Capital and Debt Requirements</u>			
Balanced Capital Program (BCP)	\$ 6,397,200	\$ —	\$ 6,397,200
Technology Capital Projects	15,647,300	—	15,647,300
Capital Major Maintenance	19,649,000	—	19,649,000
Equipment Outlay and Other Capital Projects	102,201,900	260,000	102,461,900
Economic Recovery Program (ERP) Capital	20,690,400	—	20,690,400
Debt Service (Principal)	5,392,600	—	5,392,600
Total Capital and Debt Requirements	\$ 169,978,400	\$ 260,000	\$ 170,238,400
Total Requirements	\$ 418,012,200	\$ (301,300)	\$ 417,710,900
