NOTICE OF APPROVAL

Project: Exterior Paging System by San Diego Convention Center at Centre City Embarcadero
Location: 111 West Harbor Drive, San Diego, CA 92109
Parcel No.: 019-005 and 019-017
Project No.: 2020-032
Applicant: Marc LaHay, Director of Building Operations, San Diego Convention Center Corporation, 111 West Harbor Drive, San Diego, CA 92101
Date Approved: March 24, 2020

PROJECT DESCRIPTION

The proposed project would involve installation of an exterior paging system by the Syska Hennessy Group on behalf of the San Diego Convention Center (Applicant) in the City of San Diego, California. Work to specifically complete the proposed project would involve installation of a maximum of thirty-two (32) speakers along the northern exterior walls of the San Diego Convention Center to improve announcements in areas of high pedestrian traffic. Three (3) specifications options for the speakers are proposed. However, the maximum dimensions of individual speakers would be eleven (11) inches (in.) tall by thirteen (13) in. wide by 13.5 in. deep. Additional improvements include installation of two (2) dedicated power circuits and amplifiers in wall-mounted cabinets, connections of new speakers to existing fiber optic infrastructure, new low-voltage speaker cabling, and conduit. All improvements would be integrated into existing structures and improvements. Construction of the proposed improvements is proposed to occur in Summer 2020 and would take approximately three months to complete.

Due to its nature and limited scope, construction of the proposed project would generate a minor amount of vehicle trips and would require limited use of equipment. Therefore, significant impacts related to air quality, greenhouse gas emissions, and transportation and traffic are not anticipated to occur. Furthermore, the Applicant would be responsible for complying with all applicable federal, state, and local laws regarding construction demolition debris, hazards and hazardous materials, and stormwater.

The following categorical determinations are based on the project submittal and all project information known to the District as of the date of this determination.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA)

CATEGORICAL DETERMINATION

Categorical Exemptions: SG §15301, Class 1/Section 3.a: Existing Facilities; and SG §15303, Class 3/Section 3.c: New Construction or Conversion of Small Structures

3.a. Existing Facilities (SG § 15301) (Class 1): Includes operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that previously existing, including but not limited to:

(3) Interior and exterior remodeling or alterations, involving negligible or no expansion of use beyond that previously existing, including, but not limited to, marine terminal facilities, and marine-oriented commercial, industrial, and public and commercial recreational facilities, including buildings, piers, wharves, marine ways; railroads; airport facilities, runways, taxiways, aprons, and ancillary structures to those facilities; or mechanical systems and equipment.

AND/OR

3.c. New Construction or Conversion of Small Structures (SG § 15303) (Class 3): Includes construction of limited numbers of new, small facilities or structures; installation of small new equipment and facilities in small structures; and conversion of existing small structures from one use to another with minor modifications to the exterior of the structure.
The proposed project is determined to be Categorically Exempt pursuant to the CEQA Guidelines and the Sections of the District’s Guidelines for Compliance with CEQA as identified above. These are appropriate for the proposed project because it would involve installation of an exterior paging system and associated equipment and would involve no expansion of use beyond that previously existing, would not result in a significant cumulative impact due to the continuation of the existing use, and would consist of installation of small new equipment. The District has determined none of the six exceptions to the use of a categorical exemption apply to this project (CEQA Guidelines Section 15300.2).

Pursuant to CEQA Guidelines Section 15062, a 35-day statute of limitations for this CEQA exemption shall apply from the date a Notice of Exemption is posted with the San Diego County Clerk, or a 180-day statute of limitations for this CEQA exemption shall apply if no Notice of Exemption is filed.

CALIFORNIA COASTAL ACT
PORT MASTER PLAN CONSISTENCY

Planning District: 3 - Centre City Embarcadero (Precise Plan Figure 11)

Land Use Designation: Commercial Recreation

The proposed project conforms to the certified Port Master Plan because it would involve installation of an exterior paging system and associated equipment, consistent with the existing certified Land use designation. The proposed project would not change the use of the site nor would it interrupt or expand the existing conforming use of the site.

CATEGORICAL DETERMINATION

Categorical Exclusions: Section 8.a: Existing Facilities; and Section 8.c: New Construction or Conversion of Small Structures

8.a. Existing Facilities: The operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that previously existing.

AND/OR

8.c. New Construction or Conversion of Small Structures: Construction and location of limited numbers of new, small facilities or structures and installation of small, new equipment and facilities, involving negligible or no change of existing use of the property.

The proposed project is determined to be Categorically Excluded pursuant to the Sections of the District’s Coastal Development Permit Regulations as identified above. These are appropriate for the proposed project because it consists of installation of an exterior paging system and associated equipment, would involve no expansion of use beyond that previously existing, and would involve no change of existing use of the property.

Pursuant to California Coastal Act Section 30717, there is a 10-working-day period to appeal this “Coastal Act Categorical Determination of Exclusion” to the California Coastal Commission.
CALIFORNIA PUBLIC TRUST DOCTRINE

The proposed project complies with Section 87.(a)(5) of the Port Act, which allows for the construction, reconstruction, repair, maintenance, and operation of public buildings, public assembly and meeting places, convention centers, parks, playgrounds, bathhouses and bathing facilities, recreation and fishing piers, public recreation facilities, including, but not limited to, public golf courses, and for all works, buildings, facilities, utilities, structures, and appliances incidental, necessary, or convenient for the promotion and accommodation of any of those uses. The Port Act was enacted by the California Legislature and is consistent with the Public Trust Doctrine. Consequently, the proposed project is consistent with the Public Trust Doctrine.
