Project Title: Dock Replacement by Marine Taxonomic Services at Silver Strand South
Project Location – Specific: Kingston Village, Coronado, CA 92118
Project location – City: Coronado
Project Location – County: San Diego

Description of Nature, Purpose, and Beneficiaries of Project: The proposed project would involve the replacement of existing finger and main walkway float structures by Marine Taxonomic Services (Applicant) on behalf of the Coronado Cays Homeowner Association (CCHOA) in the city of Coronado, California. Work to specifically complete the proposed project would involve the removal of deteriorating structures that total 1,113 square feet (sf) of dock area (0.026 acre) and the replacement of the deteriorated structures. There would be no anticipated impacts to eelgrass as a result of the proposed project. The proposed project does not require pile driving, and all existing guide pilings are to remain in place for reuse. The replacement structures would be manufactured and pre-assembled at an off-site location and will be delivered to the project site on semi-trucks over the course of eight (8) truck trips. Once delivered, the existing structures and replacement structures will be craned into and out of the water on the south side of Grand Caribe Causeway. Existing structure components to be replaced will be hauled off using the same trucks such that there are no additional vehicle trips to remove them from the site. Staging of the crane on Grand Caribe Causeway would be temporary and required for several days as docks would be removed and replaced all at once. Crane operations would not result in road closure during construction of the proposed project.

The proposed project will consist of the following improvements, including but not limited to:

- Replacement of East Dock main walkway floats #1-27 and 27.2
- Replacement of East Dock fingers #1, 2, 3, 4, and 15.3
- Replacement of West Dock main walkway floats #5, 6, 9-39, and 47.4
- Replacement of West Dock fingers #32, 34, 37, 38, and 40.5
- Removal and reinstallation of existing utilities, as required
- Removal and reinstallation of existing dock components, as required
- Removal and reinstallation of existing gangways, as required

Construction of the proposed project is anticipated to occur in approximately Spring of 2023 and would take approximately 3-5 months to complete, with ongoing maintenance as needed.

Name of Public Agency Approving Project: San Diego Unified Port District (SDUPD)
Name of Person or Agency Carrying Out Project: Robert Mooney, Vice President, Marine Taxonomic Services, 920 Rancheros Dr., F-1, San Marcos, CA 92069; (760) 331-7897

Exempt Status: (Check one):
 Ministerial (Sec. 21080(b)(1); 15268);
 Declared Emergency (Sec. 21080(b)(3); 15269(a));
 Emergency Project (Sec. 21080(b)(4); 15269(b)(c));

- Categorical Exemptions: Existing Facilities (SG § 15301) (Class 1) and Replacement or Reconstruction (SG § 15302) (Class 2)**
- Statutory Exemption. State code number:

Reason Why Project is Exempt: The proposed project is determined to be Categorically Exempt pursuant to California Environmental Quality Act (CEQA) Guidelines Sections 15301 (Existing Facilities) and 15302 (Replacement or Reconstruction) and Sections 3.a.(1) and 3.b.(1) of the District's Guidelines for Compliance with CEQA because it consists of the replacement of existing dock fingers and floating gangway elements, that would involve a negligible expansion of use beyond that previously existing and would be located on the same site and would have substantially the same purpose and capacity as the structures being replaced. Section 3.a.(1) and 3.b.(1) of the District's CEQA Guidelines are as follows:

- 3.a. Existing Facilities (SG § 15301) (Class 1): Includes operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that previously existing, including but not limited to:
- (1) Repair, maintenance or minor alteration of existing mooring facilities, floats, piers, piles, wharves, bulkhead, revetment, buoys, or similar structures; marine terminal facilities; airport facilities; and commercial industrial, or recreational facilities.

AND/OR

- 3.b. Replacement or Reconstruction (SG § 15302) (Class 2): Includes replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site and will have substantially the same purpose and capacity as the structure being replaced.
- (1) Replacement or reconstruction of mooring facilities, piles, floats, piers, wharves, marine ways, bulkhead, revetment, buoys, or similar structures where the new structure will be on essentially the same site as the structure replaced and will have substantially the same size, purpose and capacity as the structure replaced.
