Project Title: License Agreement for Operation of District Fuel Facilities by Jankovich Company at Tenth Avenue Marine Terminal

Project Location – Specific: 961 East Harbor Drive, San Diego, CA 92101

Project location – City: San Diego

Project Location – County: San Diego

Description of Nature, Purpose, and Beneficiaries of Project: *The proposed project includes a License Agreement to the Jankovich Company, LLC (Licensee) to enter certain properties located in the City of San Diego, California. The area proposed for use under this License Agreement would be used by the Licensee and their authorized agent(s) and contractor(s) for the continued operation of the San Diego Unified Port District's (District) petroleum bunkering facilities consisting of five (5) petroleum storage tanks having a working capacity of 215,466 barrels; receiving and delivery pipelines, including valves pumps, loading rack, heating equipment and receiving and delivery hose connection manifolds; safety and control equipment including remote pump controllers, and fixed firefighting equipment and office building space, within approximately 136,180 square feet of land area, as well as ingress and egress in support of those activities. No new development, construction, or increase in the size of the area is proposed or authorized as part of the License Agreement.*

In addition, Licensee will use the facilities, as described above, to receive, store and deliver bunker and other fuels to commercial passenger and cargo-carrying, ocean-going vessels, tugs, fishing vessels, and other customers as may be approved by District; and that the Licensee sublicense a portion of the property for purposes of: (1) receiving turbine fuel by common carrier pipeline or ocean-going vessel, (2) storing and delivering turbine fuel to San Diego International Airport (hereinafter "Airport") by pipeline or truck, (3) installing or modifying the filters, pumps, piping, equipment, and appurtenances necessary for the functioning of its facilities. The uses described above are reflective of existing operations.

It is anticipated that the License Agreement would have a total term of approximately five (5) years. The License Agreement may be terminated by the District as a matter of right and without cause at any time upon providing one hundred twenty (120) days' notice in writing to the Licensee of such termination.

Reason Why Project is Exempt: *The proposed project is determined to be Categorically Exempt pursuant to California Environmental Quality Act (CEQA) Guidelines Section 15301 (Existing Facilities) and Section 3.a. of the District's Guidelines for Compliance with CEQA because it consists of renewal of an existing tenancy agreement*

for operation and management of petroleum storage tanks, receiving and delivery pipelines, safety and control equipment, and fixed firefighting equipment and office building space, would involve no expansion of use beyond that previously existing, and would not result in a significant cumulative impact due to the continuation of the existing use. The District has determined none of the six exceptions to the use of a categorical exemption apply to this project (CEQA Guidelines Section 15300.2). Section 3.a. of the District's CEQA Guidelines is as follows:

3.a. Existing Facilities (SG § 15301) (Class 1): Includes operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that previously existing.

(4) New and renewed short-term tenancy agreements which do not result in change in the existing use. This exemption does not apply to any new development associated with the activities of the tenant. This exception is also inapplicable if the cumulative impact of continuing the existing use or conditions in the same place, over time, is significant.
