Project Title: CP Kelco, U.S., Inc. Sublease Amendment No. 2 to R.E. Staite at Tenth Avenue Marine Terminal
Project Applicant: Marco Verduzco, Plant Manager, CP Kelco, 2025 East Harbor Drive, San Diego, CA 92113; 619-595-5191**Project Location – Specific**: 2145 East Belt Street, San Diego, CA, 92113
Project location – City: San Diego
Project Location – County: San Diego

Description of Nature, Purpose, and Beneficiaries of Project: The proposed project includes issuance of a sublease amendment from the Master Tenant (CP Kelco) to R.E. Staite (Sub-Tenant) to continue operations within their existing sublease footprint. The term of the existing sublease expires on October 31, 2026, and the term for the proposed sublease amendment would be up to five (5) years. The uses allowed by the proposed sublease amendment would not substantially change from current uses of the site, and would include moorage of tugs, barges, cranes and other maritime vessels, loading and unloading of such vessels, storage of construction equipment and materials relating thereto, and the ancillary repairs and maintenance of vessels and equipment (conditioned upon obtaining applicable regulatory permits and compliance with applicable laws and regulations). Under the proposed sublease amendment, the Sub-Tenant would be required to implement emissions reductions strategies to decrease diesel particulate matter, oxides of nitrogen, and other emissions originating at the sublet premises, submit a water area redevelopment plan (subject to future environmental review), prepare plans, specifications and other required submittals for all entitlements necessary to remove the "Raymond L" barge from the sublet premises (subject to future environmental review), and provide access to and accommodate coastal-dependent uses that could occur within the Master Tenant leasehold. Emissions reductions strategies to be implemented include: replacing all propane forklifts with electric forklifts; replace all fleet vehicles with electric vehicles; convert all diesel-powered equipment to Tier 4 certified engines or greater; and connect all vessels to shore power for the duration of time that they remain on the sublet premises.

Applicant and Sub-Tenant would be responsible for compliance with all laws and regulations associated with the activities on or in connection with the sublet premises, and in all uses thereof by the Sub-Tenant, including those regulating stormwater and hazardous materials. Specifically, the Sub-Tenant shall not cause or permit to occur at any time any release by Sub-Tenant or its agents or invitees of a hazardous material into the soil, bay or ground water on, under or beneath the sublet premises. Sub-Tenant would be responsible for acquiring necessary permits from the District (including the necessary real estate or access agreements), and any relevant resource agencies (such as the California Coastal Commission, Army Corps of Engineers, and Regional Water Quality Control Board) for proposed project locations within and not within the District's permitting or coastal jurisdiction.

Name of Public Agency Approving Project: San Diego Unified Port District (SDUPD)

Exempt Status: (Check one):
- □ Ministerial (Sec. 21080(b)(1); 15268);
- □ Declared Emergency (Sec. 21080(b)(3); 15269(a));
- □ Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
- ■ **Categorical Exemption(s): Existing Facilities (SG § 15301) (Class 1)**
- □ Statutory Exemption. State code number:

Reason Why Project is Exempt: The proposed project is determined to be Categorically Exempt pursuant to California Environmental Quality Act (CEQA) Guidelines Section 15301 (Existing Facilities) and Section 3.a. of the District's Guidelines for Compliance with CEQA because the continued use of the site and the minor alterations associated with implementing emissions reductions strategies to decrease diesel particulate matter, oxides of nitrogen, and other emissions originating at the sublet premises would involve negligible expansion of use beyond that previously existing and would not result in a significant cumulative impact due to the continuation of the existing use. Section 3.a. of the District's CEQA Guidelines is as follows:

3.a. Existing Facilities (SG § 15301) (Class 1): Includes operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that previously existing.]

The District has determined none of the six exceptions to the use of a categorical exemption apply to this project (CEQA Guidelines Section 15300.2).
