Project Title: Installation of New Electric Vehicle Charging Stations by BAE Systems at Tenth Avenue Marine Terminal

Project Applicant: Sandor Halvax, Environmental Manager, BAE Systems SDMS, 2205 Belt Street, San Diego, CA 92113 (619) 288-5274

Project Location – Specific: 2205 East Belt Street, San Diego, CA 92113

Project location – City: San Diego

Project Location – County: San Diego

Description of Nature, Purpose, and Beneficiaries of Project: The proposed project would involve the installation of new electric vehicle (EV) charging stations on the BAE leasehold at Tenth Avenue Marine Terminal by BAE Systems in the city of San Diego, California. Four (4) new 80-amp charging stations would be installed along the north exterior wall of Building 55, south of Belt Street, to allow recharging of new electric vehicles purchased to replace existing gasoline vehicles. Work to complete the proposed project would include trenching approximately 80 feet (36 inches deep) from Building 95 to Building 55 in order to install a 3 inch PVC conduit to connect to a new 480V distribution panel. A trench approximately 40 inches deep by 20 inches wide would then allow for electrical connection from the distribution panel to the charging stations in order to connect power to the newly installed stations. No new or additional electric or other utility interface would be required since the proposed project would be utilizing a dedicated circuit from Building 95 to power the new commercial load of the new charging stations. All trenching would involve removal of the existing blacktop, then filling, compacting, and replacing the blacktop to existing conditions. All excavated soil would be stockpiled and reused onsite. All construction and construction staging would take place on and within BAE's leasehold.

Construction of the proposed project is anticipated to occur in Spring 2026 and would take approximately three (3) months to complete.

Due to its nature and limited scope, construction of the proposed project would generate a minor amount of vehicle trips and would require limited use of equipment. Therefore, impacts related to air quality, greenhouse gas emissions, and transportation and traffic are not anticipated to occur. Furthermore, the Applicant would be responsible for complying with all applicable federal, state, and local laws regarding construction demolition debris, hazards and hazardous materials, and stormwater.

Name of Public Agency Approving Project: San Diego Unified Port District (SDUPD)

Exempt Status: (Check one):

- Ministerial (Sec. 21080(b)(1); 15268);
- Declared Emergency (Sec. 21080(b)(3); 15269(a));
- Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
- Categorical Exemption(s): New Construction or Conversion of Small Structures (SG § 15303) (Class 3) and Minor Alterations to Land (SG § 15304) (Class 4)**
- Statutory Exemption. State code number:

Tenant Project No. 2026-006

Reason Why Project is Exempt: The proposed project is determined to be Categorical Exempt pursuant to California Environmental Quality Act (CEQA) Guidelines Section 15301 (Existing Facilities) and Section 15304 (Minor Alterations to Land) and Section 3.c. and 3.d. of the District's Guidelines for Compliance with CEQA because the installation of new EV charging stations would consist of the construction of new, small structures and installation of small, new equipment, and minor trenching and backfilling would result in no permanent effects on the environment, and would not involve the removal of mature, scenic trees. Section 3.c. and 3.d. of the District's CEQA Guidelines are as follows:

3.c. New Construction or Conversion of Small Structures: Includes construction of limited numbers of new, small facilities or structures; installation of small new equipment and facilities in small structures; and conversion of existing small structures from one use to another with minor modifications to the exterior of the structure. Examples of this exemption include:

(3) Water, sewer, electrical, gas, telephone, and other utility structures or facilities.

AND/OR

3.d. Minor Alterations to Land: Includes minor alterations in the condition of land, water, and/or vegetation not involving removal of mature, scenic trees, including, but not limited to:

(7) Minor trenching and backfilling where the surface is restored.
