Project Title: Replacement of Torrey Pines at Seaport Village
Project Location – Specific: 442 Kettner Boulevard, San Diego, CA 92101
Project location – City: San Diego
Project Location – County: San Diego

Description of Nature, Purpose, and Beneficiaries of Project: The proposed project would involve the replacement of three (3) existing Torrey Pine trees by Protea Properties (Applicant) on behalf of the San Diego Unified Port District (District) in the city of San Diego, California. The existing trees are located within a landscaped planter on Kettner Boulevard, behind the Malibu Farm Restaurant and near the entrance to Embarcadero Marina Park North (EMPN).

The proposed project would consist of the removal of the three (3) existing Torrey Pine trees and replacement with a 2:1 ratio, for a minimum replacement of six (6) trees. The replacement trees are proposed to be replanted at the locations identified in Attachment 1. All possible tree species proposed for replanting would be suited for the San Diego environment and would require minimal watering once established. Tree species proposed for replanting shall be drought-tolerant (or irrigated via reclaimed water), either native or non-invasive plant species, and would reflect the palette of trees and shrubs which already exist elsewhere on Tidelands. The tree species currently proposed for replanting are the Dawn Redwood and Atlas Cedar; however, the replacement species are subject to change based on nursery availability. The box size of replacement trees is anticipated to be 36" box trees, with a 24" box being the minimum. It is anticipated that all replacement trees would be planted by approximately Fall 2024.

The proposed project is anticipated to occur in approximately early 2024 and would take approximately two (2) weeks to complete, with ongoing maintenance as needed. The tree removal activities would take approximately 4-5 days and would require a truck lift and 1-2 work vehicles. The paver removal and replacement work would take approximately 3-5 additional days to complete. All work would occur between approximately 6:00 a.m. to 2:00 p.m. during the week, and the equipment vehicles would be temporarily staged along Kettner Boulevard and near the landscaped area. Following work each day, all equipment and vehicles would be moved and staged overnight in the eastern Seaport Village Parking Lot as to minimize disruption to ingress/egress to EMPN in the evening. The District would conduct all tree removal activities outside of the migratory bird breeding and nesting season, and no removal work would occur between February 15 and September 1.

Name of Public Agency Approving Project: San Diego Unified Port District (SDUPD)
Name of Person or Agency Carrying Out Project: Erin Bobrowski, Commercial Property Manager, Protea Properties, 849 West Harbor Drive, San Diego, CA 92101; (619) 270-4646

Exempt Status: (Check one):
 Ministerial (Sec. 21080(b)(1); 15268);
 Declared Emergency (Sec. 21080(b)(3); 15269(a));
 Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
 Categorical Exemption: Existing Facilities (SG § 15301) (Class 1)
 Statutory Exemption. State code number:

Reason Why Project is Exempt: The proposed project is determined to be Categorical Exempt pursuant to California Environmental Quality Act (CEQA) Guidelines Section 15301 (Existing Facilities) and Section 3.a.(12) of the District's Guidelines for Compliance with CEQA because it would consist of replacing trees that would involve a negligible expansion of use beyond that previously existing and would result in no permanent effects on the environment. The proposed project would consist of the replacement of existing sidewalk panels to prevent trip-hazards in Seaport Village and is necessary for ensuring the safety of those who visit the waterfront. Section 3.a.(12) of the District's CEQA Guidelines is as follows:

3.a. Existing Facilities (SG § 15301) (Class 1): Includes operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that previously existing, including but not limited to:

(12) Maintenance of existing landscaping, native growth, and water supply reservoirs.
