NOTICE OF APPROVAL**

Project: Utility Maintenance by The Dry Utility Group on behalf of San Diego Gas & Electric along North Harbor Drive
Location: Along North Harbor Drive between Airport Terminal Road and Laurel Street
Parcel No.: 007-031
Project No.: 2023-018
Applicant: Natasha Buerster, Project Coordinator, The Dry Utility Group, 137 E 11th St. Escondido, CA 92025
Date Approved: Apr 17, 2023

PROJECT DESCRIPTION

The proposed project would involve utility maintenance by The Dry Utility Group (Applicant) on behalf of San Diego Gas & Electric in the city of San Diego, California. Work to specifically complete the proposed project would include:

- Adjust five (5) manhole covers to grade
- Install two (2) SCADA poles
- Install SCADA pads as needed
- Install three (3) new conduits
- Remove two (2) existing conduits

Staging for this project would be along North Harbor Drive. One of the travel lanes would be closed during construction; however, one lane would remain open for traffic flow at all times.

Construction of the proposed project is anticipated to occur in Spring 2023 and would take approximately ten (10) weeks to complete with ongoing maintenance as needed. Due to its nature and limited scope, construction of the proposed project would generate a minor amount of vehicle trips and would require limited use of equipment. Therefore, impacts related to air quality, greenhouse gas emissions, and transportation and traffic are not anticipated to occur. Furthermore, the Applicant would be responsible for complying with all applicable federal, state, and local laws regarding construction demolition debris, hazards and hazardous materials, and stormwater.

The following categorical determinations are based on the project submittal and all project information known to the District as of the date of this determination.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA)

CATEGORICAL DETERMINATION

Categorical Exemptions: SG §15301, Class 1/Section 3.a: Existing Facilities and SG §15303, Class 3/Section 3.c: New Construction or Conversion of Small Structures

3.a. Existing Facilities (SG § 15301) (Class 1): Includes operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that previously existing, including but not limited to:

- (7) Existing facilities used to provide electric power, natural gas, sewerage, or other public utility service.

AND/OR

3.c. New Construction of Conversion of Small Structures (SG § 15303) (Class 3): Includes construction of limited numbers of new, small facilities or structures; installation of small new equipment and facilities in small structures; and conversion of existing small structures from one use to another with minor modifications to the exterior of the structure. Examples of this exemption include:

- (3) Water, sewer, electrical, gas, telephone, and other utility structures or facilities.

The proposed project is determined to be Categorically Exempt pursuant to the CEQA Guidelines and the Sections of the District's *Guidelines for Compliance with CEQA* as identified above. These are appropriate for the proposed project because it would consist of the modification, maintenance, replacement, and repair of existing utility structures that would involve a negligible expansion of use beyond that previously existing. The District has determined none of the six exceptions to the use of a categorical exemption apply to this project (CEQA Guidelines Section 15300.2).

Pursuant to CEQA Guidelines Section 15062, a 35-day statute of limitations for this CEQA exemption shall apply from the date a Notice of Exemption is posted with the San Diego County Clerk, or a 180-day statute of limitations for this CEQA exemption shall apply if no Notice of Exemption is filed.

CALIFORNIA COASTAL ACT

PORT MASTER PLAN CONSISTENCY

Planning District: 2 - Harbor Island/Lindbergh Field (Precise Plan Figure 9)

Land Use Designation: Streets

The proposed project conforms to the certified Port Master Plan because it would involve utility maintenance consistent with the existing certified land use designation. The proposed project would not change the use of the site nor would it interrupt or expand the existing conforming uses of the site.

CATEGORICAL DETERMINATION

Categorical Exclusions: Section 8.a: Existing Facilities and Section 8.c: New Construction or Conversion of Small Structures

8.a. Existing Facilities: The operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that previously existing, including but not limited to:

- (2) Public and private utilities used to provide electric power, natural gas, sewer, or other utility services

AND/OR

8.c. New Construction or Conversion of Small Structures: Construction and location of limited numbers of new, small facilities or structures and installation of small, new equipment and facilities, involving negligible or no change of existing use of the property, including but not limited to:

- (2) Water main, sewer, electrical, gas, or other utility extensions of reasonable length to serve such construction

The proposed project is determined to be Categorically Excluded pursuant to the Sections of the District's *Coastal Development Permit Regulations* as identified above. These are appropriate for the proposed project because it would involve negligible or no expansion of use beyond that previously existing.

Pursuant to California Coastal Act Section 30717, there is a 10-working-day period to appeal this "Coastal Act Categorical Determination of Exclusion" to the California Coastal Commission.

CALIFORNIA PUBLIC TRUST DOCTRINE

The proposed project complies with Section 87.(a)(4) of the Port Act, which allows for the construction, reconstruction, repair, and maintenance of highways, streets, roadways, bridges, belt line railroads, parking facilities, power, telephone, telegraph or cable lines or landings, water and gas pipelines, and all other transportation and utility facilities or betterments incidental, necessary, or convenient for the promotion and accommodation of any of the uses set forth in this section. The Port Act was enacted by the California Legislature and is consistent with the Public Trust Doctrine. Consequently, the proposed project is consistent with the Public Trust Doctrine.
