

**CEQA and COASTAL DETERMINATIONS  
and  
NOTICE OF APPROVAL**

**Project:** Tideland Use and Occupancy Permit to Fabrication Technologies Industries for Storage Lot at National City Bayfront  
**Location:** Tidelands Avenue and 19<sup>th</sup> Street in National City, CA 91950  
**Parcel No.:** 026-036  
**Project No.:** 2020-094  
**Applicant:** Debbi Houshar, Fabrication Technologies Industries, 2200 Haffley Avenue, National City, CA 91950  
**Date Approved:** August 31, 2020

**PROJECT DESCRIPTION**

The proposed project is the renewal of a Tideland Use and Occupancy Permit (TUOP) to Fabrication Technologies Industries (Tenant) for their use of approximately 34,613 square feet of land area located in the City of National City, California. The area proposed for use under this TUOP is currently and is proposed to be used only and exclusively for the purpose of light manufacturing, storage of marine equipment to include machinery, transportation equipment, cranes and steel, and for no other purpose whatsoever without the prior written consent of the Executive Director of District in each instance. The Tenant would be responsible for compliance with all laws and regulations associated with the activities on or in connection with the above-described premises, and in all uses thereof, including those regulating stormwater and hazardous materials. No new development, construction, or increase in the size of the property is proposed or authorized as part of the TUOP.

It is anticipated that the TUOP would have a total term of approximately five (5) years. The TUOP may be terminated by the District or Tenant as a matter of right and without cause at any time upon providing thirty (30) days' notice in writing to the other party of such termination.

The following categorical determinations are based on the project submittal and all project information known to the District as of the date of this determination.

---

**CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA)**

***CATEGORICAL DETERMINATION***

Categorical Exemption: SG §15301, Class 1/Section 3.a: Existing Facilities

3.a. Existing Facilities (SG § 15301) (Class 1): Includes operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that previously existing, including but not limited to:

- (4) New and renewed short-term tenancy agreements which do not result in change in the existing use. This exemption does not apply to any new development associated with the activities of the tenant. This exception is also inapplicable if the cumulative impact of continuing the existing use or conditions in the same place, over time, is significant.

The proposed project is determined to be Categorically Exempt pursuant to the CEQA Guidelines and the Section of the District's *Guidelines for Compliance with CEQA* as identified above. This is appropriate for the proposed project because it consists of a renewal of a TUOP for one (1) lot to be used for the continued purpose of light manufacturing, storage of marine equipment to include machinery, transportation equipment, cranes and steel that would involve no expansion of use beyond that previously existing. The District has determined none of the six exceptions to the use of a categorical exemption apply to this project (CEQA Guidelines Section 15300.2).

Pursuant to CEQA Guidelines Section 15062, a 35-day statute of limitations for this CEQA exemption shall apply from the date a Notice of Exemption is posted with the San Diego County Clerk, or a 180-day statute of limitations for this CEQA exemption shall apply if no Notice of Exemption is filed.

**CALIFORNIA COASTAL ACT**

*PORT MASTER PLAN CONSISTENCY*

Planning District: 5 - National City Bayfront (Precise Plan Figure 15)

Land Use Designation: Marine Related Industrial

The proposed project conforms to the certified Port Master Plan because it would involve renewal of a TUOP for one (1) lot to be used for the continued purpose of light manufacturing, storage of marine equipment to include machinery, transportation equipment, cranes and steel, consistent with the existing certified Land use designation. The proposed project would not change the use of the site nor would it interrupt or expand the existing conforming use of the site.

*CATEGORICAL DETERMINATION*

The proposed project would renew an existing real estate agreement through issuance of a TUOP. The proposed project does not allow for "development" as defined in Section 30106 of the California Coastal Act, or "new development" pursuant to Section 1.a. of the District's Coastal Development Permit Regulations. Therefore, issuance of a Coastal Development Permit or categorical exclusion is not required.

**CALIFORNIA PUBLIC TRUST DOCTRINE**

The proposed project complies with Section 87.(a)(1) of the Port Act, which allows for the establishment, improvement, and conduct of a harbor, and for the construction, reconstruction, repair, maintenance, and operation of wharves, docks, piers, slips, quays, and all other works, buildings, facilities, utilities, structures, and appliances incidental, necessary, or convenient, for the promotion and accommodation of commerce and navigation. The Port Act was enacted by the California Legislature and is consistent with the Public Trust Doctrine. Consequently, the proposed project is consistent with the Public Trust Doctrine.
