

SAN DIEGO BAY
WATERSHED MANAGEMENT AREA
Municipal Separate Storm Sewer System
Map (MS4)

- Legend**
- Watershed Sub-Basins
 - (MS4) Point Features
 - (MS4) Linear Features
 - Major Roads
 - Lakes
 - Rivers
 - Creeks
 - Streams
 - Incorporated Area
 - 303(d) Waters (2006)****
 - Coastal Shorelines
 - Rivers/Streams
 - Bays and Harbors
 - Estuaries
 - Lakes/Reservoirs

Data Sources:

MS4: Various jurisdictions (2007); MS4 data were provided by individual Copermittees to the County of San Diego. Jurisdictional MS4 layers are in various stages of completion and have been simplified into a simple point and line symbology for the purposes of this map. Some of the MS4 layers shown are still in draft form. Gaps in the MS4 data are most likely a reflection of missing data rather than a true inventory of drainage structures in the watershed. This map is not intended for any use other than to respond to Permit section E.2.b., which requires development of a map of the WMA including MS4 features.

**303(d) Waters / Watersheds: (SWRCB). (2006)

Disclaimer:
The 2006 303(d) List GIS shape files and associated 303(d) list excel tables containing the information shown on the list are provided on this State Water Resources Control Board website for public use. These GIS representations of the areal extent of affected waters are estimated and should not be considered authoritative for the development of TMDLs (Total Maximum Daily Load) or other regulatory actions. The TMDL effort may ultimately address more or less areal extent than shown in these GIS files. Mapping the 303(d) listed waters is a work in progress and will be updated during each listing cycle to better define the impacted areas.
