**Description of Nature, Purpose, and Beneficiaries of Project:** *The proposed project involves the replacement of existing electrical system and installation of a forklift charging station at B Street Pier located in the city of San Diego, California. No new development is proposed as part of the project and the replacement would not increase the size or intensity of use of the existing facility. Additionally, no trenching is proposed as a part of this project. Work to specifically complete the proposed project would include the following:*

- *Removal and reuse of unused 3-inch conduit system;*
- *Installation of electrical distribution equipment and receptacle for forklift and cart chargers;*

*Construction of the proposed project is anticipated to commence in either April or July 2018 and take approximately three months to complete. Due to its nature and limited scope, construction of the proposed project would generate a minor amount of vehicle and truck trips and would require limited use of construction equipment. Vehicle trips would be associated with deliveries, transport of construction workers, and hauling of debris. Therefore, no impacts are anticipated.
