Project Title: Envision: Solar Powered Electric Vehicle Charging Station
Project Location – Specific: District Tidelands – 3165 Pacific Highway 92101
Project location – City: San Diego
Project Location – County: San Diego

Description of Nature, Purpose, and Beneficiaries of Project: The project involves the placement of one demonstrative solar powered electric vehicle (EV) charging station from December 4, 2017 to December 8, 2017 at the northern end of the San Diego Unified Port District (District) Administration Building’s public parking lot, located at 3165 Pacific Highway in the city of San Diego. The EV charging station would be provided to the District by Envision, the solar developer, at no cost. Upon completion of the demonstration period, it is anticipated the District would purchase an EV charging station in December 2017, and deploy the District owned EV charging station at the Administrative Building’s public parking lot in January 2018.

The EV charging station would be approximately 14.5 feet tall and would be placed within a 135-square-foot standard vehicle parking space to provide charging capabilities to the space where the station is located, and therefore would result in no net loss of parking. The EV charging station would require approximately one truck trip per day for the delivery of the charging station, and would take approximately one day to assemble. Additionally, the EV charging station is completely solar operated, and would not require electrical hookups or trenching. The EV charging station is also portable and may be relocated to other District facilities throughout tidelands.

From January 2018 to June 2018, the technology, solar production, charging capacity, actual usage, and public perception of the EV charging station would be evaluated. After the first six months, the District would evaluate the need to purchase additional EV charging stations. Prior to the purchase of additional EV charging stations and placement on District tidelands, additional environmental review would need to be completed. Due to its nature and limited scope, construction of the project would generate a minor amount of vehicle trips and would require limited use of installation equipment. Therefore, no impacts would occur. Finally, the applicant would be responsible for complying with all applicable federal, state, and local laws regarding construction demolition debris, noise, hazards and hazardous materials, and stormwater.

Name of Public Agency Approving Project: San Diego Unified Port District (SDUPD)

Name of Person or Agency Carrying Out Project: Rachael Stern, Planning and Green Port, San Diego Unified Port District, 3165 Pacific Highway, San Diego, CA 92101, (619) 686-7239

Exempt Status: (Check one):
□ Ministerial (Sec. 21080(b)(1); 15268);
□ Declared Emergency (Sec. 21080(b)(3); 15269(a));
□ Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
■ Categorical Exemption:
□ Statutory Exemption. State code number:

Reason why project is exempt: The project is determined to be Categorically Exempt pursuant to California Environmental Quality Act (CEQA) Guidelines Sections 15301 (Existing Facilities), 15303 (New Construction or Conversion of Small Structures), 15306 (Information Collection), and/or 15311

(Accessory Structures), and Sections 3.a.(7), 3.c.(2), 3.c, 3.f, and/or 3.i of the District's Guidelines for Compliance with CEQA because the project involves the installation of an EV charging station at a District facility. Sections 3.a.(7), 3.c.(2), 3.c, 3.f, and 3.i of the District's CEQA Guidelines are as follows:

3.a. Existing Facilities (SG § 15301) (Class 1): Includes operation, repair, maintenance, or minor alteration of existing public and private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that previously existing, including but not limited to:

(7) Existing facilities used to provide electric power, natural gas, sewerage, or other public utility service.

AND/OR

3.c. New Construction or Conversion of Small Structures (SG § 15303) (Class 3): Includes construction of limited numbers of new, small facilities or structures; installation of small new equipment and facilities in small structures; and conversion of existing small structures from one use to another with minor modifications to the exterior of the structure. Examples of this exemption include:

(2) Accessory (appurtenant) structures and mechanical equipment including, but not limited to, garages, sheds, railway spur tracks, pilings, temporary trailers, industrial equipment enclosures, fences, parking, on-site roadways, walkways and health and safety devices.

AND/OR

3.f. Information Collection (SG § 15306) (Class 6): Includes basic data collection, research, experimental management, and resource evaluation activities which do not result in a serious or major disturbance to an environmental resource. These may be for information gathering purposes, or as part of a study leading to an action which has not yet been approved, adopted, or funded.

AND/OR

3.i Accessory Structures (SG § 15311) (Class 11): Includes construction, or placement of minor structures accessory to (appurtenant to) existing facilities.
