Project Title: *Right of Entry License Agreement to AT&T for Fiber Splicing at Harbor Island*

Project Location – Specific: 1450 Harbor Island Drive, San Diego, CA 92101

Project location – City: San Diego

Project Location – County: San Diego

Description of Nature, Purpose, and Beneficiaries of Project: *The proposed project is a Right of Entry (ROE) to AT&T (Applicant/Permittee) to enter certain properties located in the City of San Diego, California. The areas proposed for use under this ROE would be used by the Permittee and their authorized agent(s) and contractor(s) for the purpose of accessing two (2) manholes to splice fiber cable at the sidewalk along Harbor Island Drive, as well as ingress and egress in support of those activities. No trenching would be required and construction of the proposed project is anticipated to occur at the start of 2021.*

It is anticipated that the ROE would have a total term of approximately six (6) months or upon completion of the work, whichever occurs earlier. The ROE may be terminated by the District as a matter of right and without cause at any time upon providing twenty-four (24) hours' notice in writing to the Permittee of such termination.

Due to its nature and limited scope, construction of the proposed project would generate a minor amount of vehicle trips and would require limited use of equipment. Therefore, significant impacts related to air quality, greenhouse gas emissions, and transportation and traffic are not anticipated to occur. Furthermore, the Applicant would be responsible for complying with all applicable federal, state, and local laws regarding construction demolition debris, hazards and hazardous materials, and stormwater.

Name of Public Agency Approving Project: San Diego Unified Port District (SDUPD)

Name of Person or Agency Carrying Out Project: Keith Denhart, AT&T Design Engineer, 7337 Trade Street, Room 5686, San Diego, CA 92121-2423; (858) 790-3826

Exempt Status: (Check one):
☐ Ministerial (Sec. 21080(b)(1); 15268);
☐ Declared Emergency (Sec. 21080(b)(3); 15269(a));
☐ Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
☒ **Categorical Exemptions: Existing Facilities (SG § 15301) (Class 1)**
☐ Statutory Exemption. State code number:

Reason Why Project is Exempt: *The proposed project is determined to be Categorically Exempt pursuant to California Environmental Quality Act (CEQA) Guidelines Section 15301 (Existing Facilities) and Sections 3.a. of the District's Guidelines for Compliance with CEQA because it consists of a ROE for manhole access to splice existing fiber cables, would involve no expansion of use beyond that previously existing, and would not result in a significant cumulative impact due to the continuation of the existing use. Section 3.a. of the District's CEQA Guidelines is as follows:*

- 3.a. **Existing Facilities (SG § 15301) (Class 1):** *Includes operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that previously existing.*

(7) Existing facilities used to provide electric power, natural gas, sewerage, or other public utility service.
