# WE'VE GOT BIG GOALS

At the Green Business Network, we provide **FREE** education and resources to waterfront businesses like yours who are committed to reducing our collective environmental footprint. We collaborate with our members on training opportunities and supply resources to help you improve operational efficiency and implement sustainable business practices that keep our bay blue.

## HOW OUR GREENWORK HELPS YOU WIN

### Cut Costs & Environmental Impact

Save money while you reduce your environmental impact, prioritizing energy efficiency, clean transportation, water conservation, and waste reduction.

### Free Educational & Technical Resources

We provide educational workshops and resources to introduce you to new and innovative technology to reduce your environmental footprint.

### Hands-On Support

We offer one-on-one assistance to improve your sustainability practices.

### Community Recognition

We like to share the incredible work our members do! Members are recognized for their commitment to sustainable business practices through public outreach campaigns, a robust social media network, featured case studies, and an annual awards ceremony.

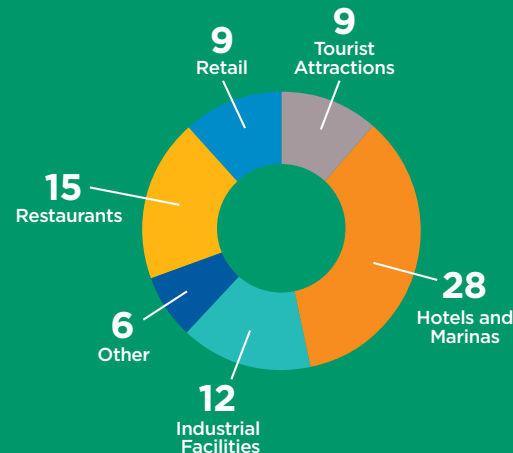

### Networking

Member events and workshops offer opportunities to learn and network with other committed teammates!

## TEAM HIGHLIGHTS

Since 2010, members have saved nearly 11 million kilowatt hours of electricity and 300,000 therms, the equivalent of removing 1,900 cars from the road for one year.

## Over 70 Green Business Network Members

## FACTS

A voluntary sustainability program available to all Port tenants and subtenants

Founded in 2010

Committed to working together with the Port to reach a 40% reduction in greenhouse gases by 2030

## MEMBER TESTIMONIALS

"The Green Business Network has been a great opportunity for us to share and exchange information about different technology and techniques."

- **Marine Group Boat Works**

"We think it's important for us to contribute to future generations and our clients appreciate that. They look for companies that share their interest in sustainability."
