**PROJECT DESCRIPTION**

The proposed project is the Blended Festival, a two (2) day wine, music, and culinary festival, which would take place at Spanish Landing Park East in the city of San Diego, California. The event and related set-up and breakdown would have an approximate duration of five (5) days (two days for set-up; two event days to take place on Saturday & Sunday; and one day for breakdown) and would take place in the month of October. The event would involve live entertainment including a wine tasting tent, live music, a culinary village and chefs' stage, a wellness tent, other activations and demonstrations, and additional vendors throughout the festival grounds. The event would have an estimated average daily attendance of 10,000 people and requires 50-100 event staff and/or contractors to set-up and breakdown. The Applicant is responsible for providing sufficient parking for event attendees; and parking for the general public would be available at the Spanish Landing West parking lot and on nearby surface streets. Clear signage would be installed by the Applicant to identify designated rideshare pick-up and drop-off zones. Two of the parking lots at Spanish Landing Park East would be temporary utilized for staging as a part of the event footprint. The promenade would remain open and available for public use throughout the duration of the festival.

Due to its temporary nature and limited scope, the proposed project would generate a minor amount of vehicle trips and would require limited use of equipment. Therefore, impacts related to air quality, greenhouse gas emissions, and transportation and traffic are not anticipated to occur. Furthermore, the Applicant would be responsible for complying with all applicable federal, state, and local laws regarding construction demolition debris, hazards and hazardous materials, and stormwater.

Normal Operations of Facilities for Public Gatherings (SG § 15323) (Class 23)

Consists of the normal operations of existing facilities for public gatherings for which the facilities were designed, where there is a past history of the facility being used for the same or similar kind of purpose. For the purposes of this section, "past history" shall mean that the same or similar kind of activity has been occurring for at least three years and that there is a reasonable expectation that the future occurrence of the activity would not represent a change in the operation of the facility. Facilities included within this exemption include, but are not limited to, racetracks, stadiums, convention
