Project Title: Right of Entry License Agreement to Rohr, Inc., for Environmental Remediation at Parcel H-23

Project Applicant: Stephanie Cushing, Project Manager, Rohr, Inc., 4 Farm Springs Road Farmington, CT 06032; (469) 990-7138

Project Location – Specific: Parcel H-23 in Chula Vista Bayfront

Project location – City: Chula Vista

Project Location – County: San Diego

Description of Nature, Purpose, and Beneficiaries of Project: The proposed project is a Right of Entry License Agreement (ROELA) to Rohr, Inc (Grantee) to enter certain properties located within the Former South Campus property in the Chula Vista Bayfront Master Plan area, within the interpreted area known as Parcel H-23 in the city of Chula Vista, California. The area proposed for use under this ROELA would be used by the Grantee and their authorized agents and contractors for the purpose of environmental remediation including but not limited to groundwater remediation and monitoring required under Cleanup and Abatement Order No. R9-2014-0019, as issued by the San Diego Regional Water Quality Control Board in 2014, as well as ingress and egress in support of those activities. No new development, construction, or increase in the size of the area is proposed or authorized as part of the ROELA.

It is anticipated that the ROELA would have a total term of approximately four (4) years, or upon completion of the work, whichever occurs earlier. The ROELA may be terminated by the District as a matter of right and without cause at any time upon providing twenty-four (24) hours' notice in writing to the Grantee of such termination.

Due to its nature and limited scope, construction of the Project would generate a minor amount of vehicle trips and would require limited use of equipment. Also, as discussed above, the Project proposes activities that are intended to remediate and monitor existing groundwater contamination, consistent with orders of the Regional Water Quality Control Board. Therefore, significant impacts related to air quality, greenhouse gas emissions, and transportation and traffic are not anticipated to occur. Furthermore, the Grantee would be responsible for complying with all applicable federal, state, and local laws regarding construction demolition debris, hazards and hazardous materials, and stormwater.

Name of Public Agency Approving Project: San Diego Unified Port District (SDUPD)

Exempt Status: (Check one):

- Ministerial (Sec. 21080(b)(1); 15268);
- Declared Emergency (Sec. 21080(b)(3); 15269(a));
- Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
- Categorical Exemptions: *Minor Alterations to Land (SG § 15304) (Class 4) and Information Collection (SG § 15306) (Class 6)***
- Statutory Exemption. State code number:

Reason Why Project is Exempt: The proposed project is determined to be Categorically Exempt pursuant to California Environmental Quality Act (CEQA) Guidelines Sections 15304 (Minor Alterations to Land) and 15306 (Information Collection) and Sections 3.d. and 3.f. of the District's Guidelines for Compliance with CEQA because the proposed project consists of a ROELA for environmental remediation pursuant to Regional Water Quality Control Board orders. The project, and associated remedial actions, would not result in any permanent effects on

the environment, and would minimize and stabilize the release or threat of release of hazardous substances from the project site. The project remediation activities would be undertaken strategically, and consistent with Regional Water Quality Control Board authorization, to effectively treat and monitor existing subsurface contamination. The project would also be subject to, and must adhere to, all applicable regulations related to such activities, including the California Water Code and Regional Water Quality Control Board regulations and orders. Moreover, the project would not involve the removal of mature, scenic trees, and is for the purpose of basic data collection, research, and resource evaluation activities which would not result in a serious or major disturbance to an environmental resource. Section 3.d. and 3.f. of the District's CEQA Guidelines is as follows:

- 3.d. Minor Alterations to Land (SG § 15304) (Class 4): Includes minor alterations in the condition of land, water and/or vegetation not involving removal of mature, scenic trees, including, but not limited to:
- (6) Minor temporary use of land having negligible or no permanent effects on the environment.

AND/OR

- 3.f. Information Collection (SG § 15306) (Class 6): Includes basic data collection, research, experimental management, and resource evaluation activities which do not result in a serious or major disturbance to an environmental resource. These may be for information gathering purposes, or as part of a study leading to an action which has not yet been approved, adopted or funded.
