NOTICE OF APPROVAL**

Project: HVAC System Replacement and Maintenance by the Port of San Diego at the Harbor Police Administration Building
Location: 3380 N. Harbor Drive, San Diego, CA 92101
Parcel No.: 007-028
Project No.: 2018-206
Applicant: Noemi Aquino, Engineering-Construction, San Diego Unified Port District, 3165 Pacific Highway, San Diego, CA 92101
Date Approved: December 6, 2018

PROJECT DESCRIPTION

The proposed project would involve the replacement of the existing HVAC system that serves the Harbor Police Administration Building by the San Diego Unified Port District (Applicant) in the city of San Diego, California. Work to specifically complete the proposed project would involve demolition and proper disposal of an approximately 15-foot section of a 16-inch spiral duct and 2 feet by 3 feet of rectangular duct leading to underground chase; roof cut out access to ducting; supply and install 75 feet by 18-inch diameter spiral duct including internal line ductwork with thermal insulation; reroute new spiral duct above the thru room and across the roof to the point of connection to existing supply duct; supply and install framing and duct support; seal all exposed ductwork and roof-in penetrations at two locations; and testing and commissioning of the new supply duct. Construction of the proposed project is anticipated to occur in early 2019 and would take approximately one month to complete with ongoing maintenance as required.

Due to its nature and limited scope, construction of the proposed project would generate a minor amount of vehicle trips and would require limited use of equipment. Therefore, impacts related to air quality, greenhouse gas emissions, and transportation and traffic are not anticipated to occur. Furthermore, the Applicant would be responsible for complying with all applicable federal, state, and local laws regarding construction demolition debris, hazards and hazardous materials, and stormwater.

The following categorical determinations are based on the project submittal and all project information known to the District as of the date of this determination.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA)

CATEGORICAL DETERMINATION

Categorical Exemptions: SG §15301, Class 1/Section 3.a: Existing Facilities ; and SG §15302, Class 2/Section 3.b: Replacement or Reconstruction

3.a. Existing Facilities (SG § 15301) (Class 1): Includes operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that previously existing, including but not limited to:

(3) Interior and exterior remodeling or alterations, involving negligible or no expansion of use beyond that previously existing, including, but not limited to, marine terminal facilities, and marine-oriented commercial, industrial, and public and commercial recreational facilities, including buildings, piers, wharves, marine ways; railroads; airport facilities, runways, taxiways, aprons, and ancillary structures to those facilities; or mechanical systems and equipment.

(9) Restoration or rehabilitation of deteriorated or damaged structures, facilities or mechanical equipment to meet current standards of public health and safety or permit

requirements, unless it is determined that the damage was substantial and resulted from an environmental hazard such as earthquake, landslide, or flood.

AND/OR

3.b. Replacement or Reconstruction (SG § 15302) (Class 2): Includes replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site and will have substantially the same purpose and capacity as the structure being replaced. This exemption includes, but is not limited to:

- (2) Replacement or reconstruction of marine terminal facilities, and marine-oriented commercial, industrial, and public and commercial recreational facilities, including buildings, piers, piles, wharves, marine ways; railroads; airport facilities, runways, taxiways, aprons, and ancillary structures to those facilities; electrical and mechanical systems and equipment; where the new structure will be on essentially the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced.

The proposed project is determined to be Categorical Exempt pursuant to the CEQA Guidelines and the Sections of the District's *Guidelines for Compliance with CEQA* as identified above. These are appropriate for the proposed project because the project involves the replacement and maintenance of an HVAC supply duct that would involve no expansion of use beyond that previously existing and would not result in a significant cumulative impact due to the continuation of the existing use; and it would consist of the replacement of existing equipment; would be located on the same site as the equipment being replaced, and would have substantially the same purpose and capacity. The District has determined none of the six exceptions to the use of a categorical exemption apply to this project (CEQA Guidelines Section 15300.2).

Pursuant to CEQA Guidelines Section 15062, a 35-day statute of limitations for this CEQA exemption shall apply from the date a Notice of Exemption is posted with the San Diego County Clerk, or a 180-day statute of limitations for this CEQA exemption shall apply if no Notice of Exemption is filed.

CALIFORNIA COASTAL ACT

PORT MASTER PLAN CONSISTENCY

Planning District: 2 - Harbor Island/Lindbergh Field (Precise Plan Figure 9)

Land Use Designation: Industrial Business Park

The proposed project conforms to the certified Port Master Plan because it would involve the replacement and maintenance of an HVAC duct supply consistent with the existing certified Land use designation. The proposed project would not change the use of the site nor would it interrupt or expand the existing conforming uses of the site.

CATEGORICAL DETERMINATION

Categorical Exclusions: Section 8.a: Existing Facilities; and Section 8.b: Replacement or Reconstruction

8.a. Existing Facilities: The operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that previously existing, including but not limited to:

- (1) Interior or exterior alterations involving such things as partitions, plumbing, and electrical conveyances.

AND/OR

8.b. Replacement or Reconstruction: Replacement or reconstruction of existing structures and facilities where the new structure will be located essentially on the same site as the structure

replaced and will have substantially the same purpose and capacity as the structure replaced, including but not limited to:

- (2) Replacement or reconstruction of existing utility systems and/or facilities involving negligible or no expansion of capacity.

The proposed project is determined to be Categorically Excluded pursuant to the Sections of the District's *Coastal Development Permit Regulations* identified above. These are appropriate for the proposed project because it would involve negligible or no expansion of use beyond that previously existing, and would be located essentially on the same site and would have substantially the same purpose and capacity as the equipment being replaced.

Pursuant to California Coastal Act Section 30717, there is a 10-working-day period to appeal this "Coastal Act Categorical Determination of Exclusion" to the California Coastal Commission.

CALIFORNIA PUBLIC TRUST DOCTRINE

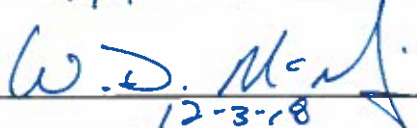

The proposed project complies with Section 87.(a)(5) of the Port Act, which allows for the construction, reconstruction, repair, maintenance, and operation of public buildings, public assembly and meeting places, convention centers, parks, playgrounds, bathhouses and bathing facilities, recreation and fishing piers, public recreation facilities, including, but not limited to, public golf courses, and for all works, buildings, facilities, utilities, structures, and appliances incidental, necessary, or convenient for the promotion and accommodation of any of those uses. The Port Act was enacted by the California Legislature and is consistent with the Public Trust Doctrine. Consequently, the proposed project is consistent with the Public Trust Doctrine.
