Project: Evaporative Condenser Replacement by Harvest Meat Company at National City Marine Terminal
Location: 1022 Bay Marina Drive, Suite 106, National City, CA 91950
Parcel No.: 027-051 and 027-049
Project No.: 2020-122
Applicant: Jesus Lopez, Director of Operations, Harvest Meat Company, 1022 Bay Marina Drive, Suite 106, National City, CA 91950
Date Approved: Feb 1, 2021

PROJECT DESCRIPTION

The proposed project would involve replacement of an existing evaporative condenser (EC) by Harvest Meat Company (Tenant) in the City of National City, California. Work to specifically complete the proposed project would involve use of a crane to remove the existing EC from the Tenant building rooftop and to lift the new EC into place. The new EC would be approximately 20,710 pounds, approximately 5,569 pounds lighter than the previous EC and would be connected to existing utility connections and anchored to an existing equipment platform approximately six (6)-inches above the finished surface of the roof. Construction of the project is anticipated to commence in Winter 2021 and would take approximately one (1) week to complete.

Due to its nature and limited scope, construction of the proposed project would generate a minor amount of vehicle trips and would require limited use of equipment. Therefore, significant impacts related to air quality, greenhouse gas emissions, and transportation and traffic are not anticipated to occur. Furthermore, the Tenant would be responsible for complying with all applicable federal, state, and local laws regarding construction demolition debris, hazards and hazardous materials, and stormwater.

The following categorical determinations are based on the project submittal and all project information known to the District as of the date of this determination.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA)

CATEGORICAL DETERMINATION

Categorical Exemption: SG §15301, Class 1/Section 3.a: Existing Facilities; SG §15302, Class 2/Section 3.b: Replacement or Reconstruction; and SG §15311, Class 11/Section 3.i: Accessory Structures

3.a. Existing Facilities (SG § 15301) (Class 1): Includes operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that previously existing, including but not limited to:

- (7) Existing facilities used to provide electric power, natural gas, sewerage, or other public utility service.

AND/OR

3.b. Replacement or Reconstruction (SG § 15302) (Class 2): Includes replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site and will have substantially the same purpose and capacity as the structure being replaced.

AND/OR

3.i. Accessory Structures (SG § 15311) (Class 11): Includes construction, or placement of minor structures accessory to (appurtenant to) existing facilities, including:

- (2) Construction or placement of minor structures or equipment accessory to (appurtenant to) existing airport or marine terminal facilities.

The proposed project is determined to be Categorical Exempt pursuant to the CEQA Guidelines and the Sections of the District's *Guidelines for Compliance with CEQA* as identified above. These are appropriate for the proposed project because it consists of replacement of an existing evaporative condenser to support business operations and would involve no expansion of use beyond that previously existing, would consist of the replacement of an existing facility, would be located on the same site as the structure replaced, and would have substantially the same purpose and capacity. The District has determined none of the six exceptions to the use of a categorical exemption apply to this project (CEQA Guidelines Section 15300.2).

Pursuant to CEQA Guidelines Section 15062, a 35-day statute of limitations for this CEQA exemption shall apply from the date a Notice of Exemption is posted with the San Diego County Clerk, or a 180-day statute of limitations for this CEQA exemption shall apply if no Notice of Exemption is filed.

CALIFORNIA COASTAL ACT

PORT MASTER PLAN CONSISTENCY

Planning District: 5 - National City Bayfront (Precise Plan Figure 15)

Land Use Designation: Marine Related Industrial

The proposed project conforms to the certified Port Master Plan because it replacement of an existing evaporative condenser to support business operations, consistent with the existing certified Land use designation. The proposed project would not change the use of the site nor would it interrupt or expand the existing conforming use of the site.

CATEGORICAL DETERMINATION

Categorical Exclusions: Section 8.a: Existing Facilities; and Section 8.b: Replacement or Reconstruction

8.a. Existing Facilities: The operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that previously existing, including but not limited to:

- (2) Public and private utilities used to provide electric power, natural gas, sewer, or other utility services

AND/OR

8.b. Replacement or Reconstruction: Replacement or reconstruction of existing structures and facilities where the new structure will be located essentially on the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced.

The proposed project is determined to be Categorical Excluded pursuant to the Sections of the District's *Coastal Development Permit Regulations* as identified above. These are appropriate for the proposed project because it consists of replacement of an existing evaporative condenser to support business operations, would involve no expansion of use beyond that previously existing, would be located essentially on the same site as the structure replaced, and will have substantially the same purpose and capacity as the structure replaced.

Pursuant to California Coastal Act Section 30717, there is a 10-working-day period to appeal this "Coastal Act Categorical Determination of Exclusion" to the California Coastal Commission.

CALIFORNIA PUBLIC TRUST DOCTRINE

The proposed project complies with Section 87.(a)(1) of the Port Act, which allows for the establishment, improvement, and conduct of a harbor, and for the construction, reconstruction, repair, maintenance, and operation of wharves, docks, piers, slips, quays, and all other works, buildings, facilities, utilities, structures, and appliances incidental, necessary, or convenient, for the promotion and accommodation of commerce and navigation. The Port Act was enacted by the California Legislature and is consistent with the Public Trust Doctrine. Consequently, the proposed project is consistent with the Public Trust Doctrine.
